Breaking a Baulky Horse.

If there is any time when a man needs the "patience of Job," it is when his horse baulks. The horse that cannot be coaxed or tricked into labor, had far better be left alone. Many a noble animal has been ruined by violence, and many a desperate baulker has been made valuable by kind and gentle management. There are many methods by which a horse may be cured of baulking, but the following, narrated by a correspondent of the *Rural American*, published at Utica, possesses some novel features. The writer says he had a valuable horse, who could go fleetly when in the humor, and would not go at all when so disposed. One day, losing his temper, of course, he whipped the horse until exhausted, and then hired a neighbor to continue the operation, and after two carriages were broken, the victorious horse was put in the barn. How the gentleman rendered his horse kind and tractable, we will let him narrate in his own language:

"The next day, after my anger had settled, I thought the matter carefully over, and concluded that, as I could not myself be driven where I did not want to go, but could be coaxed, the horse might be influenced by the same feelings. An entire change of tactics was determined upon. For the three next days the animal was well fed, much fondled, and not used except a little under the saddle, where she always did well enough — Then the repaired gig was brought in front of the house, the beast harnessed, led out and hitched to the gig, carefully tied to the post and left there for an hour to her own reflections. It was a most sultry day in July, and I concluded a little exposure to the sun would incline her to go rather than stand still. It was h mistaken opinion, for when I got into the gig at the end of the hour, she stood as still as the post she had been tied to.

Now efforts were made to urge her forward, but on the contrary she was well patted, the bridle taken off, a couple of sprigs of green lobelia wrapped around the bit, and then the piece returned to her mouth, and left to chew upon it at her leisure. At the end of another hour it was evident that the lobelia had begun to make her feel nauseous, and again she was tried, but would not move any more than before. Fresh sprigs of lobelia were then tied upon the bit, a cloth dipped in cold water and placed upon the top of her head and changed every eight or ten minutes for another hour. By this time she began to froth at the mouth and look sleepy out of the eyes, good evidence that the medicine had made her decidedly sick. I then got into the gig and chirrupped, and away went the animal at a startling pace. I drove her for four or five hours, she went every way I wanted her, and returned home with a good relish for supper.

In this way I managed the animal every time she got sulky, and always with success. In a few weeks she became so well acquainted with the mode as to give demonstrations of a desire to go, whenever the bridle was being removed with the intention of using the lobelia. In two months she was thoroughly broken in, and never troubled me afterwards.

There is a philosophy in this mode of management. In the first place the animal was wholly nonplussed by being treated with the utmost kindness and gentleness for she was not used to such management on such occasions. Then, the relaxant influence of lobelia made her feel nauseous, and nausea is suitable antidote to ugliness, softening down the passions in a most surprising manner. The addition of water was a decided "cooler" upon the temper as well as upon the skin, and was an argument against which stubbornness could not thrive. The treatment was so effectual that we are induced to give it a warm recommendation. There are some farmers who do not have baulky horses, that can yet try it upon themselves and thus test its potency to great advantage."

Philosophy of Rain.—To understand the philosophy of this beautiful and often sublime phenomenon, so often witnessed since the creation of the world and so essential to the very existence of plants and animals, a few facts derived from observation and a long train of experiments, must be remembered.

1. Were the atmosphere everywhere, at all times, of a uniform temperature, we should never have rain, or hail, or snow. The water absorbed by it in evaporation from the sea and the earth's surface, would descend in an imperceptible vapor, or cease to be absorbed by the air when it was once fully saturated.

2. The absorbing power of the atmosphere, and consequently its capacity to retain humility, is proportionately greater in warm than cold air.

3. The air near the surface of the earth is warmer than it is in the region of the clouds. The higher we ascend from the earth, the colder we find the atmosphere. Hence the perpetual snow on very high mountains in the hottest climate.

Now, when, from continued evaporation, the air is highly saturated with vapor, though it be invisible and the sky cloudless, its temperature is suddenly reduced by cold currents descending from above; or rushing from a higher to a cooler latitude, its capacity to remoisture is diminished, clouds are formed and the result is rain.—Air condenses as it cools, and, like a sponge filled with water and compressed, pours out the water which its diminished capacity cannot hold. How singular, yet how simple, the philosophy of rain! What but Omniscience could have devised such an arrangement for watering?—*New York Observer.*

Agriculture is an Art.—Man is the artist; toil his laboratory; manure his raw material; animal strength and machinery his power; air, heat and moisture his agents, and grains, roots, fruits, and forage his products.

