J. L. Zook, Upper Allen,

A WORD TO OUR FRIENDS. Last year you were caught napping, and let our county election go by default. Is it to be so again? Last year you remained quietly at home without a single effort in the right direction, to ensure the success of the ticket. When the "election day" came round, some stayed at home under the old plea that "it was no use to vote," while others went quietly to the election and deposited a quiet vote, and then went home congratulating themselves

that they had done their whole duty. What was the result? A majority in the county against us of 500. Now, does any sane man believe that, the democratic party of Cumberland county, can poll that majority if the "PEOPLE" will organize and vote? Certainly not. You know they cannot; your neighbors know it; the democrats themselves know it, and hence their chuckling, when they see you lying on your ours, waiting patiently for "something to turn up" It is a burning disgrace to your name and your principles, that you should suffer vourselves to be whipped, year after year, with the power in your

own hands to win success. If you feel like going into the campaign with a determination to carry the ticket, you must at once take measures to organize in the townships. Now is the time to commence operations. Do not let the second Tuesday of Oc. committee is composed of and in from the various boroughs and townships, let them be called together, so as to organize and originate some means, by which the county can be thoroughly canvassed, and the entire vote concentrated on the ticket.

An effort was then made to adjourn to meet this morning, but the York cor forces withdrew and returned home, this proba bly breaks up the conference.

## DEMOCRATIC POLICY.

Resolved, That we are more than ever convinced of the necessity of upnotting the Demo-oratic organization, for the purpose of promo-ting the best interests of the country, when we behold an opposition that professes no bond of union but opposition to democratic principles ed of the necessity of upholding the Demo and adopts a platform which is mean cept when it abuses a Democratic administra-tion. The above resolution was passed at the late

Democratic county Convention in Harrisburg. Perhaps it may be worth while to enquire how far "the Democratic organization has promo ted the best interests of the country'?? Our crops have been superabundant for years; we have been at peace with all the world; California has poured her golden treasures into the coun try and the so called, Democracy have had the entire control of the government, and yet the country is now crushed and paralyzed by a financial pressure. Our trade crippled; our factories wholly idle, or working at a loss; our mechanics without employment; the National Treasury without a dollar, and the government in the market borrowing money on her bonds Such has been the effect of the "better

tariff' policy of James K. Polk and the Demoeratic party who adopting the theory of British free trade, have made the country tributary to foreign manufacturers, and rendered Ameriean labor and enterprize valueless.

Is there any thing in this view of the case to convince men of the "necessity of upholding the Democratic organization"? Is it not time that we should see an "opposition that possesses no bond of union, but opposition to Democrat-'ic principles," if the teachings of these "principles." have brought the country to its pres ent condition? We have heard something o "an old rogue under a new name" and read, not a few, of the many feeble attempts at wit, indulged in by democratic editors, who sneed at the various names under which the opposition now rallies. These gentlemen seem to forget that while names may change, principles are immutable. They stick to the name of Democracy yet ignore its principles, while the opposition, whether as Whigs, Americans, Republicans or the People's party, remain where they ever were, conservative in spirit as in action against the progressive free trade policy of the so-called Democratic party.

REPUBLIATION.—The democrats of Allegheny county have narrowed the political fight down to the issue of paying or repudiating the debt incurred by the city of Pittsburgh and Allegheny county, on account of their subscriptions to railroads. In the Convention they refused to recognize either the State or National administration and came out boldly in favor of repudiation,

Old records are sometimes exceedingly unpleasant particularly when the course of those named has been very tortuous.

In 1849 a public meeting was held in Lan-ister, the home of James Buchanan. The meeting was held on the 24th day of December, 1819. James Buchanan was chairman of the committee to draft resolutions, and is the author of the following:

OLD BUCK'S "TIME TABLE,"

Under the monstrous expenditure of the Buchanan Administration, it is no wonder the Government is obliged to resort to loan bills and Treasury notes, to relieve the Treasury. The following table of expenses is a fair commentary on democratic "retrenchment and reform " Look at the figures. The expenses of the Government are \$90,000,000 a year!

\$7,500,000 a month!! \$1,875,000 a week!!! \$267,859 a day!!!! \$11.160 an hour !!!!!

\$186 a minute!!!!!! \$3,10 a second !!!!!!!

What do you think, Farme s of Cumberland County, of a Democratic Administration, that spends money at the rate of three dollars and ten cents for every tick of the clock?

MOBILAW TRIUMPHANT, -- On last Thursday a mob of one thousand men broke into the quarantine grounds, on Staten Island, and set the hospital and adjoining shanties on fire .-On the next night the remainder of the buildings were destroyed.

