

Farmers' Department.

The Demand for Corn.

Notwithstanding the large crop of corn made last year, it is not so certain that by the time the next crop is gathered, there will be much of a surplus on hand. In the nature of things, it is next to impossible that this year's crop can approach to anything like that of the last, and it is well known that there was no surplus of the old crop last fall. Some idea may be gathered of the quantity of corn required for feeding cattle and hogs, for the supply of the Atlantic city markets, from the following facts. The freight on cattle and hogs, by the N. Y. & Erie, the Hudson River, and Central railroads, to the city of New York amounted to One Million of Dollars. New York city consumed in the last year 185,574 beef cattle; Philadelphia and Baltimore, about 100,000—total 285,000 head for these three cities, furnished from the Western States; add to which 600,000 live hogs, besides horses, mules, sheep, cows, veals, &c., from the same section, and then estimate the amount of corn that is required to furnish this amount of meat, and it will be found that most of that which may be spared from feeding the human family, will be required for the flesh-producing races. The average sales of bullocks, last year, in New York, were 808 head more, weekly, than the preceding year, equal to an increase in one year of 42,000 head! We have seen an estimate made of the quantity of corn which is required to furnish fresh meat alone for the three cities mentioned, and Boston, which amounts to the enormous quantity of 81,183,292 bushels. At an average yield of corn per acre of 37 bushels, the number of acres required to produce this amount of corn will be 2,194,143.

Plaster and Ammonia.

A correspondent of the Genesee Farmer says: "You have lately proven that gypsum, in its ordinary condition of dry powder, will not combine with carbonate of lime and sulphate of ammonia. I know it is a practical fact, from trial on a large scale. I also thought it would in some cases expel ammonia, because it had injured an experimental plate of turpins by mixing gypsum with guano. With no more chemistry than a gentleman obtains at college and retains scantily amid the varied duties and pursuits of life, I have a very high respect for the results that induction, like yours in the case above, will give us, but no confidence in the dicta of men like Liebig, whose genius (and I think he has a great deal of it), is occasionally prostituted to fame." [We recommend this paragraph to the attention of our farmers. The lesson to be derived from it, is that gypsum should be moistened, when mixed with guano.

To Improve Seed Potatoes.—Charles Seager, of St. Louis, recommends the following easily tried method of improving potatoes, so as to restore them to the original soundness, richness and mealliness of this valuable root.—The plan is this:—Keep back some seed potatoes for six or seven weeks after the usual time of planting; say to the last week of June or the first week of July, and then plant and cultivate them the same as stock potatoes. They will grow until the frost withers the vines, when they should be dug. As they have not had time to mature, they will be quite small—not more than an inch or an inch and a half through; but they should all be carefully gathered and kept safe from frost through the winter, and planted at the usual time of planting in the spring—one of the small potatoes being sufficient for seed in each hill. The result will be large sized, mealy potatoes, as I have proved by actual trial. I hope it will be tried by some of our farmers this year.

WHEAT TURNING TO CHESSE.—I see you offer \$50 reward to any who will "produce ocular demonstration that wheat will produce chesse." I shall accept your offer in order to have that point settled: Is a spur of chesse on a wheat head proof enough? H. A. P. Allen's Hill, N. Y. [No, sir. It is no proof of transmutation. We have seen many such heads; and if you have one which thus exhibits a spur of chesse apparently growing in a head of wheat, you can don-

ceive yourself in two minutes that the chesse was not produced by the wheat. All you have to do is carefully to bend down the chaff below where the chesse makes its appearance, when you can trace the stem of chesse to its end, showing that it is only held in the wheat head by pressure. It was entangled there during its growth and thus became separated from its parent class plant.—Country Gentleman.

Business Cards.

DR. GEO. W. NEIDICH, DENTIST. Operating room at the residence of Dr. Samuel Elliott, West High Street, Carlisle, [Mar. 19, 1856-57]

DR. I. C. LOOMIS, DENTIST. Office at the Post Office. Will be absent from Carlisle the last ten days of each month. [Aug. 1, '56]

Interest ceases after the expiration of the time specified in the certificate, unless renewed for another given period, in which case, the interest is paid up until the time of the renewal. Bank opens at 10 o'clock, A. M., and closes at 2 o'clock, P. M. W. M. BERRY, Cashier. H. PARKER, President. April 25.

