LET US REASON TOGETHER. HOLLOWAY'S PILLS. WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM of all climes, ages, sexes, and constitutions.

These PILLS purify the blood, operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS. Nearly half the human race have taken these PILLS. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and all other complaints of the bowels, which give a healthy tone to these organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY. ILL HEALTH. Many of the most despotic Governments have opened their Custom Houses to the introduction of these PILLS, that they may become the medicine of the masses. These Colleges admit that this medicine is the best remedy ever known for persons of delicate, or whose system has been impaired, as its purgating properties never fail to afford relief.

GENERAL DEBILITY. ILL HEALTH. No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly course at all periods, and acts as a safe and healthy like a charm.

HOLLOWAY'S PILLS ARE THE BEST REMEDY KNOWN IN THE WORLD FOR THE FOLLOWING DISEASES: Asthma, Debility, Worms of all kinds, Bowel Complaints, Fever and Ague, Stone and Gravel, Coughs, Female Complaints, Secondary Symp- toms, Chest Diseases, Headaches, Inward Weakness, Costiveness, Indigestion, Liver Complaints, Dyspepsia, Influenza, Liver Complaints, Dropsy, Rheumatism, and all other Affections of the Blood.

These PILLS are sold at the Manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and 24 Strand, London, by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in boxes at 25 cents, 50 cents, and 1 dollar.

There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disease are affixed to each box.

1000!! 1000!! AFFLICTED. CUT OUT AND PRESERVE THE FOLLOWING CARD. It is particularly important to Stragglers, who have been misled and deceived by the lying boasts, false promises, and spurious recommendations (from the dead and the living) of false and active Quacks, who have done more mischief than all the laws of the State, and the solemnity of the Oath of the Clergy.

Having tried one to twenty dollars worth of Quack Mixtures, Extracts, and other Remedies, I have been cured by HOLLOWAY'S PILLS, and I can testify to their efficacy in curing all the diseases mentioned in the advertisement, and I can testify to their efficacy in curing all the diseases mentioned in the advertisement.

YOUNG MEN OF ORIBETS. Single, married, or contemplating marriage, suffering from self-abuse, or any other disease, or suffering from any other disease, or suffering from any other disease, or suffering from any other disease.

HAPPINESS! WHAT CAN MAKE US HAPPY?

Reason's whole pleasure, all the joys of sense, lie in three words—Health, Peace, and Contentment.

But when we have pain, affliction or anguish of disease, is not our pleasure, our joy, and our happiness thereby destroyed? Why let our sick feeling suffer? Does not Christ say: "With the same measure ye mete, it shall be measured to you again?"

MOST IMPORTANT TO THE LADIES.—Dr. Gelsner's celebrated Menstruating Pills have been long and widely known as invariably certain in removing any stoppage, irregularity, or suppression of the menses.

In the Female Hospitals in Vienna, Paris, and Berlin, they have entirely superseded the use of all other remedies; because, where a cure is obtainable by medicinal agencies, they are certain of success. Their astonishing efficacy would be almost incredible, if not vouched for by indubitable testimony, in numerous instances producing returns of the monthly period after all hope had been abandoned.

In every case, from whatever cause the obstruction may arise, as also to prevent pregnancy where the health will not admit of increase of family, they are always efficient; for which reason they must not be used during pregnancy, though always mild, healthy, safe and certain in their effects.

Married ladies will find particular instructions in the directions in which are stated in various symptoms by which the causes of the suppression may be determined. Price, One Dollar per Box, containing explicit directions.

Each box will be signed by Dr. R. G. GELLSNER, Principal Office, 127 1/2 Liberty Street, New-York City. Responsible agents will be appointed for their sale soon as practicable. In the mean time, all orders are to be addressed to Dr. R. G. GELLSNER, 127 1/2 Liberty Street, New-York City, N. Y. Post Office, and box will be sent by return mail, as they are put in sealed envelopes, and can be sent with the strictest privacy to any part of the United States.

CAUTION TO LADIES. As various not only ineffective, but injurious compounds have been prepared to be "EMERALD PILLS," "SILVER PILLS," "GOLDEN PILLS," "DIAMOND PILLS," &c. are attempted to be palmed off upon the credulous or unwary, it is only necessary for ladies to be on their guard against the use of such impostors, and to be satisfied that there is no authorized agent for the sale of "DR. GELLSNER'S MENSTRUATING PILLS," to order direct from him by mail, by return of which a box will be sent.

SCENES IN REAL LIFE.

(Continued from second page.) brought silent regrets, and after while came melancholy complainings by the mother, sighing for the embrace of her first born.

These soon led to anger and criminations at home, and dissipation by the father abroad. Losses came upon them, and at last, gathering the few worldly goods they possessed, they left the proud city of their birth, and settled five years ago, upon land purchased of the Government in Wisconsin.

Her brothers, some older and some younger than herself, one by one by one drooped and died; and soon the mother, calling in agony upon her long exiled daughter, joined her boys in a happier clime.

None were left but the father and this poor girl. He too was humbled and stricken by that slow and certain disease which lights up the cheek, and fires the eye with the brilliancy of health, even when its victim is on the confines of eternity; he would sit and tell to his surviving child the acts of winning love and sacrificing devotion, which had made his Lizzie the very object of life.

He would talk of her sweet smiles and her happy disposition, until memory would lead him to the hour when he had bid her depart and not let him see her face again. His decline was rapid, and this one child saw the first flowers which the warmth of spring had called from the soil of her mother's grave, distributed uprooted and thrown aside, that his ashes might mingle with those of the mother of his children.

At his death he charged her to pay off, as far as she might be able, the debts incurred to procure the necessaries of life; the land, which for want of culture, had not increased in value, was sold, and left her but a few dollars. These she expended in rearing a few boards to mark the spot where she had buried one after another, her beloved kindred. She had heard of Chicago. She had heard that in this city there were offices where strangers wishing employment could find work. She had on foot traveled many miles, until she reached Milwaukee; and thence by the kindness of a poor sailor who had seen her day by day on the dock, watching the steamers depart, and inquired and ascertained that she wished to come thither had not the money.

He brought her to Chicago on his own vessel, and had told her that by crossing the bridge she could find one of those places where situations were given to worthy applicants.

Such was her story. She had mentioned no name except that of father, mother, and the endearing appellations of brother George, Willie, &c. Both the women were crying bitterly.

The fashionably dressed lady turned her face towards the river, that her tears, at such a crowded and unusual place, might not be observed. She requested us to take her two boys, George and Willie she called them, by the hand to keep them from danger, and then putting her arm around the neck of the poor, friendless, wandering orphan stranger, said "You are my own sister. I am Lizzie!"

These two beings, children of the same parents, how different have been their paths, and how deep their sufferings! We have seen them together in "Lizzie's" carriage, driving along Lake Street. They are doubtless as happy as their bereavements, relieved only by the consciousness of duty faithfully performed, can permit. But while the suffering of that father and mother may be faintly known from the story of the daughter, what must have been the mental agony of that other daughter, unkindly banished from the mother's side, and driven out into the world without a father's blessing? What must have been her grief, when her letters written from a prosperous city, from the house of her wealthy and kind husband, telling them of her success, and the birth of her children, were unnoticed and unanswered? She must have felt, indeed, that the hearts of that father and mother, her sisters and brothers, must have been hardened against her. We will say no more. That scene will live in our memory while we can remember the holy love of father, mother and kindred.
