PEOPLE'S STATE TICKET.

FOR AUDITOR GENERAL. THOMAS E. COCHRAN, of York County.

FOR SURVEYOR GENERAL. Gen. WILLIAM H. KEIM, of Berks County.

The following article from the North American we commend to the careful consider stion of all those opposed to the present Democratic Administration of affairs. It presents their duty in allight which cannot be mistaken, and shows the importance of unity of action, if they ever hope to enjoy the fruits

THE OPPOSITION UNITED. The great question with a very large ma-jerity of the citizens of the whole country is to decide in what manner unity of action can be secured in putting a better administration in power. On several points that still bear with force against our prosperity and our peace, there can be no reform until the entire pefte, there can be no reform until the entire set of administering officers is replaced by a better, and by those who will put sounder doctrines into the practical government of the country. It is often said that no general union of the Opposition is possible, but how is it impossible if people will vote for one ticket who agree in all essentials? Fourfiths of all the responsible men who vote in the northern States heartly opposed the policy which the present Administration put in practice the instant it came into power, and though some did not anticipate the adoption though some did not anticipate the adoption of such a course on the part of the fair prom-sing. Buchanan, and therefore aided his elec-tion, none doubted that it was a duty to resist

tion, none doubted that it was a duty to resist and disavow almost every act which the President has since attempted... Now we wish this overwhelming body of the Opposition to act together, and to remain together until a better adaptistration is placed in power.

The Convention of the People's Party at Harrisburg has not made a platform: it has merely recognized that which was made for it, and for everybody. There must be a concerted effort to establish the doctrine that the neonle shall not be trampled on by an Excuspeople shall not be trampled on by an Execu-tive for any such purpose as was undertaken in Kansas; and the general stain of slavery propagandism must be checked. Just now the pressume is upon the point of a slave code the pressure is upon the point of a slave cod for the territories, and the Charleston nomi-nee will be forced to bear this banner, who ever he may be. Union on the point of resistance to this doctrine will be compulsory at Washington before the next Congress closes, and we will do well to note the neces sity in time. The slave trade will come up also, and though the south will divide on it, there is a prospect of much painful and protracted trouble with the practical aspects of the case. On these points the discouráging condition of things at the south fills every reasonable man with regret. We foresee a consoleration sonable man with regret. We foresee a con troversy in which we can yield nothing, and which yet has scarcely a redeeming feature,

The strongest article of our faith is the encouragement of domestic prosperity, and through this the improvement of the whole country, and the advancement of commerc equally with every other interest. The in-cumbents of power carefor nothing but such success as fills the treasury at the moment. If bankruptey were to ensue six months hence, they neither could or would foresee it, or guard against it. They live from hand to feast, they take no thought for the day fol-lowing. This blundering style of financial management keeps us at the mercy of every temporary revulsion in business, and of every casual change in the markets. We are comfortable one day, and in desperate straits the next, and whether we go to absolute ruin or not is a question of chance—as people will sometimes live on in fifful health for many years after an accurate diagnosis of their case has demonstrated that they must die very

These preliminary discussions of a basis of harmony may prepare us for the united action in 1860, which every man now expects, if the sharper angles of differing opinion can be smoothed a little. These sharp points concern men rather than measures, however and time is favorable to the necessary subor-dination of personal feeling to general feeling and above all, to the great overruling neces sity which will be disclosed before the can rass of 1860 begins. -

OUR CANDIDATE FOR AUDITOR GENERAL -Thomas E. Cochran, Esq., recently nomi nated by the People's State Convention, for the office of Auditor General, and one of the editors of the Lancaster Union, thus speaks in regard to his own nomination.

Respecting the candidate nominated for Auditor General, it does not become us to speak. We can only tender to the gentlemen who composed the Convention our mos grateful acknowledgements for this expression of their confidence, and our most earn est hope that we may be enabled to justify their choice by a faithful and competent discharge of the official duties which will ensue on the ratification of their nominatio by the people. The office of Auditor General is one which involves very grave responsibilities, and important interests of the pec ple are confined to the charge of its incumbent. He is clothed with large discretion and is called on to settle all the accounts a the Commonwealth, and to investigate the claims made upon its Treasury. There are matters which draw heavily upon the integrity, capacity and industry of the officer, and a candidate may well, tremble lest he should not prove "sufficient for these things"-Strong only in the trust reposed by the con vention, we shall encounter the consequen duties, if the people of the State call their discharge, with an anxious effort so to discharge them that neither shall our political friends be convicted of having erred in their choice, nor the interests of the Conmonwealth suffer detriment in our hands.

