PEOPLE'S STATE TICKET.

FOR AUDITOR GENERAL. THOMAS E. COCHRAN, of York County.

FOR SURVEYOR-GENERAL. Gen. WILLIAM H. KEIM. of Berks County.

The friends of Judge Douglas in the city of Washington are in possession of the following letter, explaining his position on the subject of the presidency, and of which they have permitted a copy to be taken for publication: Washington, June 22, 1859.

"My Dear Sir: I have received gour letter inquiring whether my friends are at liberty to present my name to the Charleston convention for the presidential nomination. Before this question can be finally determined it will be necessary to understand distinctly upon es the canvass is to be conducted. If, se I have full faith they will, the demo-eratic party shall determine in the presiden-tial election of 1860 to adhere to the principles embodied in the compromise measures of 1850, and ratified by the people in the Presidential election of 1852; and reaffirmed in the Kansas and Nebraska act of 1864; and incorporated into the Cincinnati platform of 1866; as expounded by Mr. Buchanan, in his letter accepting the nomination, and approved by the people in his election, in that event my friends will be at liberty to present my name to the convention, if they see proper to do so; the on the contrary, it shall become the policy of the democratic party, which I cannot anticipate, to repudiate these time-honored principles, on which we have achieved as meany patriotic triumphs, and in lieu of in the Kansas and Nebrasks act of 1854; and ed so many patriotic triumphs, and in lieu of them the convention shall interpolate into the creed of the party such new issues as the revival of the African slave trade, or a conssional slave code for the Territories; gressional slave code for the Territories; or the doctrine that the constitution of the United States either establishes or prohibits slavery in the Territories, beyond the power of the people legally to control it, as other property—it is due to candor to say, that in such an event, I could not accept the nomination if tendered to me. Trusting that this property will be depend sufficiently explaint. answer will be deemed sufficiently explicit, I am very respectfully, your friend, [Signed] S. A. Douglas.

[Signed] S. A. Dot J.B. Door. Esq., Dubuque, Iowa. The Constitution, at Washington, the organ of the Administration, reviews Judge Douglas' letter at length, and regards it as a declaration of his purpose to oppose the nomihee of the Charleston convention. Υ.

Proscription of Foreigners. Our democratic friends have made so much ado about the new provision in the Constitution of Massachusetts, requiring naturalized citizens hereafter to reside in the State two years, before they shall be entitled to vote, that it may be well to inquire what their record is on that subject.

At the same time, we do not wish to be understood as in favor of that provision; we consider it-unjust toward foreign born residents, and uncalled for by any exigency of the times; but we protest against the American Republican party of Pennsylvania, being held responsible for the acts of the citizens of another State, unless the "rule works both ways." The Wa hington Reporter speaking on this

subject says : 🐃 The Democrats seem to forget that the State of South Carolina—a State that never swerver in its devotion to the Democratic cause—three years ago adopted a law in reference to naturalization, precisely similar. Indeed, if we are not mistaken, the Massachusetts amendment is almost a literal copy of the South Carolina

enactment.

But this is not the only case that should shut
the mouths of democrats in regard to proscription Not many years ago, a Convention was
chosen in New Hampshire to revise and amend the Constitution of that State. The Democracy had control of that body by a decl jority, and although a strong memorial came in from all parts of the State, asking that the clauses which denied the right of suffrage to Catholics should be stricken out-although the Whig members exerted themselves to have the restriction removed, the Democratic majority voted to retain it, and to deny to every Catholic, either native or foreign born; the right of voting in the State of New Hampshire. Here was proscription, not only on account of birth-place, but on account of religious belief, and that two by the very party that now cries out against the Massachusetts amendment. So far then as State legislation in regard to for eigners is concerned the Republicans and

Democrats may at least play quits.

But let us see what sor! of a record our Democratic friends have upon this question in a national point of view. Who does not remember the action of the Democratic majority in the United States Senate, in the case of the Act authorizing the people of Minnesota to form a State constitution, preparatory to ad-mission into the Union! In that instance, two thirds of the Democratic members voted to deprive persons of foreign birth, then resident in Minnesota, of the right of suffrage, which, under previous acts of Congress and the Territorial Legislature, they had already enjoyed. This is certainly a greater outrage upon the rights of foreigners than the Massa-chusetts enactment, for it in no way interferes with the rights of suffrage enjoyed by those now resident in the State, but only prosori-bes a new rule for those coming hereafter; whereas, the attempt of a Democratic United States Senate was to rob foreign residents o Minnesota of a right already vested. With this record staring our Democratic friends in the face, we think it hardly becomes them to make complaint against the Republicans party of the nation because of the action of the State of Massachusetts...

SUPPING ON HORRORS.—The details brought by recent arrivals, of the sanguinary battle of Magenta, must be sufficiently horrible to satisfy the most tragic disposition. The number of the combatants, and the slaughter on both sides, make it the most important battle

fought in Europe, since the days of Napoleon I. As might be expected the Austrians refuse to acknowledge themselves beaten, and some of the English papers endeavor to make it appear, that the French met a reverse. But the march of the French eagles is onward, and unless the war should be stopped by British diplomacy, Austria rule in Italy, will soon be among the "things that were." Austria, single handed, never has been, and probably never will be equal to the French.

SLAVERY IN A NUTSHELL .- Francis Nutshel, the porter on board the steamer Marion, was arrested at Charleston on Wednesdy, 22 inst. just before the departure of the vessel for New York. He had attempted to abduct a slave, who was found hidden in Nutshel's room.

THE ZQUAVES.

In the late war in the Crimes, and the present war in Italy, frequent mention is made of that portion of the French troops, known as Zouaves, for their irresistable daring and galantry. The following description of them, by Capt: Geo. B. McClellan, late of the U. S.

The character of the gentlemen whose names are attached to these applications afford a sufficient guarantee of their ability to conduct an institution of this kind with profit to the stockholders, and advantage to the community, and as the minds of the people are now roused to the importance of this subject, let them press it on the attention of the next Legislature, with such force and influence, as will secure an object so justly due to the position and population of the county, and so necessary to meet the rapid increase of her business relations.
