CAUTION.

Merchants and Traders will be an their guard and not be imposed upon by a counterfect of Morse's Indian Root Pills, signed A. B. Moore. All genuine Indian Root Pills have the name and signature of A. J. White 4 Co. on each box.

DR. MORISE, the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater part of his life in traveling, having visited Europe, Asia and Africa, as well as North America—has spent three years among the Indians of our Western country—it was in his way, that the Indian Root Pills were first discovered. Dr Morse was the first man to catablish the fact that all discases arise form 131PURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

that the Indian Root Pills were first discovered. Dr Morse was the first man to establish the fact that all disc-aces arise from 1MPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased: thus causing all pains, sick ness and distress of every nance; our strongth is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagmant humors, the blood will become cheked and cease to act, and thus our light of life will forever be bown out. How important bloot that, we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Fills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sadorife, which opens the percs of the skiu, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that obens and uncloss the passage to the lungs, and thus, in a soothing manner, perform its duty by throwing off phlegus, and other humors from lungs by copious spitting. The third is a Diurelic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which control is activating and they in a continuity of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root. Pills not only enter the stomach, but become united with-the blood, which shoot, have been adventually sickness and paln is driven from the system, for th

your days.