... DISTRESSING CALAMITY .- Last -wook, two little girls, in Baltimore, while returning home from school, walking on the Railroad track behind a freight train were run ever by a similar train, which came on then unobserved before they could get out of the way. A large crowd of people gathered about the spot immediately, and Henry Widgen, the father of the youngest girl came up, and rec ognizing his child, caught up her mangled body and carried it in his arms to his home, No. 889, Cross street. The child ceased to live before he got there. Her body was nearly cut in two across the abdomen, so that her in testines were forced out. The other little girl is a daughter of John Breinig, No. 199 Lee street. Although seriously hurt, her injuries ere not of such a nature as to cause death. 'As far as is yet ascertained, her left leg was soverely cut, and her right thigh bruised, if the bones are not crushed.

At the time she was hurt she was generous ly endeavoring to save her schoolmate from

FREAK OF THE ELEMENTS .- The residence of our former townsman, Capt. Geo., Gibson at the Frankford Arsenal, near Philadelphia was recently struck by lightening. A Philadelphia paper says:

The house in question is situated within the Arsenal enclosure. It was simultaneously struck in two places, by a bolt that came down from the clouds like a colossal tuning fork at a white heat. One prong of the bolt struck the western chimney, hurling a single brick into the garden beneath; the other passed di-rectly through the roof six feet distant from the chimney, tearing up lath and scattering the shingles like so many onion skins. The hole cut by it is two feet wide. Both charges passed down into the kitchen, which it filled with smoke highly charged with sulphur. A domestic was in the kitchen at the time, yet, strange to say, was not injured. Captain Gibson was in bed at the time, and though the son was in bee at the time, and though the fluid passed very, near to him, he received no injury. Though the house was unprotected by lightning rods, it is still singular that the lightning should have left unharmed the arsenal building, containing enough old muskets to arm a couple of regiments.

and carried into Maryland. The family consisted of a man named Butler, his wife, and a little girl, eight or nine years of age; they had lived there for about a year, and Butler was employed as a laborer, on the farm, by Mr. John Morrison. A warrant was placed in the hands of Sheriff M'Cartney, who immediately proceeded to the residence of Buter, near Weakley's Saw Mill, and found the house entirely deserted, and several articles strewn about, as if the family had been removed in great haste. Suspicion pointed to german living in that neighborhood, named Valentine Gass, as one of the parties implicated, and he was therefore arrested, by the

Sheriff, and committed to prison. The Sheriff, in company with Mr. Morrison ext started in pursuit of a man named Emanuel Myers, who seemed to be the prime agent in the affair. Myers resides about 12 niles from Gettysburg, just over the Maryland line. As the Sheriff had no authority to arrest Myers in Maryland, he had to resort to stratagem; and in connection with the stage driver, who pretended he had a letter his entire stock of goods at cost, any body for him, and could not hold up his horses in now who wishes to "buy himself rich," can time, Myers was tempted to follow the stage for about a hundred yards across the State line, when he was promptly arrested by the Sheriff, assisted by Morrison, who had emained behind in the buggy, and brought to Carlisle, where he was committed to pris-

on, is to the following effect. The negro man and his wife were the property of a lady of Frederick county, Maryland, named Elizabeth Warfield, who set them free, previons to her death; but as they were not fegulary manumitted, according to the laws of Maryland, they were afterward sold into servitude for a term of years, by the Executor, under an order of the Court. The woman was permitted by her master, to buy her time, and had removed to Pipe Creek, Carroll county, near McKinstry's Mill, where she maintained herself by selling cakes .-The time of the husband was bought by a man named Hoffman, in that neighborhood, so that he might be near his wife. From some intimations given her, the mother became alarmed, lest her child should be claimed by the estate and sold as a slave until 28 years of age. To avoid this she determined to escape into Pennsylvania, and solicited her husband, who had still 2 years. to serve, to accompany her; he declined at first, but finally consented, and they all cloped, about a year ago, and found a home in this county. At the time of their escape, Myers, who appears to be a sort of agent for the recovery of fugitive slaves, followed them, and endeavored to get legal authority at Gettysburg to arrest them; but, failing in this he returned llome.

Some three or four weeks ago, he started. consulted an Attorney, at Carlisle, on the subject, but as he got no encouragement to proceed legally, he determined to take them without authority of law, and carry them by force to Marvland. He succeeded in this and lodged them in jail, at Frederick, Maryland, in his own name, where they still remain.

