CERTIFICATES. RAPHO-TWF., LANCASTER CO., PA., April, 1850. 6 MESSINE. MARKIN BIOS.: The Reaping and Mowing Ma-chine I purchased from you last harvest, I am perfectly satisfied with, and can cheerfully recommended it to the use of my neighboring Farmers, as being the most prac-tical machine that has over come under my notice. I think I am well acquisited with nearly all the Reaping and Mowing machines now in use. The ease with which one can adjust the Platform to cut any desirable. height, while the machine is in operation, cannot fail to meet the approbation of the farming public. I an much pleased with the manor in which it performs its work. It acts with great dispatch, and is invaluable for cutting lodged Grain and Grass. I feel satisfied that I can cut from 10 to 12 acres of Grass or Grain per, day with your machine, where the drain or Grass may be so badly lodged as to render difficult to cut by any other process. I have great confidence in its durability and usfulness as heing a labor saving machine, and take pleasure in resonmending it to the consideration of my neighboring farmers; several of whom, came to see its operation in my field, and all concur with me in the above recommendation. Yours, &c., SAM. BRUBAKER. MESSNS. MABIN ENDER: Haying used one of your Reap-ter and the intermediate is a baring in the discust one of your Reap-ter and the intermediate is the interval.
