PHILADELPHIA MARKETS.

MONDAY EVENING, June 9.

There is more inquiry for flour to-day, and ouyers and sellers are apart in thier views; about 2000 bbls, mostly straight brands, were taken at \$5 871, but that rate is now generilly refused for standard shipping brands, the ulk of the stock, particularly of Western Flour, being limited above that figure; for nome use there' is a fair business to hotice within the range of \$6 a 6-50 for common and hoice brands, and \$675 a 750 and \$8 per-bbl. or extra, as in quality, the latter for fancy ots. Rye Flour and CounMeal remain quiet, he fermer is held at \$8 50 and the latter at .82 50 per bbl for Penn'a. Meal.

GRAIN-There is a better demand for Wheat rorday, and prime lots are scarce and held bove the views of buyers. Sales include bout 1500 bus, fair Penn'a reds at 135c; 600 do prime Southern do at 145c, which is n advance; 500 do damaged white at 100c: 500 grown at 130c; 2000 do good at 150c, and 250 do prime at 160c. Rye is steady, with further sales of 1500 bus Penn'a in lots 12c -Corn is more plenty and rather lower, and 27,000 a 30,000 bus found buyers, mostly or shipment, at 53c for Southern yellow, a idat, including 1500 bushels Penn's at 51c, and some damagen lots at 43a 49c. Oats re-Juain dull, and about 1000 bus good Delaware only were disposed of at 831c, affoat:

Aurug Stores.

J. KIEFFER, DRUGGIST, has moved his store from the former stand to his new building himediately opposite, and adjoining Mr. C. luboff a btore. TARMERS, TAKE NOTICE!

HEATKIN'S SELF-RAKING REAPER AND MOWER will be for sale in Carelisio, by HENRY L. BURKHOLDER, at the following rates: Reaper, cash, \$165; Reaper and Mower, cash, \$105; Reaper and Mower, cash, \$100; Reaper and Mower, on time \$210; Reaper, \$180; \$75 on Addivery; \$75 first of September; and the balance first of Decomber, with freight from the Factory at Hirrisburg. The Atkin's Reaper is built of the best workmanlike manner, warranted to cut grain as well as can be done with the Cradle. Farmers getting Atkin's Reaper do not run the risk they would in buying a Reaper about one thousand miles away from home; if there should anything break they can get the castings at the Factory at Harrisburg, at any time. Persons at the Factory at Harrisburg, at any time. Persons buying this Reap r have the benefit of all improve ments free, herbafter, by applying to J. S. Wright, at

ments free, hereuter, by applying to J. S. Fright, at the Factory.

CHRISTIAN-STOUFFER, Agent at Chambersburg;
H. L. BURKHOLDER, Tryvolling Agent at Carlisle;
Henry Herr, Agent at Harrisburg, and James Patton,
General Agent at the Factory, at Harrisburg, for Pennsylvania. Order through the above agents.

what better evidence of true worth could be given than such unparalleled in rease—1 in 1852—3000 in 18501—And though so little kin wit, and all the odium to come of numerous falluges of other Self-rakers, yet not two-thirds of the customers could be supplied let year. More will be disappointed the next; for, if farm ers can get a reliable Self-raker, they are determined to have it; and this is now thoroughly setablished in the confidence of the farming public. It has a raker always on hand and doing the work, particularly in a heavy or lodged crop, better than a man. Saving at least another hand in binding; is even a greater Grain Saver than Labor Saver, and is also a first-rate Mower. If you intend gettling rid of your old fashioned back-breaker, and to get a Raker with Bone and Muscle of Iron and Wood; you must be moving, for 3000 next Harvest vill by no means supply the dennind, as the 1200 which were so insufficient the past senson.

Strong, Roliable, flood Materials, and Well Built.—A Reaper that constantly gets out of order a a nuisatee and dear at any price. Breakages with this have been inconsiderable, notwithstanding the increase of gearing by the Raker, owing to the care used it, good inaterials and putting them together thoroughly. Many have cut from 100 to 300 acres and over with one without detention, or any expense for repairs. The harvest is a furrying season; you want a machine that

without detention, or any expense for repairs. The harvest is a hurrying season; you want a machine that can be relied upon, and this is the one, as experience

necessary with now machines. This will be obviated the coming season, with those who are who in ordering hands, as orders were filled indiscriminately, till the supply failed. In several instances machines were remarked and solid again to proper parties, and they give intended and solid again to proper parties, and they give intended and solid again to proper parties, and they give in calcium statisfaction. Yet under all these disadvantages, not two per cent gave any serious trouble; and we will guaranty much less next season.

A First flate Mower—Knife Never Chokes—From the first introduction of this machine, farmers baxe said that to give it the lead far ahead of all others, we had only to make it as good in grass as in grain. We succeeded pretty well with the grass last season; but the motion of the knife was hardly fast enough to cut prairie grass, and some other kinds. A faster "under and supplied to a part of "the proper parties and supplied to a part of "the proper parties, and they give and legs chains—also a very large lot of shovels, forks, epides, hoes, raikes, and in short everything and anything wanted by the farmers—flequember the old stand East Main St. Carlisle.

