FREMONT AND FREEDOM! All voters opposed to Buchanan and the extension of Slavery in Kansas, are requested to meet at the public house of HENRY GLASS, on THURSDAY EVENING the 11th inst. at 7 o'clock. The meeting will be addressed by Col. S. CRAIGHEAD, an eloquent orator from the Buckeye State. Come one and all, and exchange congratulations upon the glorious victories in Iowa, Vermont and Maine!

WINNHROP'S OPINION OF FREMONT

Some old line Whigs honestly hesitate to give their support to Fremont from an apprehension that he has not the requisite ability for the high station to which he has been nominated. Such Whigs may rely upon the testimony of that eminent Whig, the Hon. Robert C. Winthrop, of Mass. who in his speech before the recent Whig Convention in Massachusetts paid the following elegant tribute to Mr. FREMONT. Coming from such a high source it is worth reading carefully:

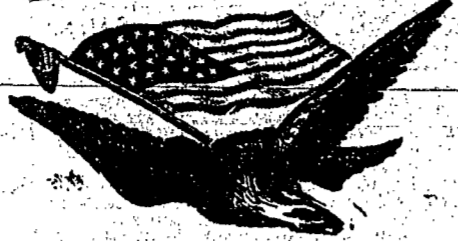

"For Mr. Fremont I entertain nothing but respect and esteem. Our seats were next to each other during his brief term in the Senate of the United States, and I was a witness to his intelligent and faithful services. Our homes in Washington were within a biscuit's throw of each other for a much longer period, and I can bear the most cordial testimony to the attractions and accomplishments of more than one of those beneath his roof. His scientific attainments and explorations have reflected the highest credit on his country as well as on himself—though I do confess that a certain royal geographical medal which was so worthily bestowed upon him has a somewhat ominous ring in my ears just now, in connection with the peculiar composition and character of the party of which he is the chosen representative. I had rather have geographical accomplishments displayed in any other sphere whatever than in running out the boundary lines of political parties."

WITHDRAWS.—It is announced that Ex-Governor JOHNSTON will withdraw his name from the canvass as the Republican candidate for the Vice-Presidency. A new nominating Convention is called by the Massachusetts Council in consequence of this determination.

Hon. Simon Cameron presided over a Fremont meeting in Harrisburg on Monday week. It was one of the largest and most enthusiastic political gatherings ever held in Dauphin county.

VICTORY UPON VICTORY

IOWA! VERMONT! MAINE!

VERMONT ANSWERS IOWA!

The victory of the friends of Fremont in Vermont, at the State election, held on Tuesday last, is unparalleled! The steady devotion of Vermont to right principles long ago won for her the proud appellation of "the star that never sets," but of all her victories the last is the most resplendent of all! The majority for the Republican candidate for Governor will be little less than TWENTY THOUSAND! Last year it was eight thousand. The Republicans have swept the State clean. The friends of Buchanan are emphatically "no where."

To come to details, the Republicans have elected their Governor, Hon. Ryland Fletcher, every member of the State Senate, all the members of Congress, and almost nine-tenths of the House of Representatives!

Later returns from one hundred and eighty-eight towns show a majority for Fletcher, for Governor, of over 19,000. The towns to be heard from gave nearly 2000 majority last year, which will increase his majority to over 21,000! The Senate is unanimously Republican, and the House stands 183 Republicans and 13 Democrats. Huzza! for the "star that never sets!"

MAINE FOLLOWS VERMONT!

Oh! have you heard the news from Maine?—Song of 1840.

The great victory in Vermont is speedily followed by a sweeping Victory in Maine! The State election was held on Monday last, and the first returns indicate that the Hon. Hannibal Hamlin, the Republican candidate for Governor, is triumphantly elected by a majority of at least TWELVE THOUSAND! The Republicans have also elected a majority if not all the members of Congress. The papers of yesterday contain the following despatches:

PORTLAND, Sept. 8.

The election for Governor, members of Congress, and State Legislature, took place in this State today, and the partial returns received indicate that the State has gone Republican by an increased majority over the vote of last year. Portland, Bath, Bangor, Augusta, Rockland, and other large towns, show Republican gains on the vote for Governor, over Gov. Morrill's vote last year, which if carried out through the State will elect the Hon. Hannibal Hamlin Governor by over 12,000 majority.

