Carmers: Department.

FARMERS DEPARTMENT. -Those wh Twe never kept, in detail, a record of the income and expenditure of the farm, will find the present just the period to sach year, the amount that has passed through your hands—the receipts, and what has been paid out—what purchased, and what sold, and the exact state of the control of the your finances. Any person doing busidepartment, is working in the dork.

Be Systematic .- Here we have one of the first principles of successful agriculture. Let all your transactions be conducted in a business-like manner. Take note of every operation whether you buy or sell, receive or disburse, sow or reap make, promise or bargain. To do this it will be necessary to keep a dairy, and would say, do so, if for no other object than as a ready means of comparison.

Be Thorough.—Never—half-do any glide over their labors. "If it is worth prove a golden maxim to thousands of as portion of their creed, but exemplify its teachings in their daily life. Away with these scratchers-men that go boneath the surface are the kind wanted

Leave your Land in good heart.—It soil to leave his land in good condition efter the removal of a crop, and, at the same time, obtain as remunerating returns as possible. This can be done only by husbanding all the sources of fertility upon the farm, and adding thereto in every available manner. This is the Alpha and Omega of progressive agriculture. Never boast of a "bank account" if it is obtained at the expenses of your

Study your Profession .- It is not alone she energy that wields the spade or holds the plow that insures success. There is a "higher law," the culture of the mind, and it must go hand in hand with the culture of the soil. The relations of science to the farmer's calling are intimated Good books are aids in the attribuent of knowledge, but, never put your faith to the ipsedixit of any individual-think, experiment and judge-for yourself.

Stick to the Farm.—Amid your plans for the future, never, for one moment, harbor the idea of bettering your condition by entering the arena of commercial life. Do not exchange a home of quiet, real enjoyment for the turmoil and illusion of a city residence. Barter not sweet repose for visions of empty wallets, nor let notes due on the morrow assume- the prerogatives of the nightmare. Very poor comforters for care and anxiety are these little realities in the commercial world. Stick to the Farm. What though hard labor be the every day command, it is noble, healthful and conducive to the full development of the whole man. Germantown Telegraph.

PLOWING BY STEAM. This is an important subject to farmers, and is claiming considerable attention in the United States. We notice that in the vicinity of Chelmsford, England, a successful experiment of the kind was made few weeks since, in the presence of a large number of persons engaged in agriculture. The Chronicle, of that place

The field selected was a piece of twentythree acres, called Mill Field, near the White Heart Inn. The first start was with two double plows, but as it was an exceedingly heavy soil, usually plowed with three or four horses, very foul, and from being lately drained, not lying well, it was difficult for the engine to pass over it, and after a pause, four single plows were attached, and although at first. From not being able to get the going gear to work favorably, some little delays were caused, after a time they did their work admirably, plowing from six to nine inches deep. The work was wonderfully straight, though done in the midst of a large concourse of spectators, who were evidently deeply interested in the experiment. So clung and toughso close and heavy was the nature of the soil. that, in answer to inquiries made as to how the matter was going on, the observation of those who knew the locality

"Well if it can plow now, it can plew enything" Many farmers who entered the field prejudiced were unreluctant in their praises, and acknowledged that the wonderful machine, being still in its infancy, would, as improvements followed effect an extraordinary change in the cultiration and management of land of every description.

Domestic Receipts. To PURITY WATER .- As much pulvarized alum as will lay on the point of a small case knife mixed thoroughly with bucket of water, in an hour will settle all impurites at the bottom, muking i clear and pure. WASHING FLUID-Put in a bottle

1 pint of spirits of turpentine, 1 pint of alchohol, 2 oz. spirits of hartshorn, 1 oz. gum of camphor. Keep it corked tight. Immediately before using shake the bottle well and put 3 table spoonsful of the mixture to each quart of soft soap. Book your cloths over night-squeeez them out-soap well and put on to boil in fresh water. After boiling rub out and rinse thoroughly. Some think it By using this fluid you remove stains and

the clothes require less rubbing.
SOAP FOR WASHING-21-2 lbs of bar exip; put it with 1 oz. of borax into 4 qts. of water; set the vessel in a warm place but not hot enough to boil. (When all is dissolved it is ready for use Soak the cloths over night and use the mixture as other soap. It whitens the cloths; takes less rubbing, and leaves the hands in a better condition than common soap.

