We never authorized any gentleman to make any such contemptible proposition to the Herald. This is not our character-not our way of settling with those who assail us When we are wantonly attacked, we draw the sword of retaliation, and throw away the scabbard. That is the "satisfactory" we give.

That the Editor of the Volunteer did send a mutual friend to us with a proposition for peace, is true and he knows it . Taking it in good faith, we acceded to it, but we are satisfied now, it was merely a contemptible trick, to-disarm our reply, and give himself, what he values so highly, the privilege of a comme scold, in having the last word.

As he has seen proper to withdraw that proposition, and says in his grandiloquent style. that the has drawn the sword and thrown away the scabbard," he is quite welcome to cut away whenever he is ready; we shall return him blow for blow, but, we advise him. as he has "thrown away the scabbard," to throw away the sword also, and take a dagger, it is the favorite weapon of an assassin, and therefore most appropriate to his line of busi

EDITORIAL GOSSIP.

The first of September, brings with it the usual symptoms, that the fall of the year is approaching, strangers who have sojourned with us during the heats of summer, are returning to their homes, and our pleasant watering places will soon resemble "some banquet hall deserted."

Great preparations have been made in Philadelphia, for the celebration to-day, of the successful laying of the Atlantic Telegraph. They are to have a military and firemen's pa rade, and a display of fireworks and illumina tions in the evening, The citizens will no

doubt generally participate in the programme. By the end of this week, most of the Conssional districts will have their candidates before the people; in some of the districts the fight promises to be triangular.

In Pittsburg, politics have got into a snarl; the local politics seem likely to override all other issues. The question is on the payment of interest on the city railroad bonds: the Democrats at the County Convention, adopted resolutions in favor of repudiating the bonds. Republicans and Americans have also held Conventions of a mixed character, and placed candidates in nomination on the tax question alone, without reference to State or National politics.

The Lecompton party in Illinois has waked up at last, and Judge Breese, the Buchanan candidate for the U. S. Senate is about to take the stump against Douglas and Lincoln.

At the Democratic Convention in the sixth Congressional district of Ohio, they balloted ffly-three times for a candidate, and the choice fell on Wm. Howard, anti-Lecompton. THE KANSAS ELECTION. - The Board of Elec-

tion Commissioners, constituted by the English Bill, have issued a proclamation, declaring the proposition for the admission of Kansa as a State with the Lecompton Constitution rejected by nine thousand five hundred and twelve majority. The whole vote was thirteen thousand and eighty eight. No fraudulent votes were received, but a few precints were rejected on account of informalities.

So much for democratic bribery; the people of Kansas have spoken for the last time on Lecompton, and the effort of the Administration to purchase votes by government land, has failed in its object.

The bribe is spurned with contempt, the "peace measure" is rejected, and it remains to be seen whether the Administration will carry out their threat, and keep Kansas Territory until her population shall reach

He made a few remarks, thanking the Convention for the partiality it had shown towards him. Among the measures which would be probably introduced lifts the fiext Congress would be a revision of the Tariff, and he was now as he ever has been, in favor of such a tariff as would reject such articles. of such a tariff as would protect such articles as most needed protection. He reflected upor the Administration of President Buchanan with respect to this question, and said that ever since our President has been in the White House, the workshops became idle and the in-dustry of the country withered—the effects of free trade. Great Britian, while constant-ly crying out for free trade, had at this day one of the most protective tariffs she ever had. He was likely, he thought, if he became the representative of this district, to differ some-what from the policy of Mr. Bucklean's had what from the policy of Mr Buchanan's Administration—on one question particularly Mr. S. went on to speak of the Administration when he said he was in danger of making a speech, which he promised not to do, but there was one matter to which he wished to refer. He was opposed to Slavery—he was opposed to it eyerwhere, not only hecause slavery was opposed to free white labor, but because slavery was wrong, oppressive and barbarie. The entire catalogue embraced 234 lots. It would be a difficult matter to name any article necessary to comfort—from a camp bedstead to a punch bowl-which was not included in the list. The personal wardrobe was extensive-comprising twenty-four pairs of pants, a whole heap of vests, numerous conts, and no less than four dressing gowns, The military clothing was also in large variety as well as hats, dress swords and military trappings. A pair of epaulets in bullion was the object of special interest. Upon the shoulder-piece of each are two stars in silver, each star set with thirty-two small diamonds. Gen. Three Indian papooses have just crawled into my room. Neither of them can walk. One of them crawling on his all fours, laugh. The August Term of our Court was devoted entirely to the trial of criminal cases, and as some of them were of much more importance than usual, the court-room was crowded to excess during the progress of the trials. We give a synopsis of the cases, as they were disosed of in their order.