G. W. BRANDT, Manufacturer of Mineral Waters, French Mead, Bridge Street, near Porter and Elder. North-East Street, near the Rail Road Bridge, Carlisle.

Drug Stores.

DRUGS AND CHEMICALS. With a Splendid variety of CONFECTIONARY AND FANCY GOODS. The undersigned has just replenished his stock of goods, and as his Drugs and Chemicals, have been selected with great care, he is prepared to fill all orders promptly. His friends may rely upon the genuineness and purity of every article. This stock of CONFECTIONERY is large and selected with special reference to the Holiday. It will afford any variety persons may desire. He has a large assortment of French, German and domestic Candles, all fresh and of the very best quality. His assortment of FANCY GOODS is large and embraces all the novelties necessary for the Toilet and Family. He invites special attention to his Fancy Work Boxes, Ladies' Bags, Cologne bottles, Watch and Card Trays, Port Folios, Portmonies, &c., &c. Quick sales, small profits, and strict consistency in trade shall characterize our business. B. J. KIEFFER. Dec. 16, '55. Main street, Carlisle

NEW FURNISHING ROOMS, IN WEST HIGH STREET, OPPOSITE WILLIAMS' GROCERY.—The undersigned, having located himself permanently in Carlisle, has opened a Shop and Furniture Rooms, where he intends to manufacture and keep constantly on hand every variety of Parlor and Chamber Furniture and CHAIRS. Having considerable experience in the business, and intending to pay personal attention to the work and fidelity of his purchasers, he expects to give general satisfaction to all those who may favor him with their custom. It will be his aim to attend to business with as much promptness as possible, and will think nothing in his line unworthy his attention. He will warrant his work to be good, neat and in the latest styles, well finished, and will sell at the lowest prices possible for cash. Having furnished himself with an excellent HEARSE, he will be ready to fill all orders in that line, promptly and on the most reasonable terms. All kinds of furniture repaired and re-dressed promptly and in the best manner. ALEX. B. EWING. Carlisle, April 16, 1856.

REMOVAL.—Shaving and Hair-dressing Saloon.—The undersigned having removed to North Hanover Street, adjoining Bove's Furniture Warehouses, invites attention to his saloon, where all persons can receive a clean and easy shave, and have their hair cut and dressed in the most fashionable and exquisite manner. There is something soothing in a good shave, if any are disposed to doubt it, let them try me, and I will fully demonstrate the fact. WILLIAM BURGESS. April 6, 1856.

LADIES' SHOES.—A full assortment of Ladies' Fine Morocco and Kid Shoes and Buns. Also Misses' and Children's in great variety just received at the Cheap Store. CHAS. GILDY. April 4, 1856.

Purchasers may rely on having all articles carefully boxed and shipped to their places of destination. A book of designs will be sent to those who wish to see a selection. ROBERT WOOD. Ridge Avenue below Spring Garden, Phila. Oct. 10, '55.

Education.

WHITE HALL ACADEMY.—Three miles west of Harrisburg. The eleventh session of this institution will commence on Monday, the 6th of May, next. Parents and Guardians are respectfully requested to inquire into the merits of the Institution. The location is retired, pleasant and healthful, and the course of instruction embraces the ordinary and higher branches of an English Education, together with the Latin, Greek, French, and German languages, and vocal and instrumental music. Terms, boarding, washing, and Tuition in the English branch, and vocal music per session (21 weeks) \$100.00. For circular containing particulars address, D. DENLINGER, March, 12, 1856.] Harrisburg, Pa.