The conflagration commenced soon after the adjournment of a meeting held by the citizens of Richmond county. Among the buildings burned were six cottages occupied by those employed on the station; a large mansion occupied by Dr. Waller, the deputy health-officer, and a fine brick dwelling tenanted by Dr. Bisssell. Three of the sick persons removed from the hospital have since died from the exposure. The New York Times says:

Persons afflicted with maladies of a dangerous character, were here houseless and unsheltered, and without even the common utensils for cooking their food, and that in the utensus for cooking their food, and that in the midst of a community which is called 'civil-ized!' The patients were living on bread and cold victuals. Coffee, boiled over the three hundred tons of coal which are still burning near the green, was served around in palls. At one end of the enclosure a rude canvas roof had been tacked on to the fence, and covered the more feeble patients, but the rest were entirely unsheltered. In one corner of the grounds stood a bier with the remains atient who last died of yellow fever, of the patient who has died of years lever, and the hue of the countenances of many of those who lay on the grass gave evidence that the same pestiferous malady afflicted them.—

CAPTURE OF A SLAVER.

The U. S. Brig Dolphin from the const of Cuba, captured a slaver, with a large number of slaves on board, and sent her into Charleston S. Carolina under the charge of Lieut, Bradford. The slaver is a Baltimore built brig, named Putman but she had erased the name and assumed that of Echo:

Upon clambering up the side of the brig a strange and startling sight presented itself—a deek covered with native Africans in a state duck covered with mittee Arricans in a state of complete nudity, with rare instances of a narrow strip of rag an inch wide round the waist. These people were seated for the most part with their legs stretched out flat ordrawn up in front or doubled up, some standing about and a few lying down. None were tied or fastened in any way. The majority were very young, apparently from eight to sixteen years of age—some younger and some older; scarcely one, however, over twenty-five. All were pure black in color except the dropsical, whose skins were tawny from disease. Their hair is very short and crisp. Those who were well, appeared curious and pleased, some of them offing and giggling and chattering, and others smoking tobacco out of short clay pipes with clay stems just as our own negroes do. Those who were thin and sick looked dull and brutish, but there was nothing wild or ferocious in their aspect. They looked aiminhed and docile, and readily obeyed the commands of the person who had charge of them. They are great thieves. However, and appropriate whatever they can on every occasion. The close comparison between the shipments of treasure from San Francisco during this and the preceding year is quite interesting.—The total shipments this year, up to August 1st. reach \$27.577.408, being only \$171.46 less than for the corresponding period of last year. On this the San Francisco Bulletin remarks:

This result, was not anticipated when the great rush of 'miners took place to Frazer River, and it is gratifying to note that die production of gold keeps so nearly up to the former standard, notwithstanding the very serious diminution of the number of miners—The season of low water is now approaching, and mining operations depending on a low stage of the river will be more extensively garried on than during any previous year, while experience constantly adds to the probability of success. We judge that the summer's work will show a favorable result.

CONSUMPTION CAN BE CURED. CONSUMPTION CAN BE CURED,
Sir James Clark, Physician to Queen Victoria, and one
of the most tearned and skillful men of the age, in his
"Treatise" on Consumption, says,—"That Pulmonary
Consumption aimits of a cure, is ne longer a matter of
doubt; it has been clearly demonstrated by the researches of Latenine and other modern Pathologists."
The mere fact that such a disease is ever currible, attested by such unimpeachable authority, should inspire
hope, and resulmate fallen courage in the heart of every
sufferer from this disease.
The remedy which we offer has cured thousands.

BRANDRETH'S PHLLS PURIFY
THE BLOOD.

Continued pain or uncesheres in any organ is generally cured by one or more doses of Brandreth's Pills. Thirty years personal experience by the undersigned fully justify this assertible coatteness of the bowels with Brandreth's Pills, when every other remedy had failed and the patient was given up to die. Skin illsenses of an inveterate and painful character, such as eryslpelas, sait rheum, retter and summer heat. I have seen oradicated by their use. I have cured the rheumatic, the open character is a summer heat. I have seen oradicated by their use. BRANDRETH'S PHLLS PURIFY

OBSTRUCTION.

A young lady beautiful and healthy, took cold, which caused a serious obstruction for two years; her health was broken down and her beauty, toparted. At length Brandreth's Pills were tried; oloven dows, of from two to four, were taken in fifteen days preceding the usual period. Regularly, was restored, and her health and books resolvered. WORMS. WORMS.

Brandreth's Pills are the best vermifuge; they are infallible. A little clost, six years old, for some weeks was drawing; the mother gave it one of Brahdreth's sugar coated pills; the word day there came away a worm sixteen inches long, and as thick as a child's finger. The child was, well.

OBSTRUCTION.

PLEURISY. PLEURISY.

A gentleman, away from home, was taken with pleurisy: the Inflammation was terrible; every breath made him writhe with agony. Eight Brandreth's Pills were swallowed, and warn oil applied locally; the pills operated, and the pain was reloved; plenty of grael was taken, and six more pills, and the second day the

a patient was cured.

Three statements should have weight, and prevent the use of poisonous drugs, and stop the sad practice of the discount of the same augar coated, 13 cents, warranted to keep as well as the plain.
