LATE FOREIGN NEWS .--- Advices to the 24th of December have been received from Europé. The most important news is in relation to the difficulty between Prussia and Switzerland which has resulted in war. Thirty-five thousand Prussian troops, under General Von Grobon, were to assemble at Berlin by January, to march upon Switzerland. The Swiss have rushed to arms with enthusiasm. and 20,000 will be in the field at once, of whom 10.000 will defend Basle, and the remainder will garrison Schaffhausen. Unlimited credits for military purposes have been voted by the Swiss Diet. The London Globe, the government organ, -denies that any difficulty axists between France and England.

GOV. POLLOCK NOT A CANDIDATE .-Our friend of the West Chester Republican intimates that portions of Governor Pollock's Message were written with the view of securing a re-nomination, This is a most erroneous inference. Gov. Pollock it is well known has repeatedly declared his determination not to be, un der any circumstances, a candidate for re-election.

CONTEMPTS OF COURT .--- We observe that Mr. Penrose has introduced into the Senate a bill in relation to contempts of Court which, it is said, will have the effect of releasing General Small from his confinement in the Debtors' Apartment. of the Moyamonsing prison in Philadel phia, and modify the power of Courts in "respect to commitments for contempts."

CORPORATION STOCKS OWNED BY THE STATE .--- On the 1st of December; 1856, the Commonwealth of Pennsylvania was a stockholder in various railroads, canals and turnpikes, to the amount of \$1,723,-496 62, exclusive of the State canals and railroads, which cost \$34,642,119 65.

The self constituted leaders of the south are by no means satisfied with Mr. Buchanan's programme, so far as it is understood or indicated. Of the men named, not one is reanded as strictly, identified, with the dominant sentiment. Cobb, of Georgia, it is true, is accepted of Stephens and his interest, but not as a representative man. They had anti-cedents together a few years ago, and it might not be convenient to separate now. But Flöyd, Benjamin, Rusk, and that class do not answer the high seasoned exactions of the fire eating gentry. They have said as much to Mr. Bu-chanan by word of mouth and by letter, and they mean to repeat the protests when he ap-pours in Waslingtou a mouth hence. Nor are some of the selections from the Free States more palatable, For example, the pre-States more palatable. For example, the pre-ference of Clifford over Toucey is especially pondermined, not only been use the latter is ad mitted to be the superior of the former, but because he has made 'accriftees for the South.' They forget he has an eye upon a' foreign mission, and will probably have his fort in it before many moons tall over his head.
