## PERRY COUNTY.

The People's convention of Perry County, met at Bloomfield last week and nominated an excellent ticket. The Convention was full every district being represented. The party in that county exhibits more than ordinary spirit in this campaign, and we doubt not they will give a good account of themselves nex

The following resolutions, among others were adopted by the convention.

Resolved, That the revenue, necessary for wise and judicious administration of the Government should be raised, by the imposition of duties upon foreign imports, and in doing so, such discrimination should be made as will protect the rights of free labor and American Industry.

Resolved, That the safety and purity of the ballot box are to be preserved at all hazards, and that call frauds upon the Naturalization Laws, and the double voting system, resorted to by our opponents, must be counteracted by sound legislation; and that all foreign criminals, introduced in our midst, ough ately to be returned to the place from whene

they are shipped.

Resolved, That the nominee of this Convention for Assembly is requested, if elected, to vote against and use his influence to prevent the repeal of the present Tounage Tax on the Pennsylvania. Harrisburg and Laucaster Railroads, also to adhere strictly to the interests of the Commonwealth and his constituents.

M. B. HOLMAN. This gentleman has been put in nomination by the Perry county convention as a candidate for the Legislature in connection with Jour McCuapy of Shippensburg. We have already spoken of the claimes and qualifications of Mr. McCunny, for a sent in the State Legislature in regard to Mr. HOLMAN, we take the evidence of those who know him best On this subject the Bloomfield Advocate & Press

M. B. HOLMAN, the candidate for Assembly of Perry County, its candidate for Assembly
of Perry County, is a gentleman of next newledged ability and excellent business hubits
He is an honest, upright citizen; and will ratend to the duties of a Legislator with fidelity.
His votes will always be found guarding the interests of the People. We place him before the people with full confidence that his purity of character and uprightness as a citizen will endear him to the people and ensure him the majority of the votes in this district. The people can rely upon him as man who will attend faithfully to all the duties that may devolve upon him, and protect the interests of his constituents.

JOHN McCunny, the candidate presented by Cumberland County to run in connection with one from Perry, is the best selection that could have been made Ho enjoys a reputa-tion as a man-honest and upright—with an excellent judgment and sound practical business habits. The people can rely upon his trustworthiness to attend to their interests.

They know full well that a large ma porty of the people of Educaster county are Union-loving, National men, who have no sympathy in common with Abolitionism—that while they are willing—that the negro, should—enjoy all the rights guaranteed to him by our Constitution and laws, they are utterly opposed to elevating him to an equality—socially—and politically—with themselves. They are not willing that the rooty tribe, either male or the shall participate in our elections or female, shall participate in our elections, or occupy prominent seats in our parlors, or at our dinner tables.—Lancuster Intelligencer.

Will the editor of the Intelligencer be kind enough to inform his readers what " rights ere guaranteed by our Constitution and laws," to the negro race, under the Dred Scott de cision?

- Ten-Democratio-Conference-at-Bridge-FORT .- The Democratic Conferces, after two unsuccessful attempts to place a Congressional candidate in nomination, for this district, are to meet again to morrow, for a third trial. We hope they may have a "good time."

DEMOCRACY AND THE TARIFF.

The Locofoco papers are so busily engaged are as much the friends of the protective kins, who has been re-nominated, which we are mainly indebted to the Berks and Schuylkill Journal:

Twenty years ago will take us back to 1888, when the country was "progressing toward so-called "Democratic" party, with Martin Van Buren at their head, who had been entered as a candidate for re-election to the Presidency for another term. They will re-

relieve the prostrate industry of the country. A show of hands on the subject of the Tariff an appropriate committee. Mr. Fillmore, of New York, (afterwards President,) a staunch Whig and Protectionist, moved that it be referred to the Committee on Manufactures. Mr. Atherton, Loco, of New Hampshire, who was a member of the House at the time, and one of the "Progressives," moved its reference to the Committee of Ways and Means. He said the adoption of Mr. Fillmore's motion would be countenancing the principle oi Protection, while his own embraced that of Revenue merely. After a long debate, the question was taken,

and the vote stood:
YEAS-(Against Protection) 95-of which seventy-one were Locofocos, and twenty-four

Southern Whigs.
NAYS — (For Protection) 104 — of which nety were Whigs, and only fourteen Loco-

Thus, the principle of protection prevailed, and the whole subject was referred to the Committee on Manufactures, who in due timereported the "Tariff and Distribution Bill," which passed the House by a vote of 116 to

Of the vote in favor of the bill, 115 WERE WHIGS, and one (Parmenter, of Mass.,)Loco-foco. Of the 112 votes against the bill, 97 WERE LOCOFOCOS, (all they had but one.) TWO were Tyler men, and THIRTEEN were Southern Whigs

The bill next went to the Senate, and after another warm discussion, passed that body by the following vote:

YEAR - 25-ALL WHIGS. NAV8-23 twenty of whom were Locofocos, (all they had) and three Southern Whigs.

This Tariff bill was vetoed by John Tyler, a Locofoco convert, whom the Whigs had then unfortunately elected to the Vice Presidency. who based his objection upon the distribution clause. . The veto exasperated the Whigs, but they determined to make another effort to relieve the country. Accordingly, on the 22d of August, 1842, Hon. T. M. T M'Kennan.a tion clause stricken out. The Locofocos, as a party, fought hard against it, and the struggle was severe and intense. The bill (known as the Tariff of 1842, was finally carried in the House by the following vote:

YEAS, 105—Of these eighty-five were Whigs, and but treenty Locofocos.

