COMMONWEALTH OF PENN'A WIGHTAN F. PACKER,

GOVERNOR OF THE SAID COMMONWEALTH. ...

#### A PROCLAMATION.

FELLOW CITIZENS:-

The goodness of God to us as a people calls The goodness of God to us as a people caus for our public acknowledge enter and our grateful praise. The past and the present are crowded with His blessings Nothing has occurred to imperil the principles of civil and religious liberty upon which our Government is based or to interfere with its harmonious operations in all its departments. We are at peace with all foreign nations, and the noise of violence is unheard within our borders. While all enterthing the genial inall foreign nations, and the most of the is unheard within our borders. While all enjoy perfect freedom of opinion, the genial influences of our free, institutions, and the mild spirit of our holy religion, are more and more uniting us in one brotherhood. Our educational institutions are diffusing intelligence among the masses of our citizens, inducing a higher appreciation of their privileges, and a deeper sense of their obligations. Though in some localities the pestilence has prevailed our country at large has enjoyed unusual health, and we are blest with an abundance of all the necessaries, and the comforts of life. Our industrial pursuits are fast recovering from the torpor induced by the recent financial embarrassments; confidence is being restored, and business is assuming its wonted activity. Merèics crown all our relations in life, and the hopes of a glorious immortality activity. Merbies crown all our relations it life, and the hopes of a glorious immortality wait to cheer and bless every heart.

Prompted by my ewn convictions of duty, and in conformity with the express wishes of many of my fellow citizens, I, William F. Packer, Governor of the Commonwealth of Pennsylvania, Do hereby appoint Thursday the eighteenth day of November next, to be observed as a day of general. Thanksgiving and Prayer, and recommend to all our people that setting aside on that day all worldly pursuits, they assemble in their respective places of worship and unite in offering thanks to God for His goodness, imploring his gracious forgiveness, and the continuance of His mercies. And while our hearts throb with gratifuled to God for His, unnumbered blessings, let a liberal for His unnumbered blessings, let a liberal charity be extended to all upon whom have been laid the burdens of misfortune and want.

PENNSYLVANIA CONGRESSIONAL ELECTION. The official returns of the Congressional election in Pennsylvania, is a stern rebuke to the Lecompton policy of the Buchanan Administration by the people.

The aggregate vote in the State is, American Republican 190,243; Democratic 169,-198; Anti-Lecompton 20,163. This shows an American Republican majority proper over the Democrats of 31, 045; and adding the Anti-Lecompton vote, which is entirely right it makes the astounding majority of FIFTY-ONE THOUSAND, TWO HUNDRED AND

# THE ELECTIONS OF 1858.

Yesterday, the remaining important elections of 1858 took place, and by our next issue we shall be able to post our readers as to the general results, and see what effect the glorious example set by the Keystone State has had, in New York, Massachusetts, New Jersey, Michigan, Iowa, and Illinois In 1856, New York gave Fremont a majority of nearly 80,000, but in 1857, the Democrate elected their ticket by about 18,000, the Americans and Republicans being divided. At the present time, the Opposition are again divid ed, their being three tickets in the field, but the chances are in favor of the Republicans. The present delegation in Congress stands, 28 Republicans to 10 Democrats.

In Massachusetts, the election is for Gover nor, Members of Congress, &c., but Lecomptonism has nothing to hope for in the Bay State.

In New Jersey, the present delegation in Congress stands, three Republicans to two Democrats. We hope to gain one more on the Democrats, at this election.

Michigan, we believe, is all right. / We have everything there already, and it will depend on the united action of the Republicans to maintain their ascendency.

The long continued excitement of the canvass in Illinois, between Lincoln and Doughas has turned the attention of the people generally to that State, and the result will beanxiously looked for. A Western paper, speaking of the Illinois election, says:

There has been more bluffing and bullying about the result in that State than we have ever known in any election. Neither money nor wear and tear of conscience, hugs nor whisnor wear and tear of conscience, hugs nor whis-key, have been spared to secure the Judge's return to the Senate. The Administration has within the last two weeks called off its dogs of war, and is perhaps now disposed to sessist in his election. He has probably 10,000 votes in his favor on a legislative vote over what the State ticket will show. But in de-fiance of all these we believe he will be bea-ten We think his own exposition of popular severeignty is first cousin to that bastard bo gus of the National Administration, and must be thrown overboard. e thrown overboard.