ELDERBERRY SYRUP .- Take of the juice of Elderberry one quart; boil it to one pint; strain and add two pounds of double refined sugar; again place it over the fire; so soon as it shall have boiled, remove it from the fire, and when cold bottle it for use, taking care to have it well covered. With a less quantity of sugar there will be danger of its becoming mouldy: As a gentle purgative, this sytup is an excellent medicine, of very pessant taste, and is peculiarly servicable children who are not easily induced to adult is a wine-glass - New England

Porasons, it is said, are selling at Cincinnati, for twenty-five cents per bush Business Cards.

DATENT SELF-SHAPPENING A TENT SELIC-SHAP ENING
YANKEE FISED CUTTERIS, manuance and for
ADDRICH & BARGENT, No. 410 Market street, Philada
This cutter is superior to any now in geo, for strongth
durability, and simplisity of construction; it cuts fast
or and is the only self-sharpening Hay, Straw and Corn
Stalk Cutter ever made. It has but ONE STRAIGHT
INTEL, which any person can grind and set with ease
but in ordinary case, is ground in the machine. Thousands have already been sold, and the domand is dailyincreasing—in most, cases an axamination is sufficient
to convince one of its superiority. No one after a short
trial would-part with it, for any other. All sizes of the
above constantly on hand and for sale by
J. P. LYNE, oct 1 Sole Agent for Cumberland county.

TARMERS' AND MECHANICS' FOUNDRY AND MACHINE SHOP, CARLISLE, PA,

North Street, east of Glass's II stel. The subscribers would respectfully into in the public in general that they are now prepared to manuactural limbelments; such as Boye Geer, Four Horse Power, Horizontal Geer, Four and in general that they are now prepared to manuscure all kinds of Agricultural Implements; such as Boyel Geer, Four Horse Power, Hertzental Geer, Four and Two Horse Power, also the latest Improved Railway Chain Horse Power and Overshot Theshers with Separator attached:

We invite particular attention to Rife's Patent Clover Huller and Cleaner. This machine will hull and clean from three to six bushels per hour, and is considered decidedly, the best now in use.

Also, Corn Shellers, for hand or Horse power. St ay and Fodder Cutters, Ploughs, Harrows, Cultivators, Hay Rakos, Grain, Fans, Circular Saws, &c., &c.

We will also furnish to ogder

IRON AND BRASS CASTINGS, of overy description; such as Treshing Machine, Plough, Cornsheller, Cellar Grates, Josh Weights; also, beautifully designed Railing for Celmetery Lots, Enclosures, &c., &c.

REPAIRING

Promptly attended to for Reaping, Mowing and Treshing Machines, and all kinds of Agricultural Implements Carlisle, June 10, 1857,—3mos. KUTZ & LASH.

MANNY'S COMBINED REAPING WITH WOOD'S IMPROVEMENT. WITH WOOD'S IMPROVEMENT.

In putling these machines into the market for the harvest of 1857, I have the best grounds for belching they will meet an extensive sale, and prove as entirely satisfactory to the farmers of Cumberland county as they have proved herete fore. Up to this time their has not been another Combined Reguling and Wowing Machine made that has succeeded to an extent that will warrant a manufacturer in building, or a farmer in beying it for a combined machine; while the Manuf Machine as made by Wood'ha's been so successful for, both purebess, licaphing and Mowing, that in sections where they have been used, their reliability is as, well established as that of any other implement used by the farmer.

After the experience and contests of the last harvest, we deem it only meessary to refer those wishing to buy

the farmer.

After the experience and contests of the last harvest, we deem it only mecessary to refer those wishing to buy a Combined Machine to the following persons who used Manny's Machine in cutting their crops last year, viz: Fred'k. Watts, Esq., John Noble, William Darr, Ayraham Bradley, Joseph A Stuart, James Stuart, Edward W. Weakley, Peter Louek, William Moore, Christian. Herr, Williams Parker, James Grabam, Robert Bryson, Sanutel Alien, Solomon Hoke, Jonas Rudy, John M Woodburn and John Eckerd.

With each machine will' be furnished, two scythes, two extra quarts, two extra sections, one extra pluion and wr neft. All the bearings of journals will be caselar dened: The shoes, guards and gearing will be of the 5t Salisbury Iron. The machine is warranted, capable of cutting from ten to twelve seres of grass or ggain per day in a workmanilko manner.

Price of Combined Machine, at Carlista 110,
These Machines can be hed at Siffrizer's Warehouse, in Mechanicsburg, by applying to It. W. Irvin at the Railroad Depot.

