the Hon. Hamilton Fish, by the Legislature of New York.

NAVIGATION OPENED .- The navigation of the rivers Delaward, Potomac and Ohio, is now open, the ice having last week broken and floated away. Business at Pittsburg has been actively resumed.

Two New FREE STATES .- The U. S. House of Representatives on Saturday last passed bills for the admission of Oregon and Minnesota into the the Union as States at an early day.

The Cabinet.

Since Mr. Buchanan's return from Washington the N. Y. Herald professes to have reliable information as to the men who will constitute the new Cabinet, but not precisely the position which shall be assigned to each. It says that from the South, Cobb, of Georgia and Floyd, of Va. certain; with Pickins, of South Carolina, or Brown, of Tennessee, as contingent. From the North and West, Bright, of Indiana ; Clifford, of Maine ; and Judge Bleck, of Pennsylvania, who is hard pressed for Secretary of State. The only drawback to this latter gentleman is J. Glancey Jones, of the Old Keystone, who has a number of warm and zealous friends. The chances are that Judge Black will be chosen. Gen. Cass and Mr. Marcy who have both been spoken of for the Secretaryship of State, are now said to be both out of the question.

## Sale of the Main Line.

A bill has been introduced in our State Senate, by Mr. Penrose, providing for the sale of the Maih Line of our public improvements. We feel confident that nothing would gratify the great body of the tax-payers of the State more than the passage of a bill which would effect a sale of our Public Works at a fair price and on terms which would make the State secure. The settled conviction of the people on this subject is, that it is high time for the State to sell out her canal and railroad property and settle up. The construction of the Public Works was entered upon by the Commonwealth for the great purpose of developing the resources of the State and providing a highway through her territory. And most undoubtedly, by their construction the internal wealth and prosperity of the State has been enhanced in the highest degree, but it was never dreamed by the patriotio and sagacious projectors of these works that they would become the vast source -of-corruption and fraud which they are now known to be. The result of the State's management, or rather mismanagement of the Public Works, as periodically presented to the people, has had the effect of proving that we should be infinitely better off in parting with these. works at almost any sacrifice.

Our Common School System. We have received from Harrisburg the exceedingly able and interesting report of the Hon. A. G. CURTIN, Scoretary of the Commonwealth, and Superintendant of Common Schools of. Pennsylvania. The report for 1856, with the added reports of the various County Superintendents and tabular statistics, is conceded, never was in abler hands frosty. than under the administration of the Sco-

INDIANA,-The Democratic members of the Indiana Legislature have elected Jesse D. Bright and Graham N. Fitch to the U. S. Senate. The State Senate did not participate in the action, the majority being opposed to it, nor did the Republican members of the House. The convention lacked fifteen votes of a quorum. Of course this stands as much-illegal as -the Iowa election, but the Democrats expect to have the seats a year or two bu fore the contest can be decided.
