IMPORTANT TO EVERYBODY.—For the last three years I have been engaged in a business upon a large scale, and have been successful, when I have instructed by the sum of \$2000 cash, which has averaged me at the rate of \$3,000 to \$5,000 per annum; and, having made arrangements to go to Europe in the Fall, to engage in the same business, I am willing to give full instructions in that respect to any person in the United States or Canada, who will remit me the sum of \$1. I am induced, from the success I have been favored with, and the many thankful acknowledgments I have received from those whom I have instructed, and who are making money, to give at it, to give any person an opportunity to engage in this business, which is easy, pleasant, and very profitable, at a small cost. There is positively no humbug in the matter. References of the best character can be given as to the character of the business, and I can refer to persons whom I have instructed, who will testify that they are making from \$2.50 to \$15 per day at the same. It is a business in which either LADIES OR GENTLEMEN can engage, and with perfect ease make a very handsome income. Several LADIES in various parts of New York State, Pennsylvania and Maryland, whom I have instructed, are now making from \$2.50 per day at it. It is an unusual success, and a dollar or two is returned to the applicant a printed circular containing full instructions in the art, which can be perfectly understood at once. In the month of May last, I sent my advertisement to the editor of the "Reading Gazette and Democrat," Reading, Pa., and also sent him one of my circulars of instructions. On its receipt, and on a careful examination, he inserted the following editorial in his paper: "We call attention to the advertisement of Mr. A. T. Parsons, in our issue of the 10th inst., which will be found in another column. Mr. P. has sent us one of his circulars, alluded to in the advertisement, and on examination we find it, as he says, to be, no humbug, but a very profitable and honorable business, which may be made profitable on a very trifling capital." All letters must be addressed to A. T. PARSONS, 385 Broadway, New York. [June 29-1856.]

TONIC'S WON'T DO!—They never did do more than give temporary relief, and they never did it because they don't touch the cause of the disease. The cause of allague and biliousness is the atmosphere poison called Biliousness, which is not cured by any of the so-called TONIC'S, but is cured by the use of our GREAT ANTI-BILIOUS, and all disease used by it disappears at once. Rhodod. Fever and Ague Cure is this antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. H.