We think the people of the State of Illinois will be mainly governed by what they regard as honest legitimate squatter sovereignty, and as honest legitimate squatter sovereighty, and Judge Douglas, having strangle I his own bantling, will have to share its untimely fate. Of the present nine members of Congress, the Republicans have only four. Some enthusiastic men claim a gain of three—this we scarcely expect. We hope, however, that the new delegates may stand six Republicans, two Douglasites, and one regular Administration.

Should the elections of yesterday result as we hope and expect, they will demonstrate beyond all doubt an opposition ascendancy in the next House of Representatives, and give us some light on the great sweepstakes for 1860.

LEGISLATIVE PROCEEDINGS. - Persons who wish to have full and accurate reports of the Legislation, during the coming session, should subscribe for the Daily Telegraph, which will he sent at one, dollar for the session, or four dollars per annum. The Telegraph will also contain telegraphic reports from Congress foreign and domestic news and the many other items which go to make a useful and interes ting daily.

THE FORTUNE TELLERS.

Mayor Tiemann, of New York, has rendered bimself famous as the enemy of humbug.on lottery policy dealers, and bogus jewelry to the fortune tellers, who have been doing a thriving business among the gullable portion of that community.

The duty was confided to Police Sergeants all disguised as countrymen, who visited sev-

Croft and squad paid his respects to Miss Snow, who keeps a magnificent place. — Her mother met him in the parlor, and inbe admitted to her daughtes's room, which was in the second story. She represented her daughter as the most gifted lady in the city. She had thought of raising her price to \$5. presence of Miss Snow, a very handsome young woman, who at the time had a curious machine with a bell attached on her lap. She took no notice of the Sergeant at first, being, as her mother said, in a clairvoyant hep preparatory to making a revelation. Croft had not time to wait till the lady would wake, and he said he would save her the trouble. He shook her, and she still continued to sleep un- done by the religious pioneers in planting and til he mentioned something about a warrant, training the Christian Churches." when she instantly came to her senses, and

Among others, Sergeant Croft visited a Mrs. Brewster, who used to keep a "marriage ofroutine was gone through with, the Madame, after telling officer Davis' fortune, was informed of their business, and immediately got ready to proceed to the Mryor's office. Madame Brewster was very candid after her arrest,

The Tribune says there are over fifty professional Astrologers and fortune tellers in N. York, and Mayor Tiemann intends to make a clean sweep of them. Those who are foolish enough to believe in "fortune telling," will doubless wonder why these people, who proclean sweep of them. Those who are foolish doubtless wonder why these people, who profess to foretell future events, did not even suspect that the police were in their houses!---

We find the following interesting letter on this subject from the venerable Judge Breckinridge to the-editor of the Pittsburg True

MR. EDITOR:-I have read with pleasure the programme of the proposed centennial celebration of the taking possession of Fort Duquesno. As a citizen of Pittsburg, it is natural for me to take an interest in this subject, and I would have attended the preliminary meetings if I had been aware of it, although residing at some distance from the-city. FORNEY ON THE TARIFF. Col. Forney has made another speech in Haskins' district, in which the following passage, on the subject of a Protective Tariff,

"I say here that so far as this question of protecting American Industry is concerned," (I speak as a member of the Democratic party) I am for it in all its length and broadth. have never been what is called a Free Trade man; I have always believed in specific duties; but when I see how the South adhere, how all their platforms and pledges and creeds tend to their own benefit, I am for this doctrine of protection, or any other doctrine that will help us here. The South comes to Washington with united delegations demanding her rights; the South can be in fayor of the inhuman traffic in slaves, notwithstanding our treaties with foreign powers prohibit such a traffic, yet they are never read out of the Democratic party are rever and out of the Democratic party. are never read out of the Democratic party.The Southwest can come to Washington with demands for Internal Improvements, and they are never read out. The letter was accompanied by the report of the Academy of Natural Sciences of Philadelphia on the subject. The matter was

My father, in the Pittsburg Gazette, of 1786, gave the first description of this place and of old Fort Duquesne, and in my "Views of Louisiana." and other works, I extended my remarks into the history of New France. It will give me pleasure to join the proposed celebration, and I hope that nothing will be omitted to render it imposing. Yet I cannot refrain from making one remark, which I hope will not be considered presumptuous or offen sive—it is this, that as every country has its own history, so should it have its own historian unless indeed it confess to a poverty in intel-

In another column will be found the prospectus of the New York Tribune for 1858-59. The Tribune, in all the essentials of a Newspaper, is without a rival in this country, and its large circulation attests the appreciation of the public in regard to it.