Com. vs. Henry Baker. Forgery. Th Grand Jury found four bills against the defendant, who is charged with having forged the names of several of our citizens to checks on which he raised the money, by getting some of our merchants and inn keepers to cash them. - Having been arrested within ten days of the term, on motion of his attorney, A. B. Sharp, Esq., his trial was continued until the November Term.

Com: vs. John Rider and Sarah Rider. In dicted for murder. "True Bill." The defendants in this case are charged with Infanticide, in having caused the death of their child. We detailed the facts in a former number of the Herald. One of the defendants being unable to after d court, on account of illness, the case was continued until November. Shearer for Commonwealth, Watts and Todd for Defendants.

Com: 'vs. Francis Perriere. Indictment Murder. "True Bill." The defendant in this case was charged with the murder of John McNamara, on the night of the 3d of June last. The parties were soldiers stationed at Carlisle Barracks, and on the night above hamed, McNamara was found lying on the side walk, in East Louther Street, with three wounds inflicted by a knife, one in the abdomen, and two in the left breast, one of which had, penetrated the heart, causing instant. death. The commonwealth was represented W. J. Shearer and James R. Smith, Esqrs. For the defence, A. B. Sharp, John Lee and J. W. D. Gillelen, Esqrs.

The following persons were empanelled as a jury_to , try the case = , Henry - Ackerman, Joseph Bucher, John Myers, James Kolso Benjamin Kauffman, Daniel Kendig, James L. Allen, Michael Kost, James R Kelso, Geo. M. Graham, Jonas Eichelberger and James Mc-Candlish.

It was proven that some days before the some soldiers, in which the prisoner was badly beaten, and that in consequence of this, be had threatened to revenge himself, by killing several persons whem he named. The day after the fight, he bought a dirk-knife, and on the night of the murder he was in town and bought a new pair of buckskin guantlets. When the prisoner was arrested, his guantlets were slightly stained with blood, and the soldier's cap, which was found near the body of identified as the one he had bought from a soldier at the Barracks, was found in East street, a short distance from the scene of the murder. All this formed a strong chain of circumstantial evidence, although the deceased was not among those against whom he had made threats, nor was he even acquainted with him, The defence taken was the uncertainty, in the absence of positive proof, of identifying the prisoner, as the one who had committee the murder, and second, that if he did take the life of McNamara; it was done in a quarrel,

and while under the influence of liquor.

The jury rendered a verdict of "Manslaughter," and the prisoner was sentenced to six years solitary confinement in the Eastern Penitentiary. Com. vs. Adolphus Behman. Fornication

The defendants re side in Springfield, and have at times proved a great nuisance to the neighborhood, fighting, dancing and carousing through the entire night. FATAL ACCIDENT FROM BURNING FLUID .- On last Saturday evening, about 8 o'clock, a small boy named John Reed, in Mr. Haller's grocery store, went to the cellar to draw some fluid, for a customer. ' Two other boys, a little girl, and a child of Mr. Haller's were in the celtar at the same time. By some accident the light was overturned and the flames came in contact with the fluid as it ran from the eask, causing it to explode instantly; two of the boys, were thrown partly up the cellar steps by the force of the explosion, one of them escaped without injury, the other being stightly scorched. The alarm was instantly given, and two men jumped into the cellar one of whom rescued Mr Haller's child and the other secured the little girl. Consecration, - The Rev. Samuel Bowman, D. D., was consecrated assistant Bishop of the Diocese of Pennsylvania, on Wednesday dast, in Christ Church, Philadelphia. The ceremonies were solemn and interesting.

Shortly before ten o'clock the elergy from ab oad gathered in a small building in the churchyard, and prepared to walk in pro-

tendance from every part of the State, as were a number of prominent churchmen and students for holy orders. The Bishops and officiating Clergy met in a large room under the tower, where They robed Themselves in their proper vestments. The country elergy walked in procession into the aisle of the church at the moment the clock struck ten; the organ pealed out its majestic notes as the clergy passed to their scats. Then came the procession, which ac-companied the Bishop elect, in the following

The middle aisle was cleared with the utnost difficulty, and caused much confusion to make room for the procession. Dr. Bowman took a sent in the middle aisle, in front of the chancel, where he remained until the commencement of the consecration services.

The reverend speaker upon these words of Holy writ founded a most able and effective discourse. Clear and logical throughout, it elicited the closest attention from the vast congregation. At was a clear discussion of the text concluding with a forcible appeal to the candidate, setting forth on the one hand the trials and difficulties which are inseparable from the office of Bishop, and upon the other hand the reward, of approbation of his own conscience and the approval of his Saviour. Dr. Bowman rose and stood during this sol-

emn appeal. After the sermon the ceremony of consecration commenced, according to the form of the book of Common Prayer, with the reading of the collect and portions of Scripture.

The Crops.—After a long spell of dry reather which threatened damage to the corn and potatoe crops in this county, our farmers rere cheered with the copious showers of rain the content of the congregation and the congregation of the congregation
