### THE OUTRAGES IN KANSAS.

#### Shocking Murders of Women. Kansas correspondent of the N. Y. Tri-

, gives an account of one of the most cious deeds that has lately been commita the civilized world. Have the Missou s lost their last sense of shame and honor ? deed occurred near Lawrence. He says

A lady living a short distance from the ; hud been there to nurse a wounded tive ; and during her stay, had made some ments touching the murder of Major t, which are supposed to have been reed to the ruffians. On her return home, stepped out of doors in the evening in her t dress, and was immediately seized by

men with blackened faces, who gagged by a handkerchief drawn through her th and tied round her head, and carried some distance from the house, where they ped her naked, bound her limbs, drew out ongue, tied a string round it and round neck, and left her ! After some time she reeded in getting back to the house, and

icans of knocking her head against the ow, attracted attention and gained adie following is another instance of the bru-

y and in humanity of the Ruffians, related ourrespondent of the Tribune. A gentleman has just returned from Kan o Chicago. On his way down he saw a r girl, dying dend; her brains had been ed out ? She was not yet cold. It seemed

m that the savages must have taken her he heels and perpetrated the horrid deed, then fled !!? 

### The Border Ruffian Spirit.

ie Pittsburg " Dispatch" extracts the fol ag from a private letter to a gentlemou in city, written by his father under date of Satine, Aug. 26. The writer says ; I thank my God that I have got out of ouri, into a free State once more, where \* speak my mind freely. My son, you \* I never advocated abolition, but I was ys opposed to the extension of Slavery. I will state to you some of the acts of pro slavery party in Missouri and Kansas s at St. Joseph (Mo.) twenty three days ; into the good graces of the Missourians g the corders of Kansas, therefore 1 can you some true statements\_\_\_ First, the slavery men are determined to kill every whs holds abolition principles, and every that will vote for a free State. No mint holds these principles can pass through ourians are shooting every such man they find out. Many poor fellows going into sas have been and are still being shot There were two men shot in St. Jowhile I was there, and we could hear of being shot all found Kansas every day. the slaveholders swear justily that they r will cease until they have killled every itionist in the United States."-They say they will have Kansas a slave State at uzards, and that if Freemont is elected will not obey him, but will butcher every he appoints to office. They say they and will have a revolution-the South ust the North, and that the Democrats of North are determined to assist the pro-

tempted to force their waylin, it would be at accessions were just about equal to the deserthe peril of their lives. They then rushed up and two of them were immediately shot dead by pistols in his hands. The house was soon appointed. broken open, and in a moment Philips fell a corpse, pierced by half a dozon bullets. His

brother who was also defending the house, was wounded in the arm. The mob then removed the body and all the things out of the house, and were about setting fire to the premises, when they were stayed by a leader of the proslavery party, named W. H. Russell.

When night came on the mob set fire to three offices owned by Mr. Philips, which wereall cousumed, together with a grocery: store occupied by a man named George. Wetherill, who although a very peaceful and quiet man, had incurred the hatred of the pro-Slavery party by acting as one of the judges at the Free State election.

### Later From Leavenworth.

The steamer Emma which arrived here yesterday, with later news than that by the Polar Star, brought down quite a number of the oitizens of Leavenworth, who had been compelled to give up their homes and fly for their

lives. We heard several of the names of these persons, but do not feel at liberty to publish them. There is no doubt: however, of the fact of their having been driven from their homes, and we hope some of the gentlemen who are now in the city may be induced to. give the public a full and explicit statement of the condition of things at Le wenworth city, over their own signatures, so that there may

be no mistake or possibility of error. It is time that the truth, and the whole truth, should be known by our citizens. · W. learn that the mob under Emery have full pos

session of Leavenworth, and have put every man of the Free State party, and many who are moderate pro slavery men, to the test'as follows : "Take up arms and fight the d-d ab. olitionists, or will you leave the Territory? The alternatives are terrible, and a majority have adapted the latter, some of whom are now in this city, having brought away their families and left all their possessions behind. without the least security in the world that they will be proserved.

We here close our accounts from Kansas. What next? must be the common inquiry. We shall wait with fearful apprehensions.

#### From the St. Louis Democrat, Sept. 6. Battle of Ossawatomie.

A party of some five or six Illinoisans and Indianians, who had gone out to Kansas to settle returned to this city yesterday morning on the steamer Polar Star, having been ouptured at the battle of Ossawatomie, by the forces under Gen Reid, and 'after being detained a day or two in captivity, were con ducted to Westport, and there placed on board the steamer, to be taken out of the State of Missouri, and accompanied with the threat that, if they ever ventured back to the Terri
