The subscriber would respectfully inform his friends and the public, that he is now receiving 1000 tons of that very superior IED ASH (OAL, from the Luke Fidler, mines of Boyd, Rosser & Co., the only Red Ash Coal brought from the Shamokin Basin, introduced and known in Carlisle as the Helfensthne Coal. It is entirely free from slate and all other impurities, and is perfectly adopted to all mechanical and domestic purposes. Its readiness to ignite, renders it particularly desirable for small stoves, while its introsity of heat and great dura-bility in burning makes it equally so for large ones. Ho would also call the attention of faringers and others to a superior article of CHESNUT COAL, from the same mines, for steam and line purposes. " For sole only in Carlisle by. July 25, '55.-3t. G.
