We refer to Dr. Chas. M'Lanc's Celebrated Vermisuge and Liver Pills. We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE, For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS, For the cure of LIVER COMPLAINTS, all Bilious Derangements, Sick HEAD-ACHE, &c. In cases of

FEVER AND AGUE, preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure,

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors, FLEMING BROTHERS.

PITTSBURGH, PA. to dispose of their Drug business, in which they have been sticcessfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. This is a question of vital importance, and one which has never been satisfactorily disposed of by the professors who teach the healing art. There is an exil hald sometimes indulged in by boys, in solitude, often growing up with them to muchhout and which, if not referrined in due time, not only begets sorlous obstacles to matripondal happiness, but glyes rise to a series of protracted, insiduous and devastating sifections. rise to a series of protracted, inclinuous and devastating affections.

Few of those who give way to this pernicious practice are awne of the consequencers until they find the nervous system shattered, feel strange and unseccountable senset ones, and vague fewer of the mind. (See pages 27, 28, 20, of Dr K's book on "Sell-Preservation.")

The unfortunate thus affected becomes feelled, is unable to labor with accustomed vigor, or to apply his mind to study; his step is trudy and weak; he is o'this irresolute, and engages even in his sports with less energy than usual.

If he emanchigate himself before the practice has done its worst, and enter matrimony, his marriage is unfruittul, and his sense tells him that this is caused by his qualty follies.

These are considerations which should—awaken the attention of all who are similarly situated.