CARLISLE FEMALE SEMINARY.—MRS. MRS. CLARK, who has been for several years engaged in teaching, respectfully announces to the citizens of Carlisle and vicinity, that on the 1st of April, 1856, they will open a school in the house lately occupied by Dr. Blumenthal. The Seminary FOR YOUNG LADIES. The Institution will be both a boarding and day school, in which all the branches necessary for the complete education of young ladies will be taught. Assistants of the highest character for qualifications and attainments will be employed in accordance with the wants of the Institution, and no student will be admitted on strictly Christian principles, while sectarianism will be as rigidly excluded. The Principals favor themselves that their long and successful experience in teaching, as testified by the recommendations in their possession, will enable them to establish an Institution of the highest character for young ladies. They are fully persuaded that such an Institution can be sustained here by the citizens and neighboring country, and hope that their confidence may not be disappointed. A department for younger children will be immediately organized. BOARDING, including fuel, lights, and washing, \$50.00. Primary Department, 8.00. Higher English, 12.00. Ancient Languages, each, 4.00. Modern, 8.00. Ornamental branches at professor's charges. Tuition—Furnish—Furniture—except in case of protracted illness. REFERENCES: Hon. FREDK. WATTS, Rev. C. P. WING, J. B. PARKER, Esq., A. H. KRUMHOLTZ, JAMES HAMILTON, Esq., JACOB BRY, DR. K. BLUMENTHAL, and others. MRS. E. BLUMENTHAL, Rev. J. B. MOORE, March 19, 1856—year.

COMMERCIAL COLLEGE.—Removed to the new and spacious Hall, No. 99 and 101 CHAMBERLAIN STREET, near the Railroad, by O. K. CHAMBERLAIN, Principal and Lecturer upon Mercantile Science. Mr. K. LOSTER, in charge of Writing Department. Associate in Book Keeping Department, J. M. PHILLIPS, Teacher in Book Keeping, S. T. WILLIAMS, Lecturer on Commercial Law. These courses have not yet elapsed since the establishment of this Institution, during which time upwards of eight hundred students have been in attendance, representing nearly every State in the Union, among whom are numbers in Baltimore and elsewhere occupying prominent positions as business men, and accountants. COURSE OF STUDY. BOOK KEEPING.—The Principal has the utmost confidence in assuring the public that after an experience of ten years in teaching young men for the Counting Room and other important offices, and an extensive acquaintance with the management of business books of every description, (assisted as he is by two excellent accountants,) the course of training in this department is suitably practical, and well adapted to the various pursuits of Commerce and Trade, including, Individual, Partnership, Mercantile, Manufacturing, Commission, Exchange, Banking, Shipping, Steamboat, and Connected Company operations, &c. PENSANSHIP.—The exercises under this head are free, easy and graceful, combining rapidly of execution with beauty of construction, thus enabling the student to acquire an elegant business hand on completion of the course. MERCANTILE CALCULATIONS in all their various bearings are taught by the most accurate and experienced instructors. Daily lectures are delivered upon the Science of Accounts, Mercantile Customs, &c.; these in connection with a series of lectures on Commercial Law, are of the most every day interest, and of an extent and value positions in the business community. The time necessary for an industrious student to complete the course, varies from 8 to 12 weeks. There being no vacation, applicants can enter at any time, and in any part of the year. Examinations are held at stated periods, and diplomas awarded to those who graduate. For terms, etc., write and have a circular forwarded by mail. [Oct. 3,

HERRING'S PATENT, CHAMPION FIRE PROOF SAFES, with Herring's Patent Powder Proof Locks, which were awarded separate Medals at the World's Fair, London, 1851, and at the World's Fair, New York, 1853 and '54. The subscribers are the sole manufacturers and proprietors in this State of the above unequalled Safes and Locks. The reputation of the genuine Herring's Safe is world wide, and for the last thirteen years the mercantile community has witnessed and borne testimony to their superior safety. More than 12,000 of these Safes have been actually sold, and over two hundred have passed triumphantly through accidental fires. The public are assured that all Safes manufactured by the subscribers are not only guaranteed to be fully equal, but in many respects even superior to those which have been so severely tried by fire. Few will forget their services in the burning of the "Granite Bank" in New York, and at the Great Fire in Strawberry Street, at the large fire last July, opposite the Grand Hotel; and still more recently in the Fire at Fifth and Chestnut sts. in the city of Philadelphia, in which these Safes came forth, the acknowledged Champions, when many other securities failed. FAIRBANK & CO., IRON SAFE AND BANK LOCK MAKERS, 31 WALNUT STREET, Philadelphia. Chilled Iron Safes, with Powder Proof Locks, manufactured expressly for Banks, Brokers, Jewellers, and others requiring security from rogues. Bank Vaults, Doors, &c. on hand and made to order.—All the most celebrated locks for sale and manufactured by the subscribers. Second hand Safes, "Salamanders," and "Iron Chests" of other makers, have been taken in part payment for Herring's for sale at half price. apl.