☞ The politest gentleman we ever saw was a rural friend of ours, who, on passing a sitting hen, said, apologetically, "Don't rise, Madam."

☞ Spring is again returning.

HARDWARE! HARDWARE!—
JOHN P. LYNE & SON

are now receiving their Fall Stock of Hardware, which is unusually large, and in connexion with their former heavy stock makes it one of the largest and most varied assortments ever offered to this public. They have every thing that the Farmer, the Builder, the Merchant or the public, may want in their lines, and which they are selling at the very lowest prices. They solicit a call from the public before making their purchases, as they feel confident they can offer inducements that will reward the buyer for the trouble.

Feeling thankful to a generous public for their former liberal patronage, a continuance of the same it solicited, at our old stand in North Hanover Street, Carlisle.

FALL STYLE OF HATS
AT KELLER'S OLD STAND!

GEORGE KELLER desires to call the attention of his old friends and customers to his new assortment of Gentlemen's HATS, of the Oakford Fall style, with an elegant assortment of BOY'S CAPS and WINTER HATS of every variety and the most fashionable styles.

He has also constantly on hand a large and varied assortment of his own manufacture as well as city made Hats and Caps, suitable for the season, comprising every variety of Russia, Beaver, Moleskin and Silk Hats, finished in the latest style, together with a full assortment of CAPS of every shape and description, and at every price. He particularly invites the public to call and examine his extensive assortment, which in style, material and finish, cannot be surpassed by any in market, and which he is able to put at prices lower than ever.

☞ Remember his old stand on North Hanover street next door to Huyett's Grocery Store.

GAS FITTING AND PLUMBING.—The undersigned would inform the citizens of Carlisle that he has made arrangements to do GAS FITTING and PLUMBING at short notice, and [illegible] terms. He has engaged the services of a first rate hand from Philadelphia, and has supplied himself with an extensive assortment of FIXTURES, which will enable him to fill all orders promptly. All work will be warranted. His stock of Gas Fixtures will be found in the room exactly opposite his Tinning establishment on North Hanover street, where he invites a call.

TINNING, SPOUTING, &c.—He is also prepared to furnish, or make to order, every article of TIN WARE used by housekeepers and others. He will also attend to SPOUTING, HOUSE-ROOFING, BELL HANGING, and PLUMBING.

Thankful for the patronage with which he has already been favored, he respectfully solicits a continuance of the same.
MONROE MORRIS.

STOVES!—STOVES!! STOVES!!!—
JOHN D. GORGAS would inform the public that he has now on hand at his establishment, on Main St., next door to Marion Hall, the largest and most complete assortment of COOK, OFFICE & PARLOR STOVES to be found in this county, which will be sold at the lowest prices for cash or approved credit. His stock consists of a large assortment of new and highly approved PATENT COOKING STOVES, finished in the most complete manner, and calculated for either wood or coal, or both. All the old standard patterns which have stood the test of experience, may be found at his establishment. Also, a great variety of the most approved and beautiful PARLOR OFFICE STOVES, including a number of new styles, possessing very superior advantages over those heretofore in use. Families and housekeepers are respectfully invited to give him a call before purchasing elsewhere. Stoves delivered to any part of the country and put up at the shortest notice. He continues to do all kinds of TIN AND SHEET IRON WARE, and Copper Work, and has constantly on hand or will make to order every article required by housekeepers or others in this line. His stock of Tin and Copper Ware embraces every kind of household and kitchen utensil, warranted equal to the best manufactured. Persons in want of articles in his line may always be sure of being accommodated to their satisfaction by giving him a call.

Education.

CARLISLE FEMALE SEMINARY
MR. and MRS. CLARK, who have been for several years engaged in teaching, respectfully announce to the citizens of Carlisle and vicinity, that on the 1st of September, 1856, they will commence the second session, in Louther Street, near the German Reformed Church, of their

SEMINARY FOR YOUNG LADIES.

The Institution will be both a boarding and day school, in which all the branches necessary for the complete education of young ladies will be taught. Assistants of the highest character for qualifications and morality will be employed in accordance with the wants of the Institution. The government will be conducted on strictly Christian principles, while sectarianism will be as rigidly excluded.

The Principals flatter themselves that their long and successful experience as teachers, as testified by the recommendations in their possession, will enable them to establish an Institution of the highest character for young ladies. They are fully persuaded that such an Institution will be sustained here by the citizens and neighboring country, and hope that their confidence may not be disappointed.

The Scholastic year will consist of four terms (eleven weeks each), beginning on September 1 and ending on second Wednesday in July.