SECOND DISPATCH.

PORTLAND, Sept. 8.—10 P. M.

The returns from 51 towns give Hamlin, Republican, for Governor, 18,400; Wells, Democrat, 10,000; Patten, Whig, 2,600.

John M. Wood is elected to Congress from the First District, and Charles J. Gilman in the Second District; both Republicans.

This brilliant victory in Maine may be regarded like the victory in Maine in 1840, as settling the Presidential question, and ensuring beyond all question the triumph of Col. JOHN C. FREMONT as President of the United States! Of all the New England States Maine alone was doubtful. But her position is in doubt no longer. With Iowa and Vermont she declares in tones not to be mistaken that she is against the extension of Slavery—that she is for Free Kansas and FREMONT!

Opponents of Buchanan in Pennsylvania! arouse to action and imitate the glorious example of Iowa, Vermont and Maine!

The Slaveholders of the South have twenty members of Congress on the strength of the slave population of the Southern States. A slaveholder's negroes are represented in Congress in the proportion of five negroes to three whites. Thus one slaveholder owning a thousand negroes has the same representation in Congress as has six hundred Northern freemen! Is this Democratic? is this just? Yet it is the institution which the Buchanan men are trying to spread.

A COINCIDENCE.—Geo. Geddes, E. S. Seymour, and John B. Jarvis, the three candidates for State Engineer on the New York tickets of 1856, Hard, Soft, and K. N., are now all for Fremont and Freedom. So they go.

HOUSTON VS. BROOKS

It is refreshing to turn from Bully Brook's ferocious ebullition of treason and madness, which we publish in another column, and read the calm and patriotic expressions of other Southern men—men who are known and esteemed as genuine patriots and statesmen. South Carolina may fume and fret about Disunion, but treason to the Union has been exhibited by South Carolina on a former occasion, and the country well remembers how readily and promptly it was put down by Gen. Jackson's stern will. But we shall not do the South the injustice of taking Bully Brooks as the exponent of Southern feeling. Other and truer men, distinguished as statesmen and patriots, speak a different tone and language, and we take their assurances as conclusive that the will of the majority whether it makes Fremont or Buchanan President, will meet a cheerful acquiescence in the South. And first we quote the following extract from a recent public address by the Hon. EDWARD BATES, the distinguished Whig U. S. Senator from Missouri, a careful reading of which we commend both to our old line Whig friends and the Buchanan agitators who are so hypocritically howling over a dreaded dissolution of the Union:

"Whigs are asked to vote for a man who has lost his identity. I have been mortified to see letters from Whigs advising us to support him because his is the national cause; and yet his strength is claimed to lie in the region of country where the word national is unheard. Another argument calls upon us to go for him in order to prevent a dissolution of the Union. Who is going to dissolve the Union? Certainly not Fremont, if he is elected. Who ever heard of a man placed in power who desired to dismember and destroy the very realm over which that power was to be exercised? Who then? Will any one dare slander the whole with the imputation of treason? Any man who, out of pique and disapproval of an adverse party candidate, should contemplate with serious intentions the dissolution of the glorious fabric of our Union, would certainly be a traitor. And shall we accuse our brethren of the South, of one-half of the country, of this heinous charge? The (so-called) Nullifiers of South Carolina never intended it. When California was about to be admitted as a free State, conventions were held in Georgia, Tennessee, Mississippi, and elsewhere, I believe threatening to dissolve the Union in case of her admission with the exclusion of Slavery in her Constitution. Well, California was so admitted and nothing more was heard of it. And now they try to scare you from your honest and well-merited preference for one of yourselves by threatening that if Fremont is elected they will dissolve the Union."

We find similar declarations in the speech of Gen. Samuel Houston, of Texas, delivered just before the close of the late extra-session of Congress, of which a Washington letter writer says: "Old Sam embraced the occasion yesterday to define his position before the Senate and the country. He denounced the abrogation of the Missouri Compromise line, as well as the Administration's policy toward the Free State settlers in Kansas. The whole difficulty between the Free and Slave States now, he said, was traceable to the agency of the Executive in passing the Nebraska-Kansas act. 'Tidy tell me,' said Houston, 'if Fremont is elected, forty thousand bayonets will bristle about the Capitol—that the South, in fact, will secede. Mr. President, I scorn the suggestion! There will be neither bristling bayonets nor secession. If Colonel Fremont shall be elected by a majority of the people, though I am not his supporter, I shall respect the majority of the people; and to Colonel Fremont, as the Chief Magistrate of their choice, I shall pay my respectful homage.'"

