CONGRESSIONAL.

In the U.S. Senate a joint resolution has been adopted, appointing Commodore Stewart senior flag officer. A joint resolution has also been passed, to permit Townsend Harris, consul General of Japan, and his intespreter, each onecept-a-gold-smill-bes-from-the-three-of -England-The-Pacific-Railroad-bill-was under discussion and was farther amended by Senator Bigler, granting alternate sections of twenty miles of land on each side of the road to contractors, not to be given until one section of twenty-five miles of road he built, and onefourth the whole amount of land to be reserved as security for the completion of the middle di vision of the road. Also \$12,500 in United States honds to be issued to the contractor for each mile completed and in operation, provided the entire amount of bonds shall not exceed \$16,000,000

A petition has been presented by Senator Wilson, from the Society of the Cincinnati of Massachusetls, asking for settlement of the "claims for half pay for life promised by the act of October, 1783, to the Continental army. The petitioners do not ask this as a matter of bounty or pension, but that Congress redeem its plighted faith.

In the House on Monday, the death of Thom as L. Harris was announced, and the usual proceedings took place.

The Committee on Public Lands reported a bill confining the aggregate compensation of Registers and 'Receivers of Land Offices to \$25,010 per annum, and it was passed. Another bill was reported and passed, to revise and continue in force without restriction or limitation of time, the bounty land acts of 1835, 1842, and 1852 Bills were also passed providing for the repayment of the purchase money for lands erroneously sold, and appropriating \$5000 to establish the western boundary of Minnesota.

The consular and diplomatic appropriation bills were before the House, in committee of the whole. Mr. Keitt made a speech in favor of seizing

Cuba. The House struck out the item for a salary of a Minister to Persia. An amendment

offered by Mr. Lovejoy of Illinois, to strike out the item for salaries of ministers and commissioners, only failed by twelve majority. An amendment striking out the salary of the Minister to Rome was carried, as also one striking out the item for a Minister to Switzer-

land. The pending bill was then laid aside, and the House then took a recess until evening, when a session was held for general debate on the President's message. On Thursday the 20th inst. the House was

opened-with-proyer,-for the first time, by a Catholic Priest in full dress. The United States Senate-was not in session on Saturday, having on Friday adjourned over until Monday. In the House the proceedings were again opened with prayer by a Roman Catholic Priest, in full vestments. Mr. E. - Joy Morris presented the tariff resolutions of the Legislature of Pennsylvania. Messrs. Garrett, of Virginia; and Jones, of Tennesse tried to prevent their being read, but Col. Florence, of Pennsylvania; Mr. Stephens of "Georgia, and Mr. Barksdale, of Mississippi, succeeded in calming the opponents, and the reading proceeded; after which they were or

Add to these the amendment of the Tariff, and the many minor questions yet to be

disposed of, and we must come to the conclusion, that unless the members work more, and talk less, many of these measures, will be consigned to the care of the next Congress.

The present session gives to members thousand-dollars, a month, besides mileage and perquisites. Deducting the Sundays and holidays, the present "short session will allow about 60 working days, for by constitutional unirement, it must close on the third of March next, which will give to each member. nearly fifty dollars per day for every day employed, exclusive of mileage.

A GLIMPSE AT FOREIGN AFFAIRS. The details of foreign news-brought by the

Europa, gives rather a warlike aspect to the affairs of Europe. The London Times is somewhat excited in regard to Mexico, under an impression that the present policy of our Goverhment, is to absorb the provinces of Chiluahua and Sonora, in satisfaction of certain claims against the country, and seems to fear, that-if-Mexico-is-to-be-sold out under-excen

tion, there will not be assets sufficient to pay European creditors. Ribbonism in Ireland, under the name of the

Phœnix Club, is becoming a source of disquietude to the British Government, and they are taking prompt measures to suppress it. Combinations of this order, have been discovered in Cork, Belfast, Kilkenny and other owns, and tears are entertained that similar rganizations exist in every county in Ireland. The authorities are busy making arrests. In France, or rather in Paris, for Paris i France, great agitation exists in consequence of a remark made at a levee by Napoleon the Little, a la Napolgon le Grand, to the Austrian Minister, and the impression gains ground hat Europe is on the eve of a general war. Italy is in a ferment, and if an insurrection should take place, it is supposed that the Emperor of France may interferg and thus secure |

he independence of Italy from the domination of Austria. Austria is sending large reinorcements into Lombardy, and the Austrian Journals boast that she is strong enough in Italy to meet any eventuality.

Whereas, The experience of the past and whereas, the experience of the past and present most fully demonstrate that it is a wise and benificent policy of the general gov-ernment, which dictates the imposition of du-ties on such products of foreign nations as come in such direct contact with those of our country, as to inferfere and prostrate the trade of our own soil and among our own effitrade of our own soil and among our own citi-
