STATE CONVENTION .- It gives us pleasure to notice the fact, that the call by the Chairman of the State Committee for a State Convention on the 8th of July next at Harrisburg, meets the ready approval of the opposition papers generally. The Reading Journal, one of the most reliable and influential organs of the American Republican party in the State. in

noticing the call says: It will now become the duty of the Opposi tion party in this county to choose delegates to represent Berks. This can be done any time between this and the 4th of July. We suggest that a County Meeting be called, of which at least three weeks previous notice be

given, so that all persons interested may attend if they see proper.

It affords us much gratification to add that the very best feeling prevails in the Opposition ranks throughout the State. All seem to be impressed with the importance of union. and co operation. This is well, and if adhered cure us a glorious triumph in the

DRATH OF GEN. SMITH .- Gen. Persifer F. Smith the commander of the Utah army died at Fort Leavenworth on Sunday the 16th inst. His remains have been brought east. Gen. Harney succeeds to the command of the

Gen. Smith was a native of Pennsylvania and some of his relatives reside in Philadelphia. At an early age he emigrated to Louisiana and commenced the practise of law. Bu he always evinced a strong ambition for military distinction, and at one time commanded a body of Louisiana volunteers in the Florida war. On the breaking out of the Mexican war, in 1846, when a requisition was made upon Louisiana for volunteers, Gen. Taylor especially requested that Smith should be called into active service. Upon the organization dent Polk gave Smith a commission as Colonel in the regular army, to command this regiment. This commission is dated 27th of May 1847, Col. Smith immediately joined the army under Gen. Taylor, and participated in the siege of Montery. For his gallant services on this occasion, President Polk conferred upon him the rank of Brigadier General by brevet.

Gcn. Smith remained with Gen. Taylor until the expedition to Vera Cruz was determined upon, when he was among those detailed to join Gen. Scott. Illness prevented his taking an active part in the prosecution of this wonderful campaign, until the forces arrived in the valley of Mexico. Here he planned and achieved the victory of Contreras, one of the most glorious actions of the war. Upon the same day, Gen. Smith, participated in the battle of Churubusco, where, according to Scott's official report, he "directed the whole attack in front, with his habitual coolness and bravery." Subsequently, Gen. Smith was appointed one of the negotiators of the armistice When hostilities were resumed, Gen. Smitl participated in the storming of Chapultepec, and also in the terrible conflict at the Beler Gate of the capital.

After the close of the war, Gen. Smith, now a Major General by brevet, continued in the regular army, and, as Commander of the Pacific and South-western divisions, rendered important service. Recently he was selected to take command of the forces despatched against the Mormons, but his untimely death has prevented his achieving new successes in a most difficult field.

We learn from the York (Pa.) Demo cratic Press, that the Rev. JOSEPH A. MURRAY for the last eighteen or twenty years Pastor of the Presbyterian church of Dillsburg, York county, is about to resign his position and retire from his labors: "The Rev. Mr. MUBRA has been an efficient Christian minister; and the interest he has always manifested in the success of our Common Schools must make us Teel very sensibly the loss we shall sustain by his withdrawal from the field of his former usefulness. We presume that the community in which he resided for so long a time, and t which he had endeared himself in his pastoral office, will suffer most by his retiring."

Mr. MURBAY is a native of Carlisle, and we presume he retires from the ministry on ac count of ill health.

TRANSFER OF THE PUBLIC WORKS. - On Wednesday last, Gov. Packer, Judge Knox, the Attorney General, and Mr. Morehend, Presi dent of the Sunbury and Eric Railroad Com pany, consummated the sale of the State Ca nals. The securities were given, the deeds executed and delivered, and the Governor has issued his proclamation, announcing the trans far of all the public works of the State to the Sunbury and Eric Railroad Company

The American Bible Society, Young Men's Christian Union, American Congregational Society, and Temperance Union, held their anniversaries in New York, during the past two weeks.

