KNOWLEDGE IS POWER.

Your head is the type of your mind. Self-knowledge is the essence of all knowledge. Worth always harmonizes with itself. All the known phenomena of the universe may be referred to three general principles, viz: Matter, Motion and Spirit.

De. C. H. BODGE, Practical Phrenologist, has taken a Phreno-Medical office on South Hanover street, Carlisle, P.a., where he is prepared to makeprofessionel examinations with verbal and written descriptions of human character, talents and disposition, as phrenologibally and physically developed, including directions to the mest suitable occupations, selections of partners in business, or genial companions for life, or how to choose a husband or wife; together with advice as to the proper regulation of the temperaments, propensities, appetites and habits. In sickness how to gain health again when lost by exposur; to bed habits. He will make clurts of character is the first object of this great book on mind and matter, and in order to render it accessible to all it condense, facts and conditions rather than elaborates arguments because to expound Phrenology is its highest proof. It states laws and results and leaves them upon their naked morits; embodies recent discoveries and crowds into the fewest possible pages and words just what learners need to know, and hence requires to be studied rather than merely read. "Short yet clear," is its motto. Its numerous illustrative engravings give the results of very extendive professional observation and experience. To record character is its second object. In fact it is just what every body want. Price \$2. For examination and Chart marked \$2. Verbal examinations 25 cents.