ONLY ONE BOTTLE OF DR SANDFORD'S Invigorator, or Liver Remedy Invigorator, or Liver Remedy

Is required to cure any one troubled, with Liver Complaints, unless the most desperate of cases, when the second bottle will, with scarce a sin, is failure, restore the patient to health and vigor. We wish to call the attention of all to these facts, that the lavigerator is compounded by a physician who has used it in his practice, for the past twenty years with a success almost creditions, and that it is entirely vegetable, being composed wholly of gums.

Some idea of the strength of these gums may be formed when it is known one bottle of the Invigorator contains as much strength as one hundred doses of Calonie without any of its deleterique effects.

One bottle is the surest thing known to carry away.

One bottle is the surest thing known to carry away the bad effects of mineral poison of any kind. Only one by the is needed to throw out of the system the effects of medicine after a long sixhuss.

On bottle taken for Jaundice removes all yellowness or unnatural ector from the skir.

One dose after eating is sufficient to relieve the stomach and proven the fond from rising and securing.

Only one dose taken before retiring prevents nightmare. one dose taken at hight lossens the bowels gently, and cures costiyenssa.

One dose taken after each meal will cure Dyspepsia.

One dose taken after each meal will cure Dyspepsia.

One dose of two tea-spoonsfull will always relieve sick Headache.

The bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure,

Only one dose immediately relieves theiler.

One dose often-repeated in seure cure for Cholera Morbus, and a sure prevental respective to the recurrence of Millions attacks, while it relieves all painful feelings.

Thousands of cases taken said painful feelings.

Thousands of cases of inflamation and weakness of the lungs, have been cured by the invigorator.

One dose taken a sher into bofter eating gives vigor to the appetite gard makes food direct well.

One dose taken a sher time bofter eating gives vigor to the appetite gard makes food direct well.

One dose offer repeated cures thronic Diarrhea, in lis worst forms, while summer and bowel complaints yield almost to the first dose, while for worms in children, there is no surer, safer and speedler remedy in the world, as it never fails.

There is no exageration in these statements, they are plain and solve facts, that we can give evicence to prove, while all who use it are giving their unanimous testimony in its favor. One dose taken at hight lossens the bowels gently,

We wish all who are sick and debillitated to try this remedy, and test it-thoroughly, and any, who are not benefitted by its use we should like to hear from, as we have yet to hear from, the first person who has used a bottle of Invigorator without receiving benefit, for there are such asomishing medical-virtues in it, that all, no matter how long they have been affected, if their complaint arises from a duranged liver, will be benefit ted if not entirely cured.

CHOICE FAIT M LANDS
THE TILLINOIS FOR SALE.
Is now prepared to sell about
ONE AND A HALF MILLION of ACRES
or choice framing Laboration.

ONE AND "ATALE MILLION OF ACRES
or choice paralysis Lands,
In tracts o 49 acres and inwards, on Long redits and
at Low Rates of Interest.

These lands were granted by the towernment to ald
in the construction of this Road, and are among the
relasst and most tertile in the world. They extend fro
Sorth-east and North-west, through the middle of the
sort of the extreme South, and include every writers
of Latto and productions found between those paralicle of lattice. The Northern fortion is chiefly redicted
southern sections timber -preducingles, alternating
with beautiful prairies and openings."
The climate is more healthy, mild and equade, than
any other part of the country—the air is pure and
avacing while living streams and springs of excellent
water abound.

It tuminous Coal is extensively mined, and simples. aracing while living streams and springs of excellent water abound.

Bitumineus Coal is extensively mined, and supplies a chesp and desirable fuel, being furnished at himself and supplies at \$2 to \$4 per, ton—and wood can be had at the same rate per cord.

Building stone of excellent quality also abounds which can be precured for little more than the expense of tradeportation.

The great fettling of these lands, which are a black then mould from two to five feet deep, and pontly rolling.—their contiguity to this Road, by which every facility is furnished for travel and transportation to the principal markets North, South, East, West, and the economy with which they can be cullivated, render them the most valuable investment that can be found; and present the most favorable opportunity, for pursuas will industrious habits and small means, to acquire a comfortable independence in a few years.

