pression of Spirits.

The proprietor in calling the altention of the public to this proparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American peeple, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is inacinse.

DERANGEMENTS OF THE LIVER AND STOMACIL Are sources of insanity. From disorder or obstruction a morbid action of the sympathetic and other nerve a morbid action of the sympathetic and other-hierest follows, and the functions of the brain are impaired and deranged; derangement there will also produce disease so of the heart, skin, lungs and kidneys. It is owing to the same cause that thousands die with Cholera, Billous or Yollow Fever, and that most baneful disease,

Consumption.
The general want of success in treating diseases of the liver and stomach, has not been a deliciency of pathological knowledge of their functions—but of a suitable gical knowledge of their functions—but of a suitable compound that would act upon the disease and all the sympathatic affections. Finat has been gained in these litters; and they can be used by persons with the most delicate stomach with perfect safety—as they at no time decentrate the patient, but give strength and increase the nervous energy. They can betaken at all times, and under all circumstances. No ordinary exposure will prevent them having a salutary effect, and no bad effect can result from an over dose.

In patients will persevere in the may of this remedy, and use'nt strictly according to directions, it will care the foregoing diseases in every instance, if not beyond the power of medicine; it has caused many to enjoy the blessing of renewed health, and in many desperate and nt indoned cases, a perfect and tradeal cure.

and give health and happiness to their remaining years.

It is havell established fact: that fully one half of the female portion of our population, are seldon in the enjoyment of good health, or to use their own expression never feel well. They are languid, devoid of all engry, extremely nervous, and have no apported. To this class of invalids, these litters are—especially recommended. Their peculiar tonic and invigorating properties render them invaluable in such cases.

Persons visiting districts harrassed annually with FEVER AND Artice, or ANY FEVER OF A BILLOUS NATURE, will find that by the timely use of one or two bottles; they will remove and strengthen the system, and curry the bile off in its natural simple.—Provention is better than cure.

MPORTANT TO FEMALES!

IMPORTANT TO FEMALES!

The combination of ingredients in these ville is the result of a long and extensive practice; they are mild in their operation, and certain of restoring nature to its proper channel. In every instance have these Pills proved successful. They invariably open those obstructions to which Females are liable, and thing makine into its proper channel, whereby health is restored and the pale and deathly countenance changed to a health you. No fegule can enjoy good health unless she is regalar; and whoneyer an obstruction takes place, whether from expourte, cold of any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. To indice whose health will not remit of an increase of their family, these pills will prove a valuable acquisition, as they will prevent pregnancy.—
Headache, gain in the side, palpitation of the heart, loathing of food, and diturbed sleep do most always arise from the interruption of nature; and whenever that is the case, the pills will invariably remedy all their evils. Nor are the less affections in the care of Leucerrhea, commonly dalled the "Waitek". These pills should never be taken diving pregnancy, as they would be sure to easile a miscarriage. Warranted purely vegetable, and free from anything injurieus to lift or health. Fulland explicit directions accompany each box.

Roadbran, Gray's Co.'s Plano Forts.—We are so well pleased with the instruments made by this firm that we have determined to be instrumental ourselves, that is, in numbring our subscribers and others with an article that we can recommend and warrant. There is always a difficulty attending the purchase of planes, i because persons cannot rely fully upon the recommendations they receive from manufacturers, who are interested for their own manufacture. Now, we are not interested in the matter in any way, except so far as to see that those who patrenize are "Book" shall be well served with the best planes made. For a list of prices see cover, at which amounts me will send Planos, warranted for one year, the freight to be leaded by the persons ordering. We sames a letter received from a fentleman in Virginia, to whom we sent only of these Planos.— Jow.— Dear Sir.—I have great pleasure in zeknowledging the resolpt of the Plano Forte which you were so good as to order for my wife from Boardman & Gray's. It was delayed for some time at Winchester; but I am happy to say that it came in excellent condition. We are decidedly pleased with the instrument. The reseword is of a beautiful quality: the case is plain (we like it the better for it); the touch is very easy for a new instrument, and the fone is firm, clear and sweet. All who have tried it, admire it and speak in the highest terms of its incllowness and sweetness of tone. We deeply regret that we did not order the 'Attachment' we must have it yet.