On the same eventing a fatel accident occurred on the up-passenger train from Philadel, phia opposite Conshohocken. As the train was passing that print at a pretty good speed one of the wheels of the Express and Mail carburst assunder, and the fragments were rolled around under the car, making a great noise, but without producing any serious results.—The passengers and employees were very much alarmed by the fearful jolting, and several were with difficulty prevented from jumping off. One of the employees of the Road, Mr. Henry Kulp, assistant repairer of the Telegraph wires, became alarmed among the rest, and very imprudoutly jumped off, while the train was going at the rate of about 25 miles an hour. The momentum was so great that he was precipitated head-foremost to the ground, his head striking the sills of the road so violently as to dash out his brains causing, of course, instant death.

BANK ROBHED.—On Tuesday, morning the most accomplished feat of burglary was perpetrated in this city ever known in the Western country. The Platte Valley Bank, was robbed of about \$3,000, mostly in gold and silver. The robber or robbers, between the hours of one and four in the morning, entered the private dwelling of N. S. Harding Esq.; cashier of the bank, entered his sleeping your took the keys of the bank, the vault, the safe, went back to the bank, took about \$3,000, locked the safe, yault, bank, and returned the keys, placing them on the door step of Mr. Harding's house. A reward of \$250 is offer-ed for the apprehension of the robber or rob-

We know of no invention of modern times that deserves or is destined to occupy a higher niche in the temple of fame, than the discovery or invention of the Vegetable or Epileptic Pills. for curing Epilepse, or Falling Fits, Spasma Cramps, and all the various modifications of nervous disease. Dr. Seth B. Hance, of 108 Baltimors St., Baltimore, Md. the inventor, is certainly entitled to the best wishes of all the Lonewolent portion of mankind, who experience a pleasure by the alleviation of human suffering When Dr. Hance first prepared these Pills, he intended them solely for Fits, Cramps and Spasama; but subsequent experience satisfactorily proved to him, that in addition to their remarkable sanative properties in this class of diseases, they exerted a perfect control over the entire nervous system—He was then induced to try them in cases of Neuralgia. The holoroux, Nervous Headache, Palpitation of the Heart, incipient Paralysis, Hysteria, Muscular Debility and a best of other diseases, springing from a lack of nervous energy, in all of which his anticipations were recowned with the most sangular success: Persons at a distance, by writing, and sending a remittance to Dr. Hance, can have the medicine forwarded to the proteorers for a single box, 35, two boxes, 55, or \$24 per dozen. We have given his address above. MODERN INVENTIONS.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some reme dy adapted to every disease which "firsh is heir to."— But it requires the investigation and research of the philosopher to discover this remedy. Such rescurch and investigation has succeeded in discovering a remedy for

FARREL, HERRING & CO.'8 Patent Champion Saic.

Late Fire at Dubuque, Iowa

DUBUQUE, Jan. 7, 1859. Gents: I am requested by Mr. T. A. C. Cochrane, of this place, to say to you that on the morning of the 4th instant, about 3 o'clock, his store took fire, and the entire stock of goods was destroyed. The heat became, so suddenly intense that none of the goods could possibly be saved; but fortunately his books and papers which were in one of your Champion Safes, were all preserved perfectly. And well they may be called Champlon, for during the whole conflagration there was one incessant pouring of fame directly upon the safe which contained them. And still, upon opening I, the inside was found to be scarcely warm, while the outside was most severely scorched. Yours truly,

N. A. McCLURE.

DALLEY'S MAGICAL PAIN EXTRACTOR.—In al diseases inflammation more or less predominates—now to alley inflammation strikes at the root of disease—hence and immediate cure. Dalley's Magical Pain Extractor, and nothing elso, will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR will cure the following among a creat catalogue of diseases:

once, and make a certain cure.

DALLEYS MAGICAL PAIN EXTRACTOR will cure the following among a great catalogue of diseases: Burns, Scalds, Cuis. Chafes, Sore Nipples, Cornia, Tunions. Bruises, Strains, Bites, Poison, Chilbiains, Biles, Scrofula, Ulcark, Fever Sore, Feloius, Ear-ache, Piles, Scrofula, Ulcark, Fever Sore, Seloius, Ear-ache, Piles, Sore Kyes, Gout, Swellings, Rheumatism, Scald Head, Sait Hiseum, Baldness, Eryspielas, Hingworm, Barbers Itch, Small Pox, Measles, Rash, &c., &c.

To some it may appear hicredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredinents, each and every one apilying a perfect antidote to its opposite disorder. Dalleys Magical Pain Extractor in its effects is magical, because the time is short between disease and a permianent cure; and it is an extractor, as it draws all disease out of the affected part, having nature as perfect as before the injury. It is scarcely necessary to say that no house, work shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacture.

For sale by all the Druggists and patent medicine dealers throughout the United States and Canadas.
