The under-kyned, having been appointed the Askay for the above Company, for Cumberland county, would call attention to the neculiar advantages of the Murnat Life Insurance which gives it a decided preference over any other mode adopted. There being no stockholders, the profits are divided among the policy helders, and appropriated to reducing the annual payments, thus making each one interested, equally with the Trustees, in adding to the business of the company. The premium may be paid quarterly, sum apuually, or annually, so that persons of limited means can insure for a greater amount, than they could where the whole premium is required to be paid cash.