The Bible Society reports its years' receipt at \$809,759, including \$252,830 from sales of books, and \$37,928 from donations and legacies. During the year seventy-two new life directors have been added, and 1,589 life members." In the same year eighty-nine new auxilliaries, most of them in the new States and Territories. The books printed have been 250,000 Bibles and 381,000 Testaments, and 500 volumes in raised letters, for the blind; making a total of 831,500. The issue of the year has been 716.888 volumes, making a total, since the formation of the society, of 12.808.407.

On Monday 150 pews in the new Methodist Episcopal church, corner of Fourth avenue and Twenty-second street, New York, were sold at auction, and a premium was realized of nearly \$2,000. This is the first instance in that city of the pews of a Methodist church being sold at auction. She assessed value of all the pews of this church is \$120,000. This church is to be under the pastoral charge of the

Rev. John McCLINTOCK, formerly of Carlisle. A farewell meeting was held on Monday evening in the Presbyterian church, Madison Square. New York, with the Rev. Dr. Schauffler, missionary in Turkey, who is about leaving this country for Constantinople, to renew his labors in the missionary cause.

The statistics of the New York Methodist Episcopal Conference, which has been in session in New York city, shows a total of 27,214 | Drill. members, and 9,129 probationers, and an increase of 548 members, and of 4,552 probationers during the past year.

.. The thirty-fourth -annual-meeting of the American Baptist Publication Society was held last week, at the Fourth Baptist Church, Philadelphia. After an opening address by the President, Hon. J. H. Duncan, the annual report was read, showing the receipts of the year to have been \$60,586, an increase of \$12,532 over the previous year, and the expenditures were \$60.430. The number of colporters put into commission during the year was fifty-three-forty in the United States, three in Canada, nine in Sweden and one in Norway. They together have reported 20,052 volumes sold, 4996 volumes given to the poor, 187,184 pages of tracts distributed, 3,263 sermons preached, 25,877 families visited, 802 converts baptized, 29 Sunday schools formed, and 16 churches constituted. Hon. J. H. Dun-

can was re-elected president of the Society.

The Old School General Assembly of the Presbyterian church, which has been in session at New Orleans, adjourned last week .-The next annual meeting-will be held at Indianopolis in May next. The report of the Board of Publication presents the following statistics for the past year. There have been published forty-five new books, of which have been printed 85,730 copies; nine new tracts, 24,100 copies; the Presbyterian Almanac. 30,000 copies. Total number of new publications, 139,750 copies. Reprints of former publications, 326.750 copies. Total number published last year, 466,500 copies. The is sue of new publications last year exceeded that of the preceding year by 14,500, and is still further in advance of any other year in the Board's history. The sales made at the publishing house in Philadelphia during the past year have been 191,998 volumes. The sales of tracts during the past year have amounted to 796,968. Colporteurs have sold 123.924 volumes, and gratuitously distributed 17,095. The receipts were \$126,960; expenditures \$106,801. The amount from sale of books, tracts and Sabbath School Visitor has

been \$80,842, and from churches \$17,150. The proposition of Dr. Brackenridge to publish a new commentary on the Bible, was referred to the next Assembly.

The ratio of representation in the General Conference was fixed at one minister and one layman for every one thousand members, in a certain contingency, and fourteen hundred in another; when, on motion, the Conference adjourned sine die.

On the night after adjournment, the delegate from the remote region of Oregon made his appearance, having been en route since February last.

Subjoined we extract from Benton's abridgment of the Debates in Congress, a description of an interesting event in the history of St. Louis, but little known to the country at large.

