A CARD. To the Voters of the Sixteenth Congressional District in Pennsylvania.

District in Pennsylvania.

Pellow Citizens:—As the People will soon be called I upon to select a candidate for a seat in the next Congress, and believing that the time has arrived when the masses whe, carn their bread by the sweet of their hows? have telt and seem the sad effects of the Democratic British Free Trade policy, and are ready to vote for men who are in favor of reinaugurating the great system of Protection to American Industry which HENRY CLAY labored a whole life to establish;—therefore, at the solicitation of friends of the cause, I own may be seen the solicitation of friends of the cause, I own may be seen the solicitation of friends of the cause, I own may be seen the stabilishing of which I would labor fattifully, and hail as a triumph which would do honor to the memory of the INMONTAL BARD, and restore our country once more to happiness, and presperity. Then would be heard the sound of the hammers in the 6 rges and smith shops, and the millsand factories would hum and elatter—then would thousands who are now deprived of work, rejoice in having an opportunity to carn "bread" for thier wives and children—then would the mechanic be suitably rowarded for his genius—then would the country truly be "covered with blessings and benefits."

Should I receive, the nomination and be olected, I pleads only hearty support to the principles set forth in the People's call for a State Convention.

FACTURERS AND FARMERS.

THE STENTIFIC AMERICA'S has now reached—its Fourty Team, and will enter apon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, obstruse work on technical science; on the contraly, it so deals with the zerat events going on in the scientific, mechanical and industrial worlds, as to pleuse and instruct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipo for making a good color, &c.—if the inventor wishes to know whit is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times, and to employ the best leaflithes in this business—if then Manufacturer wishes to keep posted with the times, and to employ the best leaflithes in this business—if the Manufacturer and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of tolographs, steamsdrips, railreads, respect, both of peace and war—all these bestegart can be found in the Serviter Americas and not elsewhere. They are life persented in a reliable and interesting form, adapted to the comprehension of units unlearned in the higher branches of science and art.
