\$1.75 IF PAID WITHIN THE YEAR.

The Hon. L. Todd has our thanks for public documents.

THE FRUIT CROP .- Papers from various quarters of the country, with few exceptions, unite in pronouncing the fruit crop uninjured thus far There is abundant opportunity for its destruction yet. Late spring frosts are as fatal as winter's cold.

THE REVENUE BOARD .- The Revenue Commissioners, one of which is appointed from each judicial district in the State, met at Harrisburg, on Thursday last. Robert Kelly, of Perry, represents this district. Mr. Magraw, State-Treas urer, is ex-officio President of the Board. The Board, thus constituted meets once in three years to equalize the rate of taxation upon the assessed real estate in the different counties of the Commonwealth. The Board is entitled to sit thirty days and the members receive \$2 per day as compensation.

John M. Foster, of Harrisburg, was chosen chief clerk: Nelson Weiser and S. H. Slaymaker assistant clerks; Andrew Krause doorkeeper, and J. Radebaugh, Messenger.

LANCASTER BANK-ARRESTS.-Wo learn from the Lancaster papers that David Longnecker, the late President of the Lancaster Bank, as well as B. C. Bachman, the late Cashier, has been arrested. The former has been held to bail in \$24,000, and the latter in \$12,000. It is to be hoped that any frauds that may have been committed in this institution will now be proved, and the delinquents whoever they are, punished. The complaint charges that some time in the month of March, 1855, David Longnecker, then President of the Lancaster Bank. and B. C. Bachman, Cashier of said Bank, paid fifty thousand collars of the money of the Bank to the Lancaster Savings Institution, on the notes of Wm, L. Helfenstein, which notes were endorsed by either the President or Cashier of said Bank, in their individual name or names, and other Directors of said Bank; that at the maturity of these notes they were presented at the Bank for payment, and were directed by the Cashier to be paid, although at the time, Mr. Helfension had no funds in that Bank to his credit to meet them—thus appropriating the funds of the Bank to their own priwate indebtedness to an amount exceeding **8**50,000

The complaint further charges the the said David Longnecker, as President of the Lancaster Bank, did at various times appropriate the funds of said Bank to his own individual use and benefit, and also that he loaned out sums of money, the property of said bank, without the knowledge or consent of the Directors, to individuals without security, and which have been since lost to the bank.

CALIFORNIA SENATORS. David C. Broderick has been elected United States Senator for the long term, in place of John B. Weller, and William M. Gwin. for the short term. Both were nominated in caucus-Mr. Broderick securing his own nomination first. The Alta Californian says, it is generally supposed. that the election of Gwin is the result of a bargain, disgraceful in its nature, the terms of which are dictated by Mr. Broderick, who had in his own hand a sufficient number of votes to secure the election of whomsoever he pleased. The bargain is said to be that Mr. G vin yields all claim to any influence in the Federal appointments. Mr Gwin has published a letter, in which he states that he shall not interfere in the dispensation of Excoutive favors.

THE CURRENCY ACT .- A bill has been introduced into the Legislature to repeal the act of last session which prohibits the Trust and Deposit Banks from paying out the notes of foreign banks. The Governor signed the bill in November, which postpones its operation until the first of July next. In the meantime the repeal of the act will be attempted, but as that is not at all likely to pass either House, another bill has been introduced, prohibiting private bankers and brokers, from paying out the notes of any other than specie paying banks of Pennsylvania. This is retaliation upon the brokers, and - it is difficult to decide what are the chances of the passage of this latter measure

DR. KANE. - We learn, with regret that the health of our distinguished countryman, Dr. Kane, has not improved by his visit to Havanna. A private despatch was received by his family yesterday giving the latest report, which represented that he was then in a dying condition This, though probably not unexpected, will be sad news to his friends.

MILITARY CONVENTION .- The Committee on the Militia System of the State Legislature have issued a call for a Military Convention, to be held in Harrisburg on Thursday, the 26th inst. THE STATE CONVENTION.

We feel confident that we give expres sion to the general, if not the universal sentiment, of all the opposition to the lige done to the Rail Road Bridge at Harris-Sham Democracy in this State, says the burg, has already been temporarily repaired, Harrisburg Telegraph, when we deprecate any hasty action in calling a State Convention which shall embrace less than

try. With that opposition united, as it should and easily can be, our success must be certain. Divided and separated, defeat is inevitable. With the preferto do. We battle for principles. To make those principles anything more than an abstraction, we must have them carried out in the State and nation. To:do this we must pursue such means as will secure success, otherwise our principles have no practical end in view, and attain no practical result. The tone of the press, and the general anxiety of the people throughout the State, convince us that this is a most auspicious time to effeet such a union of all the elements to Locofocoism, as will not only render success certain, but permanent. We trust, therefore, that no petty jealousies, no personal-bickerings will be permitted to intervene to prevent a consummation so

"devoutly to be wished for." We hope that the arrangements for the time, place and manner of holding such a Convention will be conceded to the opposition members of the Legislature. They represent all shades of opinion and names of the opposition, and it avoids the contest between the three different State committees in existence. That law. they will act justly and prudently in the matter, their course thus far should convince all.