NAYS, 103—Of these sixty-five were with the structure of the capital transfer of the vote of the capital transfer of the vote of the capital transfer of the vote of the vote of the capital transfer of the vote of

of August, 1842, by the following vote:

four Lucofocos. LOCOFOCOS; EIGHT WHIGH and ONE TYLER

Thus it appears that four times as many Whigs as Locofocos voted for he Tariff of 1842 in the House, and five times as many Whige as Locofocos in the Senate. So much for the Tariff of 1842. \ No sooner

was it passed than the "Progressive Free Traders" cried out for its repeal. On the 10th of May 1844, Mr. M'Kay (Locofoco.) Chair-

Native Americans. Of the 18 Locofocos 11
were from Pennsylvania, and voted under instructions from their Legislature.

Next comes the Tariff of 1857 which democratic speakers on the stump charge the opposition with passing How true that charge is, may be seen from the following vote of the passage of that bill in the House, (see Congressional Globe 3d Sess. 34th Congress page

For the Tariff of 1857 -128 - Of whom sixty seven were Locofocos, 39 Republicans, and 17 Southern Americans. Against it - 72 - Of whom SEVENTY-ONE were Republicans, and Americans, and only one Locofoco—Ava Packer, who represented an

Why did the Presidential election of 1856 when the country was "progressing toward free trade," under the well-known "compromise," or sliding scale Tariff of 1882. So far had we "progressed" in that direction in nority backed by the Federal power in the had we "progressed" in that direction in nority backed by the Federal power in the deed, if all the Democrats now cooperating Territory of Kansas. Shall they vote upon their districtions, unmolested by overrun with Federal officers, with the Senate overrun with Federal officers, with the Senate overrun with Federal officers, with the President and House against them, with the President manufactories of all kinds were at present. domestic institutions, not slavery alone, but upon all—their institutions, unmolested by the bayonets of the Administration on the one hand, and the onslaught of bands of foreign maranders on the other! This was the question, the whole question, the only question. No man felt more deeply in reference to Kansas than Mr Buchanan, No man talked more freely about it. In his Jetter of acceptance of the nomination and in his speech collect, too, that the time had not come, just talked more freely about it. In his letter of talked more freely about it. Now, fellow citizens, in that letter of acceptance, if you refer to it—it is, not necessary for me to produce it here—you will find that he stated distinctly that the people of the Territory of Kansas should be protected in the sacred right of suffrage, unawed by any influence whatever, and that the will of the

majority should prevail. Here is James Buchanan in the spring of 1857 inaugurated President, and pleged in his naugural to administer honest popular sover-

He looked round to see whom he should get to go to Kansas, for the purpose of settling the vexed question which had rendered Kansas, what it had been graphically termed, "the grave-yard of Govruors" - He sought no inferior man, he would not be tempted to take an ordinary man. He selected a gentleman, a statesman, who had neen presented by a large portion of the lead-He that the Africans found or Board the brig ing and prominent men of the South for a seat in his Cabinet; who had for twelve years re-presented his State in the Congressional Sen-ate and sat with Mr. Buchanan in the Cabinet ate and sat with Mr. Buchanan in the value of Colr-Polk. Mr. Walker as if inspired by a sublime suspi-cion, said: Mr. Buchanan I will not go to Kansas until you allow me to meet your Cabinet face to face, and ascertain from that Cabilieve the country. > M. E. CHURCH.—The Methodist Episcopal Church was opened on last Sabbath for worship, after having been closed for several weeks, for the purpose of having it cleaned and repaired. Those who remembe what it was last winter during the protracted meetings, must have been agreeably surprised at

the change. The beautiful papering of the church in imitation to fresco painting, is of such a character, as to deserve special notice and commendation. The pulpit has been changed, the galleries and pews painted a pure white, the aisles relaid with carpet, and gas introduced, rendering it altogether one of the neat-

est churches in the borough. Services commenced in the morning with a sermon from the Rev. R. L. Dashiell, of Baltimore city. In the afternoon, Rev. C. P. Wing, D. D., of the First Presbyterian Church. officiated; and in the evening, Rev. B. B. Hamlin, of Baltimore. The audiences were large; and the eloquent sermons of the feverend gentlemen were worthy of their high character as christian ministers. During the day above four hundred dollars were subscribed towards paying off the debt of the church:

The congregation and the unattached rolun teers, who frequent this church, because the pews are free, owe a debt of gratitude to the adies, who are always foremost in every good work, for having now a clean, comfortable and beautiful temple in which to worship, and we are quite sure the ladies will cancel the debt of gratitude, if those who use the church. will only contribute towards defraying the debt of money; which they have incurred in refitting it. With this object in view, a festival will commence in Education Hall, on the 22d inst., to which all are invited.

Town Improvements.—We noticed last week, the dispatch with which Inhoff's splendid new building had been erected; within a period of four weeks, the old house has been removed, and a new three story brick put up, which, in its proportions and finish is one of

the finest improvements in town. Henry Myers, carpenter whose reputation Mullin was the brick-layer and the brick were furnished by Wm.