PLOWS, PLOWS, PLOWS, PLOWS, PLOWS, PLOWS, parties and legs and supplied to a part of "the proper parties and legs that to give it the lead far ahead of all others, we had only to make it as good in grass as in grain. We succeeded pretty well with the grass last season; but the motion of the knife was hardly fast enough to cut prairies grass, and some other kinds. A faster "the proper parties and legs that the Philadella and legs that the

that to give it the lead far ahead of all others, we had only to make it as good in grass as in grain. We sue-ceded pretty will with the grass last season: but the motion of the knife was hardly fast enough to cut prairie grass, and some other kinds. A faster gear was made and supplied to a part of the purchasers, which gave excellent satisfaction, and this will be used on all this season. With this motion, and the knife in good order, it never chokes. We own Murray's patent for puting on the back sickle edge, by which choking is obviated; and to guard against contention, and insureour customers against molestation, we have bought the right to use Green and Forbush's patents on the knife as we build it. The change from Reaper to Mower is very slupple and made in a few minutes; and a wheel is attached to the outer end of the mowing bar, to regulate the height of cutting, to heilitate backing, and move from field to field.

ulate the height of cutting, to heilitate backing, and move from field to field.

Points to Consider in Huying a Reaper.—Every farmer, by himself or with a neighbor, should have a Reaper. If you have an old-fish joned back-breaker, you will look for one—lst—To cut well, clean and easy, and with a knife that does not "choke."

21—Steppe and reliable, not getting seek when need.

2d-Strong and reliable, not getting sick when need

3d-Easily Managed, that you, your boys and hands 4th—Not hard upon the Team, neither of heavy draught, galling their necks by heavy weight upon the pole, nor thumping their shoulders at overy obstruction. There should be no side draffith. oth-Taking up lodged Grain, and working well in al

kin's Felf Raker, and few equal it, notwithstanding the addition of the Raker. addition of the Kaker.

oth—Saving one hand in Raking, the hardest work in
the harvest field.

7th—Saving at least another hand in Binding, by
having the gravels well laid.

8th—Saving in Cutting and Raking, not shattering
by the reel, and by the Raker jerking it off the platform.

by the reel, and by the Raker Jerking it on the piatform.

9th—Saving Wastage after Binding, the grain being laid so evenly and straight as to be bound securely, preventing seattering in the after handling, and protecting the heads; well when stacked.

19, Upon the Sixth, Eighth and Ninth points, we unhesitatingly claim superiority over all other Reapers ever invented. The saving or wasting grain in harvesting with machines, is a point not properly appreciated. Even between these considered good and the Akkin's there is a difference, at present prices, of ten to twenty dollars per day, and ever.

10th—Convertible into a Mower, with little trouble and small cost.

269-Some old fashioued back-breaking Reapers can be used for mowing, but no other Self Raker; and no convertible machine claiming to be a good Reaper is superior to cursin grass.

11th—Knife never chokes. By Murray's back sickle

rior-to ours in grass.

11th—Knife nover chokes. By Murray's back sickle edge, for which we own the exclusive patent; the great trouble in Mowing Muchines—the choking—is effectually obvioted.

Carliste Pa., Sept. 5, 1855.

J. S. Wright, Esq.—Dear Sir—Having purchased in July, last Atkin's Saif Raking Resper and Mower from your agent, H. L. Burkholder, Esq.—I take pleasure in recommending it as the most economical Reaper for the farmer to buy. I am sure I never before cut and put up the same amount of grain with so little expense, so little help, and so well. I believe I have saved the one third of the price of the Reaper this year. Not only that, but it runs light on the horses. The Raker saves a good man. The even and regular depository of the gravels will save one man in four in bluding. We have had from twenty to thirty farmers looking at it when going, many of whom had other Reapers but not the Raker, and the most of them said it was the best, and it performed well. I know of no machine equal to it. The Mower, after we had it started, cut 61/2 acres from 6 o clock to 10 o'clock. It was timothy. If these lines can be of any avail to you, you may use them as you think best.

Yours Respectfully,

JOHN S. STERRETT. CARLISLE, Pa., Sept. 5, 1855.

PEMOVAL—Shaving and Hair-moved to North Hisnover street, adjoining Sipe's Furniture Wargrooms, invitesatiention to his saloon, where all persons can receive a clean and cany shave and have their hair cut and dressed in the most isshlonable and exquisite manner. There is something soothing in a good shave, if any are disposed to doubt it, let them try me, and I will fully demonstrate the fact.

April 0, 1856.]

CARLISLE, Oct. 0, 1855.

