I must again call the attention of the Legislature to the subject of revising the militia laws of the State. // They are so crude and imperfect, in many of their provisions and ob source in some of their enactments, that it is difficult to discover the object intended, or comprehend the daty enjoined. The powers and duties of the respective officers commented with the military organization of the Common wealth, should be more clearly defined. Great er oncouragement should be given, to the formation of volunteer companies; the entire system should be remodeled, and placed in a position to become alike honorable and useful to the State.

The Select and Common Councils of the City of Philadelphia, by an ordinance passed the 7th day of April, 1856, and officially com-municated to the Legislature at their last general session, proposed to convey to the Com-monwealth of Pennsylvanja a lot of ground in that city, for the purpose of creeting an Ar-senal thereon. By the act of the 6th of May, 1857, the Governor was authorized to accept from the Mayor of Philadelphia, under the soal of the Corporation, the conveyance in fee simple of the lot of ground proposed to be do-unted to the Commonwealth, for the purpose indicated. The conveyance was duly executed by the Mayor on the 26 h 'day of June, 1857, and delivered and accounted on the 31st of July following, as directed by the act. The fourth section of the same act authorized the Governor to apply the proceeds of the sale of the Arsenal in Philadelphia (\$30,000 00) to the erection of an Arsenal on the lot of gri thus granted to the Commonwealth. In the authority conferred, a contract was made with a skillful and experienced Ar-chitect, for the erection and completion of the chitect, for the erection and completion of the proposed Arsenal; to be large and, commodions, and adapted to the purposes intended. The building was immediately commenced un-der the direct supervision of the Adjutant General, and is now completed and ready, for the reception of the Arms. Military stores and equipments of the Commonwealth, It is of brick, three stories high, one hundred and eighty-two feet. front on . Eilbert street, and fifty fect in depth. The foundation walls of stone, are solid and massive. The cost of con-struction did not exceed the appropriation. I is a substantial and clegant structure, and will be a safe deposition?" for the public arms an ornament to the city, and a credit to the Commonwealth.

Commonwoalth. One of my prodecessors in his annual com-munication to the Legislature, immediately after the close of the late war with Mexico, recommended the creetion of a monument to the memory of those citizen soldiers, from Pennsylvania, who died in the service of their country in that way. It is due to them, that some public acknowledgment of their patriotic services should be made by the State. Concorvices should be made by the State. Con-curring in the sentiments expressed in the communication to which reference, has been made. I would also havite your attention to the propriety of creating in the next of the propriety of erecting, in the public grounds of the Capitol, a suitable monument to their memory—and thus honor those who by their undauated bravery and invincible valor, hon-

The styl and general execution of the work will b qual, if not superior, to that of "any similar ublication by our states. It will fulequal Is sustain the reputation of the distinguished Geologist, by whom the surveys were made, and who has devoted so much care and attention to its publication. The large geological map of the Slate, which will accompany the volumes, will not be finished before the close of the year. Great care has been taken to make it perfect it in all its details. The whole work will be a valuable addition to geographical, as well as geological science, and will be alike useful to the citizens of the Com-

I cannot forbear presenting for your consider-ation, a subject that, should claim your earli-est attention. I refer to the crection of a est attention. I refer to the creption of a house at the sect of Government, Tor the use of the Governor of the Commonwealth. The want of a public mansion, has been seriously felt by all who have been called to occupy that official station. Whilst almost all our sister States have provided residences for the accommodation of their Chief Magistrates, Penn-sylvania for reasons not creditable to her as the "Keystone State," has refused to incur the expense necessary for the erection of such a building. The failure to provide, in this manner, for his accommodation, subjects the Governor to much inconvenience, oftentime vexatious and annoying. A suitable house cannot always be obtained here, and in that event he is compelled to be shut up in the rooms of a hotel, or crowded with his family into some small and obscure dwelling, alike unfitted for domestic comfort; or the exhibition of the amenities and courtesies of social life. It should be remembered that the Gov ernor of the Commonwealth is regarded as the representative of the people, socially, swell as politically, and therefore he should be enabled, by every proper appliance, to represent truly their social visitues and character.--This he cannot do, to the extent desired, on the very meagre salary he receives; and 1 do not hesitate to affirm that no one occupying not besitate to affirm that no one accupying this office onn, without drawing largely on his private income, exercise the hospitulities or maintain the dignity properly associated with the position. Thave avoided all useless expenditures, and yet the salary received, has been wholly insufficient to defray the expen-ses necessarily incurred. This should not be permitted. Every forsideration of public pol-icy, every honorable impulse of proper State pride, require that the Shief Executive Officer of the Commonwealth should be provided with a suitable residence, at the seat of Govern-ment, and with a sealary adequate to the ox-penditure incident to his high official position. In my last annual communication to the In my last annual communication to the General Assembly, my sentiments were fully expressed in reference to reform in the natur-alization-laws, and the admission of mpplicants to the right of citizenship- to the preserva-tion of the purity of elections, by the preven-tion and punishment of fraudulent and illegal voting; and the enactment of a judicious reg-later law-in freedom as the great contractment biry law to freedom as the great centre truth of American republicanism—the great law of American nationality—to the rights of the States, Independent Sovereignties, and the power and duty of the General Government to prevent the extension of the institution of slavery to the free territories of the Unionto the wrongs of Kansas, as exhibited in the violation of the doatrine of popular sovereign-ty, by the General Government, in its attempts by the military power of the y the military power of the country and oth-rwise, to defeat the will of the majority in Athat territory; wrongs still existing and ag-

The Cincinnati Gazette of Monday says: "We hear a rumor, with what foundation we are unable to say, that Nicholas Longworth, Esq, will contribute the necessary sum to purchase the marble statue of Gen. Harrison, which it is designed shall occupy the top of the proposed Historical Monument, to be erected in this city. Such liberality is worthy of the man and of the magnificent design of the Pioneers Association. The statue will probably cost \$1000."

A letter was received on Monday, by Rev. Dr. Murray, of Elizabeth, N. J., announcing the death of Rev. Mr. Freeman and wife, who went out to India in the Missionary service some time sing. DR. DUFFIELD'S ADDRESS.

Some three months ago; we announced that rrangements were making to publish the 'Historical Address," delivered by the Rev. Dr. DUFFIELD, of Detroit, at the celebration of the Centennial Anniversary of the First Presbyterian Church of Carlisle, in July last.

The Address has now been placed in our hands for that purpose and we contemplate issuing it about the first of February next, provided

a sufficient number of copies will be subscribed for, in advance, to warrant the expense. It bration; and will be furnished to subscribers at 25 cents per copy.

The reputation which DR. DUFFIELD enjoys as a vivid writer, his relation to the Church, for many years, as its pastor, the circumstan. ces which called forth the Address, and its value as a historical sketch of the early set tlement of the "Churches of the Valley," gives peculiar interest to this publication, and as the edition will be limited to the number of copies subscribed for, those who wish to seours it, should send in their orders without