HOWARD ASSOCIATION, PHILADELPHIA. IMPORTANT ANNOUNCEMENT. To all persons afflicted with certain diseases, such as SCURF, WEAKNESS, LAMENESS, GONORRHOEA, ULCERS, STY, &c., &c., the HOWARD ASSOCIATION of Philadelphia, in view of the awful destruction of human life now caused by scurvy diseases, and the operations which are practised upon the unfortunate victims of such diseases, has resolved to publish and distribute gratis, a MEDICAL ADVICE URINAL, to all persons thus afflicted, (male or female,) who apply by letter, (post-paid,) with description of their condition, age, occupation, habits of life, &c., and extreme poverty and inability to procure MEDICAL ADVICE FREE OF CHARGE. The Howard Association is a benevolent Institution, established by special enactment, for the relief of the sick, the afflicted, and the indigent, in all kinds of medical diseases, and its funds can be used for no other purpose. It has now a surplus of means, which the directors have voted to advertise the above notice. It is necessary to add that the Association commends the highest Medical skill of the day. Address, (post-paid,) Dr. GEO. R. CALLIOUN, Consulting Surgeon, Howard Association Philadelphia. By order of the BOARD OF HEARTWELL, President. GEO. FAIRCCHILD, Secretary. April 11.

DOLLARD, Premium Artist in Hair Dressing, and the Celebrated Gossamer Ventilating Cap, Elastic and non-Elastic. Instructions to enable Ladies and Gentlemen to assure their heads with accuracy. For Wigs, inches.—No. 1. The round of the head; No. 2. From forehead over the head to the neck; No. 3. From ear to the top of the head; No. 4. From ear to the crown of the head. Tuques and caps, inches.—No. 1. From forehead to back as far as bald; No. 2. Over forehead as far as required; No. 3. From crown of the head. DOLLARD has on hand and ready for sale a splendid stock of Gents' Wigs, Tuques, Ladies' Wigs, hair Wigs, Frizzes, Bands, Curis, &c., beautifully manufactured and as cheap as any establishment in the Union. He holds the celebrated Hair Tonic, prepared from South American Herbs and roots, the most successful article ever produced for preserving the hair from falling out or changing color, restoring and preserving the natural color of the hair, and curing all other reasons why Dollard's hair cutting saloon maintains its immense popularity is the fact that his Tonic is applied to every head of hair cut at his establishment, and consequently it keeps in better preservation than under any known application. It being thus practically tested by thousands, offers the greatest guarantee of its efficacy. Sold Wholesale and Retail at his Old Establishment 177 Chestnut Street, opposite the State House, Philadelphia. DOLLARD has at least discovered the no plus ultra of HAIR DYE, and announces it for sale with perfect confidence in its surpassing every thing of the kind now in use. It does not bleach the hair either black or brown, (as many desire) and is used without injury to the hair or skin either by stain or otherwise, can be washed off in ten minutes after application, without detracting from its efficacy. Persons visiting the city are invited to give him a call. Letters addressed to D. DOLLARD, 177 Chestnut St. Philadelphia, will receive attention. Jan. 25-1y

FRENCH TRUSSES.—Hernia or Rupture successfully treated, and comfort insured, by use of French Trusses, Imported by the subscriber, and made to order expressly for his sales. Agricultural

AGRICULTURAL IMPLEMENTS. PENNOCK'S CELEBRATED WHEAT DRILL. Adapted also for sowing oats, grass seeds and guano. Krauser's Portable Cider Mill—the best in the market. Hudday's patent Windmill—the best in the market. The above Superior Implements with all others, for the use of the farmer or gardener, for sale Wholesale and Retail by PASCHALL, MORRIS & CO., Agricultural Warehouse and Seed Store, Corner 7th and Market streets, Philadelphia. July 25, '56.

ANDREWS AGRICULTURAL WAREHOUSE. Nos. 21 and 23 South Sixth Street PHILADELPHIA.