TERMS PER QUARTER (11 weeks).

J. M. PHILLIPS, Teacher in Book Keeping.
S. T. WILLIAMS, Lecturer on Commercial Law.

Three years have not yet elapsed since the establishment of this institution, during which time upwards of eight hundred students have been in attendance, (representing nearly every State in the Union,) among whom are numbers in Baltimore and elsewhere occupying prominent positions as business men and accountants.

COURSE OF STUDY.

BOOK KEEPING.—The Principal has the utmost confidence in assuring the public that after an experience of fourteen years in qualifying young men for the Counting Room and other important stations, and an extensive acquaintance with the management of business books of every description, (assisted as he is by two scientific accountants,) the course of training in this department is eminently practical and well adapted to the various pursuits of Commerce and Trade, including Individual, Partnership, Mercantile, Manufacturing, Commission, Exchange, Banking, Shipping, Steamboating, Compound Company operations, &c.

PENMANSHIP.—The exercises under this head are free, easy and graceful, combining rapidity of execution with beauty of construction, thus enabling the student to write an elegant business hand on completion of the course.

MERCANTILE CALCULATIONS in all their various bearings are taught by the most accurate and expeditious method.

Daily lectures are delivered upon the Science of Accounts, Mercantile Customs, &c., these in connection with a series of lectures on Commercial Law, are of the highest importance to all aspiring to occupy prominent positions in the business community.

The time necessary for an industrious student to complete the course, varies from 8 to 12 weeks. There being no vacation, applicants can enter at any time, and attend both day and evening. Examinations are held at stated periods, and diplomas awarded to those who graduate. For terms, etc., write and have a circular forwarded by mail. [Oct.3,

PATENT SELF-SHARPENING
YANKEE FEED CUTTERS, manufactured for ALDRICH & SARGENT, No. 410 Market street, Philada.

This cutter is superior to any now in use, for strength durability, and simplicity of construction; it cuts faster, and is the only self-sharpening Hay, Straw and Corn Stalk Cutter ever made. It has but ONE STRAIGHT KNIFE, which any person can grind and set with ease but in ordinary case, is ground in the machine. Thousands have already been sold, and the demand is daily increasing. In most cases an examination is sufficient to convince one of its superiority. No one after a short trial would part with it for any other. All sizes of the above constantly on hand and for sale by

KRAUSER'S PORTABLE
CIDER MILLS can still be furnished of improved construction and finish. Their grinding apparatus is peculiar, and gives them an advantage over all other mills. By the action of two reciprocating pistons, the apples are forced up against the teeth of a rapidly revolving cylinder and retained till ground to a fine pulp, which of course yields more juice when subjected to pressure than if the pomace was coarse. The Screw Press has been greatly improved and strengthened since last year, and the whole frame is tightened by strong joint bolts. It is adapted to either hand or horse power and can be worked by hand to the extent of six to eight barrels a day.

IMMENSE SUCCESS!—
THE CHEAPEST MAGAZINE IN THE WORLD.
BALLOU'S DOLLAR MONTHLY.
DESIGNED FOR EVERY AMERICAN HOME.

Encouraged by the unprecedented success which this popular monthly has met with, and the rapidity with which it has increased its circulation, the proprietor has resolved to make it still more worthy of the patronage of the public. That this admirable work is

A MIRACLE OF CHEAPNESS

is admitted by every one, containing, as it does, One Hundred Pages of reading matter in each number, being more than any of the $3 Magazines, and forming two volumes a year of six hundred pages each, or Twelve Hundred pages of Reading Matter per annum for

ONE DOLLAR!

Ballou's Dollar Monthly is printed with new type, upon fine white paper, and its matter is carefully compiled and arranged by the hands of the editor and proprietor, who has been known to the public as connected with the Boston press for sixteen years. Its pages contain

NEWS,
TALES,
POEMS,
STORIES OF THE SEA,
WIT AND HUMOR.
MISCELLANY,
ADVENTURES,
BIOGRAPHIES,
SKETCHES,
&c. &c.,

from the best and most popular writers of this country. It is also spiced with a record of the notable events of the times, of peace and war, of discoveries and improvements occuring in either hemisphere, forming an agreeable companion for a leisure moment or hour, anywhere, at home or abroad, each number being complete in itself.

No sectarian subjects are admitted into its pages; there are enough controversial publications each devoted to its peculiar sect or clique. This work is intended for

THE MILLION,

north or south, east or west, and is filled to the brim each month with chaste, popular and graphic miscellany, just such as any father, brother or friend would place in the hands of a family circle. It is in all its departments fresh and original, and, what it purports to be, the cheapest magazine in the world.

