

DEM. NATIONAL CONVENTION.

First Day's Proceedings.

The Convention was called to order at about a quarter before 12 o'clock. Mr. Saml. Mederay, of Ohio, was appointed temporary Chairman.

While the call for the Convention was being read, the Benton delegation, from Missouri, forced their way into the Hall, and a scene of much excitement and confusion ensued. No tickets of admittance had been given to the Benton delegates or to the two delegations from New York. After some trouble, order was restored and the business proceeded quietly. After the appointment of two Secretaries, Alpheus G. Brown, of Miss., introduced a resolution admitting the alternates to seats in the Hall. This was laid on the table until after the organization. A committee on Credentials, consisting of one from each State, was appointed. After some little trouble, the Benton delegation from Missouri withdrew. Mr. Wickoff, of Kentucky, offered a resolution tendering the unoccupied seats to outside delegates. No action was taken on the subject. A committee of one from each State was appointed to choose permanent officers, and this Committee was authorized to report rules. Another Committee of one from each State was appointed to report a platform. A resolution to admit ladies to seats was negatived; and the Convention then adjourned until 10 o'clock this morning.

As showing further the under current among the delegations, and the influences which are at work, we give the following additional "outside" facts and speculations from despatches sent east on Sunday last from Cincinnati.

The Pierce men claim New Hampshire, Massachusetts in part, and all the South and Southwest, except Louisiana. The Buchanan men claim Maine, part of Massachusetts, Rhode Island, Connecticut, Pennsylvania, part of Ohio, part of Indiana, Maryland, Delaware, with Virginia and Georgia.

The Douglas men expect to get all the Pierce vote after the first ballot, when Mr. Pease, collector of the port of Boston, has a letter from Mr. P. withdrawing his name, which he will read. If an outsider must be taken up, probability still points to Rusk, of Texas, with Horatio Seymour, of New York, for Vice. If Buchanan should be slaughtered, his friends say they will give their votes for Cass, who has many friends here. The Buchanan men say they will not vote for any Southern man.

The Southern and Southwestern States manifest a willingness after they have given Pierce a complimentary vote, to go for Buchanan. This indication has caused great alarm among the friends of Douglass.

Indiana, Tennessee and Arkansas have decided, after the second ballot—which will be the last for Pierce—to go over to Buchanan. These are States that the Douglas men counted on as the firmest in the Southwest for him.

The Virginia delegation met last night, and decided to cast their vote as a unit for Buchanan. The Massachusetts delegation also met last night. Col. Greene and Mr. Pease urged upon them to cast their votes as a unit for Pierce. Five of them refused to submit to that arrangement. They said that they would vote on the first ballot for Pierce, provided they (Greene, Pease & Company) would then cast their votes for Buchanan. They also refused. The delegation meet again to-morrow morning [Our despatches this morning show that they stand 17 for Pierce, 9 for Buchanan]. The Louisiana delegation is also divided. Stile and Soule are both working furiously. Buchanan will get Louisiana after the first ballot.

Pierce will get a pretty large vote on the first ballot. His friends will then withdraw him from the field. The contest will then be between Buchanan and Douglass. Buchanan will lead him fifty votes in the Northern States which, with the Southern States already pledged for him, will secure his nomination. A well-informed Douglas man told me this evening that Buchanan was a good deal stronger in the South and Southwest than he supposed.

LIVER COMPLAINT AND DYSPEPSIA.

Covington, O., Dec. 27, 1855.—THOMAS LAKENFORD says: "My wife has been afflicted with Liver Complaint and Dyspepsia for a number of years, during which time I have spent a great deal, for doctoring, but she received very little benefit therefrom, and finally the doctors said she could not be cured. Last spring she concluded to try 'Hoofland's German Bitters'; she took two bottles, and ever since taking them she has been able to attend to her business. I have sold quite a number of bottles through her recommendation, and as far as I can learn it has given satisfaction to all. See advertisement.