THE RIFLEMEN OF THE WEST .- Mr Benton stopped a moment to speak of an exploit too little known to history. He said that the British and Indians, to the number of 1,600 appeared before St. Louis in the year 1780. General George Rogers Clark was then upon the American bottom with the conquerors of Vincennes and Kaskaskia. The French of St. Louis sent to invoke his aid. He had but 400 men, and might have declined with honor. He might have suid—our numbers are too few the river is too wide and rapid: you are strangers and live beyond the confines of my country; you may be in collusion with the enemy to draw me across the Mississippi, and to revenge in Louisians the defeat of your countrymen in Illinois. But such was not the language of General Clark nor of the 400 brave men that followed his steps, He or they knew not danger. Knew it not! May their spirits pardon me, said Mr. B., for applying to them such a fourth-of-July They did know danger-were

"Danger and I are brothers,
Twin lions whelped in one hour,
And I the elder and more terrible." They were the riflemen of the West, and took counsel, not from danger, but from hon or and courage. They divided into two bodies and marched to the relief of St. Louis. Two and marched to the relief of St. Louis. Two hundred presented themselves opposite the town, and two hundred crossed the river be low. At the sight of such boldness the British and Indians, believing them to be the vanguard of a great army, suddenly retired, after killing eighty of the inhabitants, and leaving an impression of terror which still marks that year as an enough of calamity. Wenne du year as an epoch of calamity; "Canne du coup. History, continued Mr. B., tells of the passage of the Rhone and the Granicus; but here is the passage of a river unknown to history, yet surpassing the exploit of Hannihal and Alexander as much in heroism and magnanimity as the Kather of Floods surpassed in nanimity as the Father of Floods surpassed in magnitude the puny stream of Gaul and Asia

MARKETS .- Although the almost contant rain, has kept the roads in bad condiion our weekly markets are pretty well supplied. Grass Butter sells at 20 to 22, Eggs 10 cents per dozen. Potatoes 75 to 100, dried peaches 121 per quart, Beef 10 to 12, mutton 9-Veal 8 to 10, Pork do. Asparagus, onions, radishes and currants, have made their appearance in small quantities.

The fish market has become a matter great convenience to our citizens, they have been kept well supplied with fresh shad during the season; and last week we had a car load of Blackfish and Halibut, which were sold readily at fair prices. We hope our friends Harkness, and Nonemacher and others engaged in the business will continue it.

OUR WATERING PLACES.—We are nformed that our friend Major Patton; has sold out his lease of the Mount Holly Springs to the Proprietors of the St. Lawrence Hotel Philadelphia. From the position which the St. Lawrence holds, as one of the most popnlar Hotels in Philadelphia, we presume that Mount Holly Springs under the same proprietors will lose nothing of its character, as an elegant summer resort, which it has enjoyed for the last two years, under the able management of Mr. Patton and his estimable Lady.

In addition to the above Hotel Mr. Mather Moore, still continues at the old stand, where for so many years he has catered for the com-Va., and will meet next year at Georgetown, & Chandler at the Carlisle Springs, are mak-D. DIVISION OF NORTH MIDDLETON .-Cumberland is called the mother of many counties. She also bids fair to be the prolific mother of many townships. We learn that at the last session of the Legislature, an effort was made to have a bill passed to divide North Middleton township, from East to West, making the Conodeguinet creek the line. Opposition was rade to this plan of division, and tribute of respect to a departed the bill failed. Subsequently, the Court of Quarter Sessions, on petition, appointed Viewers to run a line so as to divide the township, aweet consciousness of a Saviour's love, he sweet consciousness of a Saviour's love, he Quarter Sessions, on petition, appointed View-North and South.

The Viewers appointed by the Court are Levi Merkel, William R. Gorgas, and Christian Titzel—Surveyor, Theodore D. Irish. They are to commence operations to-day, starting in sympathy with his afflicted family, we offer from a point near Mr Baker's, on the Trindle these resolutions: from a point near Mr Baker's, on the Trindle Spring road, just below the Mile Hill. A line its presence, and grew up in its company, and North, from this point, divides the township

into two nearly equal parts. We have not heard yet, that any name has been selected for this young member of the Confederacy. We presume, however, that the two townships will be known as Upper and Lower North Middleton

THE CORN CROP.-Our farmers, taking advantage of a few days of dry weather, are busily engaged with their corn crop. The unusual quantity of rain, which we have had during the month of May, has operated very much against the agricultural interests, and some fears are entertained that a second planting of some of the fields may be necessary.-However, we learn there was not much corn planted previous to the wet weather, and it is hoped that a favorable season will still give us an average yield-of corn. The wheat crop looks well, and gives abundant promise of a plentiful harvest.