Any person enclosing ONE DOLLAR to the proprietor, as below, shall receive the Magazine for one year, or any person sending us EIGHT subscribers and EIGHT DOLLARS, at one time shall receive a copy gratis.

HERRING'S PATENT, CHAMPION FIRE PROOF SAFES,
with Hall's Patent Powder Proof Locks, which were awarded separate Medals at the World's Fair, London, 1851, and also at the World's Fair, New York, 1853 and '54. The subscribers are the sole manufacturers and proprietors in this State of the above unequalled Safes and Locks. The reputation of the genuine "Herring's Safe" is world wide, and for the last thirteen years the mercantile community have witnessed and borne testimony to their NEVER FAILING fire proof qualities. More than 12,000 of these Safes have been actually sold, and over TWO HUNDRED have passed triumphantly through accidental fires. The public are assured that all Safes manufactured by the subscribers are not only guaranteed to be fully equal, but in many respects even superior to those which have been so severely tried by fire. Few will forget their services in the burning of the "Tribune establishment," New York, and at the Great Fire in Strawberry street, at the large fire last June opposite the Girard House; and still more recent in the Fire at Fifth and Chesnut sts., in the city of Philadelphia, in which these Safes came forth the acknowledged CHAMPION, when many other securities failed.

Medicines,

DR. HOOFLAND'S
CELEBRATED
GERMAN BITTERS.
Prepared by
DR. C. M. JACKSON, PHILADELPHIA, PA.
will effectually cure
LIVER COMPLAINT, DYSPEPSIA, JAUNDICE,
Chronic or Nervous Debility, Diseases of the Kidneys and all diseases arising from a disordered Liver or Stomach.
Such as
Constipation,
Inward Piles, Fullness or Blood to the Head,
Acidity of the Stomach, Nausea Heartburn, Disgust for Food,
Fullness or Weight in the Stomach,
Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing Fluttering at the Heart, Choaking or suffocating Sensations when in a lying posture, Dimness of Vision, Dots or webs before the Sight, Fever and dull pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

The proprietor in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is immense.

DERANGEMENTS OF THE LIVER AND STOMACH.
Are sources of insanity, From disorder or obstruction, a morbid action of the sympathetic and other nerves follows, and the functions of the brain are impaired and deranged; derangement there will also produce diseases of the heart, skin, lungs and kidneys. It is owing to the same cause that thousands die with Cholera, Bilious or Yellow Fever, and that most baneful disease, Consumption.

The general want of success in treating diseases of the liver and stomach, has not been a deficiency of pathological knowledge of their functions—but of a suitable compound that would act upon the disease and all the sympathetic affections. That has been gained in these Bitters; and they can be used by persons with the most delicate stomach with perfect safety—as they at no time debilitate the patient, but give strength and increase the nervous energy. They can be taken at all times, and under all circumstances. No ordinary exposure will *prevent* them having a salutary effect, and no bad effect can result from an over dose.

If patients will persevere in the use of this remedy, and use it strictly according to directions, it will cure the foregoing diseases in every instance, if not beyond the power of medicine; it has caused many to enjoy the blessing of renewed health, and in many deseratep and abandoned cases, a perfect and radical cure.

PERSONS ADVANCED IN LIFE,
And feeling the hand of Time weighing heavily upon them, with all its attendant ills, will find in the use of the Bitters an Elixer that will instill new life into their veins; restore, in a measure the energy and ardor of more youthful days; build up their shrunken forms, and give health and happiness to their remaining years.

It is a well-established fact, that fully one-half of the female portion of our population, are seldom in the enjoyment of good health, or to use their own expression "never feel well." They are languid, devoid of all energy, extremely nervous, and have no appetite. To this class of Invalids, these Bitters are especially recommended. Their peculiar tonic and invigorating properties render them invaluable in such cases.

Persons visiting districts harrassed annually with FEVER AND AGUE, or ANY FEVER OF A BILIOUS NATURE, will find that, by the timely use of one or two bottles, they will not in one instance take the disease, as the Bitters will renovate and strengthen the system, and carry the bile off in its natural channel.—Prevention is better than cure.

THEY ARE ENTIRELY VEGETABLE
And free from Alcoholic Stimulant, and all injurious ingredients; are pleasant in taste and smell, mild in their operation, will expel all morbid secretions from the body, give bloom to the pallid cheek, and health and vigor to the frame.

Price 75 cents per bottle.