PATENT SELF-SHARPENING. YANKEE FEED CUTTERS, manufactured by ALDRICH & SARGENT, No. 410 Market Street, Philadelphia. This cutter is superior to any now in use, for strength, durability, and simplicity of construction. It cuts fast, and is the only self-sharpening Hay, Straw and Corn Cutter ever made. It has but ONE STRAIGHT KNIFE, which any person can grind and set with ease, and in ordinary use is ground in the machine. Thousands have already been sold, and the demand is daily increasing. In most cases an examination is sufficient to convince one of its superiority. No one after a short trial would part for any other. All sizes of the above constantly on hand and for sale by J. P. LYNE, Sole Agent for Cumberland county. Oct 1

SCOTT'S LITTLE GIANT CORN AND COTTON MILL, PATENTED MAY 10th, 1854. The LITTLE GIANT Mill, though but recently introduced from the West, now stands PRE-EMINENT as the most SIMPLE, EFFICIENT, and popular Farm Mill of the age. MILL MANUFACTURERS are probably the only ones in the world—actively devoted to making Mangle Mills, therefore possess superior advantages in their construction and quality of material, and in the amount and quality of the demand is daily increasing. These Mills are adapted to making a strong and durable article. The LITTLE GIANT Mill has been awarded the First Premium at the principal Fairs of the Nation, as the most complete and convenient Mill now in use. These Mills are not only guaranteed superior to all others in their construction and quality of material, but in the amount and quality of the demand is daily increasing, with any given power; and warranted in all cases to suit, or the purchase-money refunded on return of the mill. They are offered to Farmers and the trade completely, at \$25, \$32 and \$36, for No. 1, No. 2 and No. 3, extra for sweeps. Warranted to grind from 6 to 16 bushels per hour according to size. SCOTT'S NIMBLE GIANT GRAIN MILL (PATENTED MAY, 1855). This Mill is a most complete and important article for Planters, Farmers and others, having horse-power worked advantageously with one, two or more horses, wherever a speed of from four to six hundred revolutions per minute can be obtained upon a 4-inch pulley, with a 3 1/2 inch belt. These Mills are adapted to any kind of work, grind corn, wheat or rye; and corn & cob in the most satisfactory manner, and with a vast saving of power over all other mills, the cob being cut with sharp cast-steel. The first premium was awarded these Mills at the late Fair of New Jersey, Pennsylvania, and the Industrial Exhibition at Boston. A single Horse will occupy a space of 30 inches weight about 300 pounds, occupying but 4 feet of room. It is perfectly simple, strong, and durable; requiring no skill to run it, or to keep it in order. They are offered complete, ready for attaching the belt, at \$55; with cast-iron wheels, \$65. Warranted to give the most perfect satisfaction. Please call at the Little Giant Works, and witness their operation.—Manufactured by ROSS SCOTT & CO., Cor. 17th & Coates St., Phila. Feb. 13, 56—pd.

RAKES! RAKES! RAKES!—FARMERS' ATTENTION! SANDER'S IMPROVED HORSE-RAKE. Patented June 7, 1852.—The subscriber, having purchased the Patent of his partner, Messrs. C. K. Rury, is prepared to manufacture the above Rake on reasonable terms, at the old stand, opposite the Steam Sawmill. This Rake is simple in construction and not liable to get out of order; it is well adapted to the raking of hay or grain, and works well in rough or stony ground, having metallic spring teeth. Its operation is most easy and simple—the operator, instead of operating the rake with his hands, rises and controls it with his feet. Even a lame or old person can earn good wages with one of these rakes without much exertion; or a gentleman wishing to amuse himself, can get on his rake, ride about his fields as in his gig, do as much work as any of his hands, and ride back to tea. Persons who have tried this Rake now in use, and all sold last season gave general satisfaction. It was exhibited at various County Fairs, and drew the First Premium at each. Having met with reasonable encouragement last season, the subscriber would return thanks for past favors and solicit all persons in want of a good Rake to give him a call at the Park Foundry, Mechanicsville, Pa., at the manufactory. Any person having light wagon wheels, about our feet high, can have a rake made to order by sending him a call at the Park Foundry, Mechanicsville, Pa. TERMS EASY.—Price \$20, \$25, \$30, \$40, \$50, \$60, \$75, \$100, \$125, \$150, \$200, \$250, \$300, \$400, \$500, \$750, \$1000, \$1250, \$1500, \$2000, \$2500, \$3000, \$4000, \$5000, \$7500, \$10000. Orders addressed to the undersigned, at Mechanicsville, Pa., will receive prompt attention. March 20, 1856—3m.] G. W. MILLER.
