PEOPLE'S STATE TICKET.

FOR AUDITOR GENERAL. THOMAS E. COCHRAN, of York County.

Gen. WILLIAM H. KEIM,

FOR SURVEYOR GENERAL.

of Berks County.

THE PEOPLE'SSTATE CONVENTION. We publish to day the full proceedings of the People's State Convention, held at Harrisburg on Wednesday the 8th inst. It was an assemblage of intelligent gentlemen from every county and district of the State, and the result of their deliberations, is the unmistakeable reflex of the great party in Pennsylvania. opposed to the so-called Democratic party, now wielding the power and patronage of the

General Government. The candidate for Auditor General, Thomas E. Cochnan, Esq., of York county, is well known throughout the State, as a man whose political career has been marked by a consistent opposition to locofoco principles; his services in the cause of the people have been able and earnest, worthy of their highest confidence, and descrying of their warmest sup-port. His record as State Senator, is without a blot, and as Auditor General, he will not disappoint the expectations of his friends.

The candidate for Surveyor General, GEN. WM. H. KIEM, of Berks county, is a specimen of the gallant Whigs of gold Berks" who, in the face of an overwhelming force, kept up their organization for years, battling against the democrats with as much zeal and determination, as if the issue was doubtful. The Reading Journal speaking of him says:

"His popularify in Berks has been proved on numerous occasions. When J. Glancy Jones first run for Gongress in this district, Gen. Keim came within 500 votes of an election, although the usual majority was between four and five thousand. As is well known be was elected to Congress at the special election last fall, by a majority of some 500 votes. He served in the last Congress, and distinguished himself by, his able Tariff Speech, and his devotion to the interests of his constituents."

The proceedings of the Convention were not only harmonious, but enthusiastic, and we hail the nomination of the ticket, as a harbinger of success for the party at the fall elections.

The resolutions adopted by the Convention are so plain and practical, that no man can mistake their meaning. They contain propositions to which no true friend of Pennsylvania can take exceptions—a platform on which all can find a foothold, except the servile tool of power, who

"Crooks the pregnant hinges of the knee That thrift may follow fawning."

Laying aside all impracticable questions and cutside issues, they take the broad ground of opposition to slavery in the Territories, and opposition to a revival of the African slave trade. —They are in favor of a protective tariff, of a reform in our National expenditures, and the purity of the ballot-box. These are the principles on which we are prepared to go into the campaign, and in their vindication we hope to see the PEOPLE of the old Keystone, roll up a mojority of thousands in favor of the candidates at the head of our ticket.

THE CENTRAL BANK OF PENNSYLVANIA AT Hollidaysburg -Some weeks ago we cautioned the public against taking the notes of the Central Bank ; and the caution seems not to have been ill-timed, as the bank closed a good deal of this money, mysteriously found its way into this county, and that in one case, a gentleman of Carlisle was offered a thousand dollars of it at four months, without interest, and refused it. When a bank resorts to such extraordinary means to get their paper into circulation there must be something rotten in Denmark." It is due to the officers of both our banks here, to say that they repudiated the paper at once, and advised their customers to avoid it, as far as

This College was first opened for the reception of students, in October 1856 and was created a College proper, by the Legislature of Pennsylvania, in 1857. Its position offers unusual advantages in healthfulpers of climate, case of access, and freedom from all injurious associations while the course of study, embraces all the branches of a therough and accomplished education. THE WHEAT CROP. - During the past few weeks, much anxiety has been felt in re gard to the wheat crop; it is now so far forward, as to let all rest content in the assurance of at least, an average crop. In some of the South-western States, the wheat harvest is already over, and by the last of the present month four-fifths of the crop, throughout the coun try, will be safely housed.