AFFLICTED, READ!—
PHILADELPHIA MEDICAL HOUSE.
Established twenty two years ago by Dr. KINKELIN, corner of Third and Union Streets, Philadelphia, Pa.
TWENTY-TWO YEARS'
Experience has rendered Dr. K. a most successful practitioner in the cure of all diseases of a private nature; manhood's debility, as an impediment to marriage; nervous and sexual infirmities, diseases of the skin, and those arising from abuse of mercury.

TAKE PARTICULAR NOTICE.
There is an evil habit sometimes indulged in by boys in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections.

Few of those who give way to this pernicious practice, are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations and vague fears in the mind. (See pages 27, 28, 29, of Dr. K.'s book on "Self Preservation.")

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak; he is dull, irresolute, and engages even in his sports with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies. These are considerations which should awaken the attention of all who are similarly situated.

PATIENTS AT A DISTANCE
Can have (by stating their case explicitly, together with all their symptoms, per letter, enclosing a remittance) Dr. K.'s medicine, appropriated accordingly.

TONICS WON'T DO!
—They never did do more than give temporary relief, and they never will! It is because they don't touch the cause of the disease. The cause of all ague and billious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by its NATURAL ANTIDOTE, and all disease caused by it disappears at once. Rhodes' Fever and Ague Cure is this antidote to Malaria, and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New-York, to this effect, is attached to every bottle; therefore, if it does no good, it can do no harm.

This is more than can be said of Quinine, *Arsenic*, or any other tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment. In illustration of these truths I annex some extracts from a letter just received from a Physician:

GEORGETOWN, OHIO, March 17, 1856.

JAS. A. RHOADS, Esq.—Dear Sir: Yours of 2d inst., is at hand. The Cure arrived late last year, and the difficulty in getting any one to purchase it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public as being better than using Quinine—not knowing, I presume, that the remedy they used to escape taking Quinine contained the DRUG ITSELF!

This remedy (known as "Smith's Tonic,") would invariably BREAK an Ague, but it did not Cure it, as it would often return with renewed vigor. This one circumstance I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result;

Three persons took your "Cure," all of which were cases of "Quotidian Intermittant Fever," of many weeks standing. They had tried Quinine and other remedies, occasionally missing a chill, but it was (as in all such cases,) slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" had been used, and would, as before stated, break the chill, but after a period or two had elapsed it would return.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &c., &c. WM. BUCKNER, M. D.

RHODES' FEVER and AGUE CURE, or ANTIDOTE TO MALARIA, the only harmless remedy in existence is equally certain as a PREVENTIVE, as a "CURE." Take it when you feel the chills coming on, and you will never have a single one.

IMPORTANT TO EVERYBODY.—
For the last three years I have been engaged in a business known only to myself, and comparatively few others, whom I have instructed for the sum of $200 each, which has averaged me at the rate, of $3,000 to $5,000 per annum; and, having made arangements to go to Europe in the Fall, to engage in the same business, I am willing to give full instructions in the art to any persons in the United States, or Canadas, who will remit me the sum of $1. I am induced, from the success I have been favored with, and the many thankful acknowledgements I have received, from those whom I have instructed, and who are making from

FIVE TO FIFTEEN DOLLARS PER DAY

at it, to give any person an opportunity to engage in this business, which is easy, pleasant, and very profitable, at a small cost. There is positively No HUMBUG in the matter. References of the best class can be given as regards its character, and I can refer to persons whom I have instructed, who will testify that they are making from $5 to $15 per day at the same. It is a business in which either

LADIES OR GENTLEMEN

can engage, and with perfect ease make a very handsome income. Several LADIES in various parts of New York State, Pennsylvania and Maryland, whom I have instructed, are now making from $3 to $6 per day at it. It is a GENERAL BUSINESS, and but a dollar or two is required to start it. Upon receipt of $1, I will immediately send to the applicant a printed circular containing full instructions in the art, which can be perfectly understood at once.

In the month of May last, I sent my advertisement to the editor of the "Reading Gazette and Democrat," Reading, Pa., and also sent him one of my circulars of Instructions. On its receipt, and on a careful examination, he inserted the following editorial in his paper:

"We call attention to the advertisement of Mr. A. T. Parsons, of New York, headed "IMPORTANT TO EVERYBODY," which will be found in another column. Mr. P. has sent us one of his circulars, alluded to in the advertisement, and on examination we find it, as he says it is, no humbug, but a light, easy and honorable business, and one that may be made profitable on a very trifling capital."

All letters must be addressed to A. T. PARSONS, 335 Broadway, New York. [June 25-1m.