Farrell, however, says he has been in the hubit of drinking sometimes as many as 30 glasses, of spirits without hurting him, and this circumstance makes people doubt whether he didn't see double on the night of the murder. Then, again, there was nothing the murder. Then, again, there was nothing wonderful in his identifying Eckel in a room where there were thirty other persons—for it seems that the eyes of all the twenty nine were turned to that personage, and so riveted there that any man of ordinary intelligence must have concluded—as Farrell did—that he was the man,

The Tribuna says: The testimony given on Tuesday by Mr. Farroll is a subject of special discussion in all circles, and much doubt is entertained as to its veracity. But the most general impression is that Mr. Farrell's testimony is perfectly re liable. Strong reasons are put forward for the

The Times says Farrell's testimony was ob tained in this way.

An anonymous letter was sent to the coro ner stating that a Mr. Farrell was in Bond street on the night of the murder, and had evidence to give of some importance, but that he declined to come forward, "lest he should be kept from his family and inconvenience by appearing as a witness, as he is a pooman. The Herald says: The testimony of Mr. Farrell is highly im-portant. In the first place, it garroborates the evidence of three other persons as to the time of the murder. We have now four respectable witnesses who fix the time at between half past ten and eleven. They all heard the cry of murder. Two of them saw heard the cry of murder. Two of them saw a man answering to the description of Dr. Burdell enter the house. Mr. Farrell, in ad-dition to this, gives us an account of the blood-an the stairway and street door. WASHINGTON GOSSIP.

The Electoral Votes Congress has got into a dilemma. In accordance with law, both Houses met, on Wednesday, in convention to count the votes for President and Vice President. The ceremony is of itself of no practical importance usually, but in this instance a point of much-interest has arisen. It is well known that in consequence of a severe snow storm, which blocked up the roads, the Wisconsin Presidential Electors were unable to reach the capital of that State on the 3d of December, and vote for President and Vice President, and vote for president and Vice President, as required by law. Their proceedings were unavoidably nostponed till the 4th of the month; and the law the l estion is, shall the vote of Wisconsin be ruled out? This old, tried and invaluable remedy for all the diseases of the eyes, after having stood the test of over
Fifty-Years, and the demand for its still increasing;
is now, and has been for the past two years, offered for
sale in an entire new dress. Each bottle will have a
Steel Plate Engraved Envelope, with a portait of the
inventor, Dr. Isaac Thompson, New London, Conn,
and a fac simile of his signature, together, with a fac
simile of the eignature of the present proprietor, John
L. Thompson, No. 16f and 153 liver street, Troy, New
York, and none other can be genuine.

The proprietor has, been compelled to make this
change in the style of the wrapher owing to the large
quantity of counterfeit which for the past few years
has been palmed upon the community, and especially
at the west.

Purchasers are particularly requested to buy none
but the above described, and as the red label herotofore-used has been called in, any found in that form
the proprietor does not hesitate to pronounce counterfeit.

FREMONT, THE MUSTANG CANDIDATE.—If Col. Fromont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fromont rogiarked, in his dispatches to Mr. Filimore while transporting horses and cattle over the plains by Mexico. "That if the Government would send on a liberal supply of Mustang Liniment, it would save 25 percent of his losses." This is very important for all Farmers and Livreymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c. and for Galds, Sprains Spaving, Ringbone, &c., upon horses. Beware of imitations. The Mustang is sold by all respectable dealer corywhere.

VISITORS' REPORT.—To the Honourable the Judges of the Court of Gumberland County. The undersigned Committee appointed by the Court, to visit, examine into, and report upon the mode of management and present condition of the Foor House of this county, beg leave to state that in discharge of the duties assigned them, they have visited the Institution at different times during the year. There were in the Poor House on the first day of January, 1866, 101—of which 15 were colored. There, have been admitted since then 199, including 6 born in the bouse, making the whole number provided for during the year 321, including 21 out-door paupers. Of there IT have died, 4 bound out, 20 cloped, and 160 discharged, leaving the number in the bouse on the first of January, 1867, including 21 out-door paupers, 111.. In addition to the foreging, 628 transient paupers have been admitted and their wants supplied. We are much gratified in being able t- say that in all fishances we found every thing in good order. All the apartments provented a clean and tidy appearance. Their clothing is abundant, their diet nutritions, and any who are sick receive the attention of the regular physician. Labor is provided for such as are able to work. Children have proper- care and attention bestowed upon them, and when of sufficient years, are put to service with suitable persons.

Upon the whole, your Committee are well satisfied TISITORS' REPORT .- To the Ho-

when of sufficient years, are put to service with sultable persons.

Upon the whole, your Committee are well satisfied that the Institution has been well managed for the year just expired. We also see the great necessity of having a Hospital separate and apart from the main builming, from the fact of persons being sent there with intectious diseases, and consequently have to be put into the same house with the rest of the paupers, which ought not so to be. We therefore recommend the oree tion of a sultable building to be occupied as a Hospital-Respectfully, &c.