Such is the feeling of patriotic Southern men, and if South Carolina fire-eaters like Bully Brooks don't feel inclined to submit there will be a power like Gen. Jackson's to compel them:

We charge that Mr. Fremont is a Roman Catholic. Now if he is not a Catholic why don't he come out over his own signature and deny the fact.—N. Y. Express.

We charge that the editor of the Express is a consummate ass. Now, if he is not an ass, why don't he come out over his own signature and deny the fact.—Syracuse Journal.

THE HARVEST AND EXPORTS.—The wheat harvest of the United States this year is estimated at 160,000,000 bushels, a large surplus above our domestic wants. The export trade the New York Journal of Commerce estimates at 40,000,000 bushels. Upon this estimate the export demand can be filled without creating any unusual excitement, but prices will not be likely to rule very low.

Capt. William White of Fountain County, Indiana, who is in his eighty fourth year, and has just returned from Kansas, has taken the stump for Fremont and Dayton. He says the only salvation of Kansas depends upon their election.

A hundred guns for Maine!

PERRY UNION TICKET.

The ticket settled by the opponents of Buchanan in Perry county is as follows: Senate—Kirk Haines, of Millerstown; Assembly, Robert C. Boden; Commissioner, Ab. L. Bowman; Associate Judge, John D. Monroe; District Attorney, Samuel E. Richey; Sheriff, Thomas Sutch, jr.; Surveyor, Abner Knight; Director of the Poor, Daniel Earnest; Auditor, William Kistler; Coroner, John M. Laird.

The Freeman and Advocate speak of the ticket in high terms as being generally satisfactory. The nominations were made by ballot by the voters themselves at their primary elections, where each could clearly express his choice. The Freeman mentions as an illustration of the ability of the Anti-Buchanan men to elect their ticket by a handsome majority, that the aggregate of votes cast in the nomination of these candidates was 1810—being but 22 votes less than the entire democratic vote cast last fall for Arnold Plumer for Canal Commissioner! The Freeman also estimates that at least one thousand votes were not polled in the nomination of the ticket. This is an unmistakable indication of gallant little Perry's ability and determination to give from 500 to 1000 majority against Buchanan in November!

As Cumberland is connected with Perry in the Senatorial district the choice of a candidate for Senate is a matter of equal interest. The nomination of either of the gentlemen who were spoken of would have been satisfactory, we believe, and that of Mr. Haines, on whom the choice has fallen, is one in which we can most cordially acquiesce. Mr. Haines has both ability and experience, having served for the last two years in the House of Representatives. Having had a fair opportunity of noticing his course there, we can fully testify to his fitness, his integrity and prompt attention to the business of his constituents. Although not one of the professional speech-making class, but few counties in the State could boast of a more intelligent, active and efficient legislator than Perry county in the person of Mr. Haines. He is now nominated for a seat in the Senate, and the experience and familiarity with legislative rules and usages acquired in two years service in the House, will prove of the highest importance in qualifying him for usefulness in that body. His election to which we regard as a fixed fact. We annex his name to our county ticket and assure him the cordial support of the opponents of Buchanan in Cumberland.

FREMONT IN NEW YORK.

A correspondent of the National Era, writing from Albany, N. Y. gives the following cheering intelligence as to Col. Fremont's prospects in New York. These calculations, however sanguine, are abundantly confirmed by other accounts of New York enthusiasm:

"The most careful political calculators here are unable to figure Fremont's majority in this State below 80,000, and this estimate gives 10,000 against him in New York City, 2,000 in Albany, and 2,000 in Rensselaer, where his sanguine friends are unwilling to allow any majority against him. According to present calculations, based on the most reliable information received here at the central point, from every county in the State, Fremont's majority cannot vary much from 50,000. In these estimates, Fillmore is considered as the competitor of Fremont. Buchanan seems to be admitted to be out of the count. Nevertheless the recent elections may have the effect to change the relative positions of Fillmore and Buchanan before the day of election.