To J. S. WRIGHT, Esq.—Dear Sir—In July last I purchased of your agent in Carlisle, Henry L. Burkholder, one of Atkin's Selfraking Reaping Machines, and can safely recommend it as the most country; although my farm is hilly, it this part of the country; although my farm is hilly, it this part of the country; although my farm is hilly, it this part of the coasion of its trial. Besides making the admiration of a great number of farmers who were present on the coasion of its trial. Besides making the admiration of a great number of farmers who were present of the occasion of its trial. Besides making the demiration of a great number of farmers who were present work of any Respert Inventors who were present of the occasion of its trial. Besides making the admiration of a great number of farmers who were present work of any Respert Inventors who were present the preferred its work to my entire satisfaction, and to the admiration of a great number of farmers who were present the preferred its work to my entire satisfaction, and to the admiration of a great number of farmers who were present inventor to the occasion of its trial. Besides making the admiration of a great number of farmers who were present work to my entire satisfaction, and to the admiration of a great number of the land being semily.

CARLIELE, Oct. 8th, 1855.

MR. HENRY L. BURKHOLDER, Dear Sh.—I take great pleasure in bearing testimony; to the invaluable character of "Atkin's Selfraking Respesand Mower," I had both in use on my farm and each performed its work to my entire satisfaction, and to the admiration of many farmers who witnessed them in operation. I recommend this machine, as one of the most important inventions for the farmer, and a great economical labor-saving machine. saving machine."

saving machine.

You, as the agent for Mr. J. S. Wright, have done a lasting benefit to our farming community by the introduction of the Reaper into this county.

Very respectfully,

W. M. HENDERSON,

Oakland, Cumberland county, Pa.

YORK SULPHUR SPRINGS, Pa., Oct 1, 1855. J. S. WRIGHT—Dear Sir-The Automaton Soleraking:
Reaper I bought of you did its work well, cutting and
raking better than I have ever had grain lifted from a
hand rake, and taking off the heaviest and most weighty bundles. It is of easy draught and well built, and I
think it will give perfect satisfaction to every farmer
that wants one. I would not have any other.
W. F. BONNER.

W. F. BUNNER.

Harrishurg, Pa., Sept. 30, 1855.

J. S. Wright—Dear Sir—The Resper that I bought of your agent, Albert Jaques, I tried on my farm in the presence of some fifty of the best farmers in Dauphin county, and it gave perfect satisfaction to them all—I cut my harvest with the Reaper, and if I could not get another I would not take one thousand dollars for it. If this is of any use to you, you may use it as you choose,

TRENTON, N. J., Oct. 17, 1855. J. S. WRIGHT.—Dear Sir—The Reaper that you sent ine I was highly delighted, with: it done its work to my entire satisfaction in grain and grass, and I consid-er it the best Reaper in use, and I recommend it to the farmers of New Jersey. ELIJAH MOUNT.

farmers of New Jorsey.

MARIETA, Pa., Oct. 18, 1855.

J. S. WRIGHT.—Dear Sir—In regard to Atkin's Solrraking Reaper and Mower I bought of your agents, P. Morris & Co., of Philadelphia, and I must say, it done its work with entire satisfaction in grass and grain, and would recommend it to the farmers of Pennsylvania.

JOHN MUSSER.

TRENTON, N. J. Oct. 1,1855.

J. S. Wright-Deaf Sir-Your agent, H. G. Bennet, called on us this summer, to see if we would accept the agency of the Atkins Self-raking Roaper. We had milde up our minds not to accept the agency of any Reaper or Mower, until we could get one that we could have confidence in to recommend to our customers, as we are manufactuing agricultural implements at Trenton. Now, Sir, we would be glad to accept the agency of Atkin's Reaper here, as we have implicit confidence to recommend it to the Farmers of New Jersey at d Pennsylvania.

AKES! RAKES! RAKES!

FARMERS, ATTENTION!

SANDERS' IMPROVED HORSE-RAKE.

Patented June 7, 1852.—The subscriber, having purchased the interest of his partner, Moses C. Eberly, is prepared to manufacture the above Rake on reasonable terms, at the old giand, opposite the Steam Sawmill:

This Rake is simple in construction and not liable toget out of order; it is well adapted to the raking of hay or grain, and works well in rough or stony ground, having metallic spring teeth. Its operation is most easy and simple—the operator, instead of operating the rake with his hands, rides, and controls it with his feet. Even a lame or lazy person can earn good wages with one of these rakes without much exertion; or a gentleman wishing to amuse himself, can get on his rake, ride about his fields as in his gig, do as much work as any of his hands, and ride back to tea. Persons who have tried this, consider it the cheapest, simplest, and best Horse Rake now in use, and all sold last season gave general satisfaction. It was exhibited at various County Fairs, and at the State Kairs of Fennsylvania and Michigan, and drew the First Premium at each.

Having met with reasonable encouragement last season, the subscriber would return thanks for past favors and solicit all persons in want of a good Rake to give him a call at the Park Foundry, Mechanicsburg, 12a, at he manufactory.