Progress of the Mormon War. The news from Utah, if reliable, shows that the valiant Mormons, after all the blustering of Brigham Young and the Saints, have, to some extent, ingloriously surrendered. Gov. Cumming, on the invitation of Brigham Young, has entered Salt Lake City, and some of the "Saints" have fled to the Southern portion of the Territory. The Washington Union says: If the news prove true, it will be welcome indeed. It is hardly consistent with the pre-vious advices we had received of the vigorous measures taken by the Mormons-to cut off our supply trains and harass our army in detail.

supply trains and harass our army in detail: but the news is so gratifying and so welcome, that few are disposed to question it. If true, it will be a new proof of the value of energetic

measures, and a stern policy on the part of government towards rebellion. Mere passivity or non-resistance on the part of the Mormons, in the presence of our army. will amount, however, to very little in the set tlement of this Mormon trouble. The real curse of Utah is the imposter, Brigham Young; and even if the news be true of his pacific overtures to the officers sent out by the gov-ernment, we doubt whether it can be regarded erament, we doubt whether it can be regarded as a bona fide submission. No settlement of the Utah difficulty can be regarded as effectual or reliable which leaves this impostor in the exercise of his dominion over the religious mind of that community. We may have the semblance of peace, but there can be no peace in fact between the federal government and the community who acknowledge Young as their ruler and prophet. Nor can there any security in that community for the citizens of the United States who profess a different of the United States who profess a different belief, so long as the despotism of the Mormon church remains. Were the reported news true, therefore, we should be slow to regard it as conclusive of peace; to regard any peace as reliable which left Brigham Young the des-

pot of Utah. of ottan. Government intends keeping a large military force in Salt Lake valley, and force in Salt Lake valley, and will make Salt Lake City a depot for Stores and equipments. ACQUITTAL FOR KILLING A SEDUCER IN KY The trial of Hardesty for the shooting-gi rubb, occupied three days of last week, a Burlington, Boone county, Kentucky. It wil be remembered that a sister of Hardesty wa seduced by Grubb, and that Hardesty told the seducer that he would give him six months in which to make his choice between marrying the girl and being killed. The six months expired, and Grubb not having married the girl Hardesty met him, and on sight shot him.-The evidence showed that Grubb was armed also in expectation of the attack, but was sho Nutall upon the verdict of not guilty by the

WILLOUGHBY'S PATENT THE FIRST PREMIUM DRILL.

The Farmers of Cumberland county are invited to call at the Carlisle Foundry and examine the above Drill, which we are now manufacturing. WILLOUGH-BY'S INDIA RUBBER SPRING DRILL is unquestionable to the company of the call the c ionaby the very best Drill now in use. It was awarded the First Premium at the Pennsylvania State Fair held in Philadelphia in October, 1867. It was awarded the First Premium at the Cumberland County Fair last fall, and has received the First Premium at every Fair where it has been exhibited, with but one exception.

where it has been extinited, with out one exception. Its superiority above all others is so apparent as to only need an examination.

For seeding on fields containing stones or other obstructions it is peculiarly adapted. The depositing tubes of this Drill are so connected with India Rubber Springs, that when they neet with any obstruction they will spring back, pass over the obstruction and immediately regain their former position. Any rock or stump not over is lineles high can be conveniently passed over without stoppage or injury lothe Drill. The feeding apparatus of this Drill is also entirely new, being composed of Vulcanized India Rubber Rollers, by means of which the seed is not discharged intermittingly but in a constant stream, and no irregularity of ground or change of speed will vary the amount sowed on the acce. It will sow wheat, rye, outs and barley equally well, and in any desired quantity, without the possibility of choking or breaking the grain It also sows grass seed. But without further enlarging upon the merits of this Drill we would prefer to have Farmers will not unestabilishment and examine it, confident that after seeing they will be satisfied as to its superiority and find it the very machine to suit the farmer and the field.