An important Ordinance in regard to the The advertisement of the Fair of the Good Will Hose Company, appears this week. It' is to be hoped that the citizens will respond to the call.

Wm. Tiller, Importer of Toys and Fancy Goods, is prepared, as usual, to furnish country dealers with articles in his line for the Holidays. For particulars, see advertisement Farrel. Herring & Co., Philadelphia, Manufacturers of the Patent Champion Safe, call attention to the testimonials they are receiving daily as to the reliable security offered by heir fire proof safes.

The Court, next week, will, no oubt, bring a large number of people to town rom all parts of the county; a favorable opportunity is therefore offered to those who are n arrears for subscription to the "Herald," if they cannot come to town themselves, to send their subscription money by their neighbors. Although the amount due by each subscriber is small, it foots up a considerable sum in the aggregate, and as we are averse to dunning, we hope this single notice will obviate any necessity for it.

Sworn In .- Major Robert McCartney was sworn in, and enters upon the duties of his office to day as High Sheriff of the county for the ensuing term. For years past, Major McCartney has been very useful to this community as a defective officer, often without dequate compensation, and we congratulate him that, as the people of this county have thought proper to send him to jail, for his valuable services, they have given him the privilege of carrying the key himself.

Mr. Coover is the patentee; and as this adnirable improvement needs only to be known to be extensively used, we hope some of our enterprising mechanics will secure the right for this county.

The value of the large and expensive works of writers on the various subjects treated in this little manual, is undisputed; but there are thousands of readers who cannot well af ford to buy them. To meet the wants of such is the purpose of this compact little volume of about 170 pages. It is just the thing-con cise in its descriptions, clear in its practical directions, thorough in its treatment, and reliable in its statements. The keeper of a horse a cow, a pig, a few sheep, or a flock of fowls, turkeys, geese or ducks, will find in it all that he needs, in language that he can understand, and furnished at a price that he can afford to pay. Even if he be interested in only one of the subjects treated—the horse, for instance -he cannot fail to get the worth of his money many times over; to say nothing of "Rarey's System of Horse Taming," which he will find complete and illustrated in the Appendix .-The chapter on poultry is particularly interesting. The whole work is handsomely got up and splendidly illustrated. "

INFLAMATION OF THE FYEE.—Like all other inflammation, is caused by impurity of the blood, which causes all Eruptive diseases, as Sait Rheum. Scarry, Bolls, Sarcy, Ulers, &c. The blood being unbiently, and of an impure nature, also occasions bropsies.—The blood becoming obstructed in the veins, the watery part of the blood in consequence is thrown out from their extremittee, and dropsy is the result. Many times it is occasioned by improper treatment of some former disease, and the vessels being filled by serious humors instead of blood. Free avacuations by these pills, 'pen the passage into the bladder and capy off the corrupted humors, and remow them with purit and healthy blood, which will drive out of the body all inflammation, together with cruptions of the skin, and all dropsteat complaints. They will be a shield to every form of disease to guard and keep you from the cold grasping hand of death, and cause life and strength to remain, and the countenance to brighten with the bloom of beauty and health.

PHILADSLIPHA.

Gentlemen.—The close attention which our own affairs have required since the fire, has hitherto prevented use from writing you alout the safe.

On occasion of the fire 19th July, by which we suffered a large loss, our store with a number of other buildings, was consumed. The Safe, of your manufacture, which we had in the store, was exposed to a most intense heat as is well altosted by the effects on itsestrong iron frame, which, from its flaked and scaly appearance, lock as though it had been heated for a long time in a furnace. The Safe, with heaps of molion glaza and kegs of nails, tust d into a mass, fell into the cellar, surrounded by burning materials, and there was suffered to remain (as the cont nits had/been removed before the fire reached use,) until the 2d of August, 14 days afterwards.

The difficulty in cutting it open with the best tools that could be procured, convinced us of its power to resist the attempts of burglars, and when it was opened we found the interior, to the astonishment of all, online of your Safes, that we would not part with the one e have in use for a large sum, were we docharred the privilege of getting another.
