WEDNESDAY JAN 5, 1859.

CONGRESSIONÁL. Although the Session previous to the adjournment for the holidays, was short, the results so far, have not been without importance. The old soldier's bill, has passed the House by a large majority, and its massage in the Senate, is confidently looked for.

. The confirmation by the Senate, of all the Naval nominations, restoring many gallant officers-to-active-service, who had been placed on the retined list; has given general satisfaction, and is another feature of the session. The Pacific Railroad bill, which is still pending in the Senate, will probably be brought to a conclusion, shortly after the reassembling

of Congress. . The question of most interest to the people now is, whether or not, Congress will at the present session, revise the Tariff. The prescht deficiency in the revenue, and depression of trade and manufactures, are strong arguments in favor of a return to specific duties, but as the democrats are committed against this policy, it is much to be feared that this measure, so vitally important to the interests

of Pennsylvania, mough it should pass the House will again be killed in the Senate. Not withstanding Locofoco opposition, a time will come when the people of Pennsylvania will force a hearing on that subject, Mr. Cameron has already presented one hundred and thirtygix memorials, all numerously signed by citizensiof nearly every county in the State of Pennsylvania, setting forth the amount of capital invested in the iron interest, and remonstrating against the large quantities of foreign iron thrown into this country at ruinous rates, well calculated to embarrass if not de troy American enterprise in that branch of industry, which the memorialists hold is an important source of national wealth, and that its downfall would not only be felt in Pennsylvania, but in all her sister States, and therefore they seriously and most carnestly

Mr. Crittenden, has presented a petition from George Washington Green, grandson of Gen. Nathaniel Green, setting forth that for ten years he has been collecting and arranging the official correspondence of his grand-father with a view to its publication. The correspondence consists of more than six thousand original letters furnishing important material for a history of the revolutionary war. He asks the aid of Government to bring out

In the Senate the Democrats have a majority of one. Mr Creswell of Blair county will probably be elected speaker, his opponent will be Scofield of Warren county,

The Harrisburg Telegraph says: the candidates for the different offices in the gift of the Legislature, are "too numerous to mention."

CUBA That portion of the President's Message. relative to Cuba, has created considerable excitement at Havana. The authorities of that city have addressed a memorial to the Quee of Spain, in which they denounce the idea of the purchase of Cuba by the United States, in

the following language: The shame of being sold cannot be supported by those who always appreciate their exis-tence as a part of a nation to which they have ever been assimilated by habit, religion, and customs, and which transmitted to them the customs, and which transmitted to them the beautiful language.of. Cervantes. The Govern-ment of Spain has not heard, and doubtless will not listen to an ignominous pretension which wounds its sense of decency; but, nev-ertheless, the first Municipality of the Island has believed it to be its duty to raise its voice to your Majesty, on seeing written this insult to humanity and the illustrated age in which we live-an insult in which, with a col con-tumely, and a total forgetfulness of all the admitted and recognized principles of interna-tional relations, the only desire is to satisfy the speculative aspirations and the interested views of a country, by bringing to shame a nunctitious Government and a people who see in the color of their flag a long review of glo-ries, an eternal remembrance of greatness and

The Memorial has been signed by a large number of the residents of the city, and is, no doubt, the general and perhaps unanimous expression of the feeling of the entire population of the Island.

A NEW PAPER .- We have received the first number of the Pennsylvania Sentinel, a new paper just established in Harrisburg, by Chas. D. Hineline, who, in a lengthy and well written salutatory, takes ground in favor of home protection, popular sovereignty, Stephen A

Douglas, and our S.ate Administration. The paper is handsomely got up, and the editorial matter displays considerable ability. We wish it success.

A PATRIOTIC ACT -We are as willing to give South Carolina credit for her good deeds as we are to accord the same justice to any other State; and it is with pleasure that we record the fact, that in the Senate of that State a bill has passed, making an appropriation for the erection of the National Monument to the Signers of the Declaration of American Independence, in Independence Square, Philndelphiá.