Chicago is now the greatest grain market in the world—and the facility and economy with which the products of these lands can be transported to that market, make them much more profitable, at, the prices asked, than these mora remote at government rates—as the additional cost of transportation is a perpetual to the choice of the products of the products of these lands can be transported to that market, in the reduced price he receives to risk synthe producer, the torduced price he receives to risk synthe producer, the refuse he receives to risk synthe producer, are rando, beeds are executed by the risk grain.

The Title is Perfect—and when the final payments are rando, beeds are executed by the risk grain.

The Eithe for and clear of overy incumbrance, lien or mortgage.

mortgage.

The Irless are from \$6 to \$30; Interest only 2 per cent.

Twenty per cent. will be deducted from the credit.

The price for each.

Those who purchase no long credits give notes payable in 2.3.4, 6 and 5 years at 5.5 date, and are required to improve one tenth annuary to 15 years, so as firshed to one half the land under cultivation, at the end of that time.

one-half the land under cultivation, at the end of that time.

Competent Serveyors will accompany those who wish to examine these lands, free of charge, and aid them, in making selections.

The Lands remaining unsold are as rich and valuable as those which have been disposed of SECTIONAL MAPS

Will be sent to any one who will encirese fifty cents in Postage Stamps, and Books or Pamphlets, containing numerous instances of successful farming, signed by respectable and well-known farmers living in the neighborhood of the halfred Lands, throughout the state-also the cost of fencing, price of cattle, expense of harvesting, threshing, etc.—or any other information—will be cheerfully given on application, either personally or by letter, in English, French, or demand addressed to John Wilson.

Land Commissioner of the Illincis (entra R. R. Composition).

DROFESSOR WOOD'S HAIR REts, no doubt, the mest wonderful discovery of this age
of progress for it will restore permanently gray that to
its original color, cover the head of the baid with a
most suggressed growth, camor at chorce all-dander until
liching, our of all scrothin, and other cutaneous currentlons,
such: as seald head, oc. It will cure, as if by magic,
nervous or periodical headache; make the lark soft,
glossy, and way; and preserve the color he hair soft,
the following is from a distinguished member of the
medical profession:

St. Period Supression:

PROFESSOR O. J. WOOD St. Paul, January 1, 1865. PROFESSOR O. J. WOOD—

T. Paul, January 1, 1855.

Dear Sir:—Unsolicited, I send you this certificate. After being nearly hald for a long time, and having tried all the hair restoratives extant, and having result in any, I was induced, on hearing of yours to give it a trial. I placed myself in the hands of a barbar, and had my head rubbed with a good stiff brush, and the restorative then applied and well rubbed in, till the scalp was in addw. This I repeated every morning, and in three weeks the young hair appeared and grew rapidly from August last till the present time, and is now thick, black, and strong—soft and pleasant to the touch; whereas, before, it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your restorative about twice a week, and shall soon have a good and perfect crop of hair. Now, I had read of these things—and who has not? but have not seen hitherto any case where any person's halr was really benefitted by any of the hair tonics, etc., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others, and it afready has a large and generous sale throughout the Territory. The peuple here know its-offects, and have conflowed in I. The supply you sent us, as wholesale agents for the Territory, is nearly exhausted, and duily luquiries are made tor it. You desorre credit for your discovery, and I for one, return you my thanks for the benefit it has done mo, for I certainly had despaired fong ago of over affecting any such result.

Yours hastily, J. W. BOND, Firm of Bond & Kelley, Druggists, 8t. Paul. [From the Editor of the Real Estate Advertiser.] Bosrox, 27 School Street, March 20, 1836.

Dran Sin:—Having become preinsturely quita gray, I was induced, some six weeks sincesto make a trial of your flestorative. I have used less than two bottles, but the gray hairs have all disappeared; and although my hair has netfully attained its original color, yet the process of change is granually going ou, and I am in great hopes that in a short time my hair will be as dark as formerly. I have also been much gradied at the healthy my isture and vicer of the hair, which before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours. Boston, 27 School Street, March 20, 1856

Respectfully yours, D. C. M. RUPP,

CARLYLE, Illinois, June 18, 1000.

I have used Professor Wood's Hair Restorative, and have admired its wonderful effect. My hair was become ing, as I thought promaturely gray, but by the use of his "Restorative," it has resumed its or by the use of his "Restorative," it has resumed its original color, and I have no doubt, permanently so.

Ex-Sonatr United States.

For sale in Cathlele, by S. W. HAVERSTICK, SAM I-LL'AUTT, and Druggists ordrywhere. - 405-28, 1867.—19. Fancy Printing done here.