"It is a striking fact that the most active working men for Fremont in this State were recently Democrats; and the three or four counties which heretofore have been engaged, previous to elections, in a strife as to which should give the largest majority for Jackson, Polk or Wright, are now engaged in a similar effort to see which shall beat in piling up a Fremont majority. Oneida, St. Lawrence, Jefferson and Herkimer are talking of 4,000, 6,000 and even 8,000 Fremont majorities in their respective counties over Fillmore. The enthusiasm in these counties is unparalleled.

LIVER COMPLAINT AND DYSPEPSIA.—Philadelphia, Jan. 10, 1856. Dr. C. M. Jackson—Dear Sir,—I have used your Hoodland's German Bitters in my family for the past four years, for Liver Diseases and Dyspepsia, and am pleased to acknowledge that we have received the greatest benefit from its use. I have recommended it to a great many afflicted with similar diseases, with the same good result. I have no hesitation in saying that it is an invaluable medicine, and hope you will be able to introduce it into every family in the Union. Yours truly, WM. HUGHES, No. 174 Wood street.

Town and County Matters.

SUPERB FRUIT.—We are indebted to the Rev. Mr. Mores of our borough, for a basket of delicious Duchesse D'Angouleme Pears, taken from a tree on his grounds. In size, beauty and quality we have never seen any to surpass them. In this season of scarcity of the finer fruits such a present is a treat indeed, and we need hardly add, is thoroughly appreciated.

DICKINSON COLLEGE.—The new term of Dickinson College commences to-morrow, and students are coming in large numbers by the various trains. During the vacation the College buildings have been painted and thoroughly renovated, and now present a vastly improved appearance.

DESTRUCTIVE FIRE.—We regret to learn that a destructive fire took place on Monday evening last, on the farm of Mr. Thos. U. Chambers, in North Middleton twp. about five miles from Carlisle. The property burned comprised his large bank barn, corn cribs, sheds and other out-houses. His dwelling house alone was saved. The barn contained his last crop of grain and hay, which was of course consumed. The barn is supposed to have been set on fire, as the origin of the fire cannot otherwise be accounted for.—We understand there was insurance on the property, but to what precise amount we are not informed.

NEW GOODS.—Mr. Ogilby, on Main street, has just received his first supply of new Fall Goods, comprising the richest styles of dress goods, &c., which are more particularly mentioned in his advertisement.

FREMONT AND FREEDOM!—RALLY! Boys!—The meeting at Glass's Hotel, on North Hanover street, to-morrow night, will be addressed by Col. Craighead, of Dayton, Ohio.—An eloquent address in favor of Fremont may be expected and we hope there will be a crowd present.

GAS IN THE COURT HOUSE.—The County Commissioners have contracted with Mr. Morris, Gas Fitter, to introduce the gas into the various rooms and passages of the Court House. The work will be completed and the fixtures supplied to be in readiness for use at the November Court.

CAMP MEETING.—We are requested to state that a camp meeting under the direction of the members of the African Episcopal Methodist Church of Carlisle, will commence on Friday the 12th inst. at the Sulphur Springs in Mr. Hackett's Woods, on the Doubling Gap road, about three miles north of Newville. The camp will be continued several days and the strictest order will be observed.

NEW MUSICAL WORK.—The "Keystone Collection of Church Music," is the title of a new work lately issued by Messrs. Murray Young & Co. of Lancaster, of which we have received a copy. The authors of this new work are Professors Johnson and Frost, gentlemen of well known reputation and accomplishments as teachers of vocal music.—The work is spoken of in the highest terms. The Lancaster Express says, in a recent notice of it, that Mr. Sharlitz, who is favorably known in that community as a choir leader and at present the leader of the choir in the Lutheran church of Lancaster, endorses the work fully, as far as he had opportunity to examine it, and says that the course of instruction meets entirely with views which he has always held, but has not been able himself nor has he ever seen them so judiciously arranged or so clearly expressed as in the present work. The authors, A. N. Johnson and E. H. Frost, are extensively known for their high musical attainments, and are held in much estimation here on account of the impetus which they gave to vocal music in our midst. They established the first musical convention ever assembled here, and the plan adopted at the Convention, and which proved so successful, they do not feel justified in selfishly retaining for their own private benefit, but like true scientific philanthropists they saw broadcast over our happy and music loving country ideas and sentiments which, if properly cultivated and matured, will make us a nation of the most perfect singers upon which the sun ever shone.

Marriages.
