store pay, with a settlement once a year. Farm lands are in brisk demand, and go up in price forty, fifty and a hundred per cent. We believe that railroads have added enough to the value of the farms' of this country to pay for one hald the original expense of building them, enormous as it is. We were conversing with an intelligent farmer, a few days since, who lives upon the line of the Syracuse and Binghamton railroad. The stock was worthless, and he hud lost the six hundred dollars which he had put into it ---- But he said he considered it one of the best investments he ever made, for it had added ten thousand dollars to the val-* ue of his farm. Farmers, then can afford to put up with the trifling inconveof railroads. It is safe for them nienče

to subscriße for a share of the stock, according to their means, if they can thereby secure the building of a road and open a ready market for their produce .- New York Times. $\frac{1}{2} \sum_{i=1}^{n} \frac{1}{2} \sum_{i=1}^{n} \frac{1}$

HOW TO COOK POTATOES, --- Do people ever think of the 'immense' waste of otatoes as they are treated in this nitvi hat me tell you how potatoes are cooked in Lancashire, England. They are peeled first and boiled gently till nearly soft and then the water is poured off and the steam evaporated, when they are poured into a dish, and a few slices of laid on the top and brought hot to the table, where they are caten with a relish and for a good reason-they are truly 6 good: Such people do not eat much bread. The potatoes are so dry and mealy that they are an excellent substitute for bread, and very unlike the miserable waxy things that we cat here.

How TO Copy Eags. - Dropped eggs are probably the most healthful form in which they can be prepared for the table. Break the eggs very carefully into a pan of scalding water and led the water come gradually to a boil, removing the eggs with a skimmer as soon as the white is set. Serve on a hotplatter with a little salt, pepper and butter, or lay the segs on hot butter toget. For invalids use evenue instead of butter.
