FEARFUL SCEER WITH A CHARY SAILOR.—A most fearful scene was witnessed in South debate—(all eyes turned on the speaker.)—it Shields market place last night. By a very large crowd of people sailors and others—and the horror and alarm that prevailed for some time cannot well be described. Thomas Cook a sailor, had returned from Hamburg that morning, in a brig called the Castle fiden. He had been a little excited when he came home, but there had been nothing in his manner very much to alarm his wife. After tea he had dressed himself and gone out, and it would dressed himself and gone out, and it would fed. seen that he was immediately seized with a sudden attack of madness. He was observed running about in a frightfully excited state. ind then to clamber by the spouting to the roofing of St. Hi'das Church. With such ility as only sailors display, he, somehow other, attached himself to the east side o the church tower by resting with his toe ends upon a thin ledging stoping to the ground-und not more than an inch in breadth; and striking his finger nuls into the lime between the stones. To redize my carnest wishes, I slept each night with my windows open; but they would not one. This is the only regret I can cherish a connection with my visit to Delaware. At very step I received evaluaces of kindness, except from these little tormentors of human flesh. Never having enjoyed the laxury of a night with mosquitoes. I confest I was most ally disappointed. The only evidence that of their existence in the country, was a slight musical-funzing of a stray one, which produced rather a soothing influence upon my feelings as I sank to sleep.

Through the kindness of my friend, Rev. Through the kindness of my friend, Rev. Mr Todd who contributed much to the pleasure of my vi-it to Delaware, I was conducted again to Camden; and after a sweet night's repose I left for this place with many wishes for the happiness of my friend and his aminable wife and family.

In my next, I will give you something about my ride to this bathing place, together with its points of interest.
