ESENWEIN, Dispensing Chemist,

chine J parchased from you last harvest, I am perfectly attacked with, and can cheerfally recommend it to the use of my neighboring farmers, as being the incot prac-tical nucchine that has ever come under my notice. I think I am well acquainted with nearly all the Hosping and Mowing machines any in use. The case with which one can adjust the Hafform to cut any desirable height, while the nuclinu is in operation, cannot fail to meet the approximation of the farming public. I am nucc plassed with the manner in which it performs its work. It acts with great dispatch, and is invaluable for cutting lodged Orain and Grass. I feel satisfied that I can cut from 10 to 12 acress of Grass or Grass on that can cut from 10 to 12 acress and mean or display be so badly lodged as to render difficult to cut by any "phior process. I have great comidented is durability find usefulness as being a labor saving machine, and take pleasure in recommending it to the consideration of my neighboring farmers, zervai of whom esmo to soo its operation in my field, and all concur with me in the above ecommendation. Yours, &c., SAM. BRUBAKER. MESSNE. MARSN BROS : Having used one of your Reap-In the above recommendation. Yours, &c.,
 SAM. BRUBAKER.
 Mzssns. Marsh Bnos: I laving used one of your Reap-ing and Mowing unchines last harvest in taking off my harvest, it affords me pleasure in recommending its general uses to the farming community. I can cut 10 or 12 acres per day with eace, and ueliker injure man nor beast. It does its work admirably, while its aim-pleity cannot be excelled in adjusting the Platform to any desirable height. I am asilised that its must be durable, as I have taken of one large harvest, both in grain and grass, and above cloversed, and, as yet, the machine is but ve y little worn. A thorefore take great pleasure in coord and more in the second means the second means of the second second means and the second means of the second second means the second means durable, as I have taken of one large harvest, both in grain and grass, and above cloversed, and, as yet, the machine is but ve y little worn. A thorefore take great pleasure in coord and may describe the second means predicated the induced on the second means the second means the second means of the second means the second predicated my expectations. I cut all my grain and grass with said machine work when badly down, septecially the grain and made more good work the same time, than could be done with the same mount of labor in any other wy. I can do more work with the same money, with more cases, and ab better work, as heling a good, durable and practicable labor saving machine. Yours truly, 'JUSEPH SAUDERS.' Nesses. Maran Biose: Sirre I do Breetwy confidence that the man disploying tarmers and other, as being a good, durable and practicable labor saving machine.
 MESSES. Maran Biose: Sirre I do Breetwy certify that having purchised and used. Brough the last hurvest, more of the laws y Resper, with Markins targories and shower ow in lamaster and practicable have as a standing a good. ## JUST PUBLISHED. New Method for the Piano Forte. BY CHARLES GROBE. \_\_\_\_

A good instruction book for the Plano has long been wanting, and, Mr. Charles Grobe has performed the la-bor, in getting this loss up in a most admirable and efficiency manner. It will prove itself to be one of the most valuable guides in the instruction of the art of playing the tiano.

of playing the tian, Considering the authors well known capacity, and long Amp unremitting devotion to the tesk of elemon-tary teaching, we have strong reason to hope that the public are now to be furnished with a thorough, syste-matic, progressive, and cuteftaining method for the Plann.

natic, progressive, and entertaining method for the Plano. Wa can confidently recommond it to teachers and pupils as botter at pitted to the purpose of elementary instruction than any others with work we are use quainted. The plan pursued in this work is substantially the same as that developed in Ollendorff's method of teach-ing languages. It commences with the simplest ele-ments. The progress made will be gradual, so that ev-ery step will be purfectly intelligible, and be readered of positive value to the pupil. Every difficulty is met with singly, and after thorough analysis, overcome by practice.

with singly, and after thorough analysis, overcome by practice. This method will, undoubtedly, provide teachers with a well discuted, progressive, and outnertaining plan by which a sound and correct knowledge of the ast of playlar the plano hay be acquired with comparatively little labor and in so short a space of time as will al-most seem incredible to those who have confined them-solves to arms of the tedlous systemis heretofore in use. This work contains for engaged flaues, and al-so a likeness of the author... Its typographical accuracy and appearance have never been equivaled in any musical work that has herefolore been lasued from the press in this or any other country. Coples will be sent by mail, free of postage. on the re-coly of the mirked price. June 22, 1859-24

REAPER, & MOWER. We respectfully call the attention of Farmers to this insty obstrated machine; if has been in uise the last avera years, and wherever introduced has become a fa-vorito machine. Some manufacturers and agents field their circularis with Syracuss first premium machine.---We did not attend that ital, but have taken first pre-miuns over both of them in a number of trials since that filme. We might boast numerous first premium, over all the most-popular machines now in use, but what are large atories worth to farmers? We sell our machines upon their real merits, and ask farmers to ex-amine them before purchasing. We warrank our ma-chines to work well both in grass or grain light or heavy. stantling rowick well both in grass or grain light or theavy. machines upon their real merits, and eak farmers to ex-amine them before purchasing. We warrank our ma-chines to work well both in grass or grain light or heavy. stantling no failen, wet or dry. More near Carfiale. Also, an explicition of the same kind of machine inser Mechanics. There we ro-spectfully invite farmers and all others to attend and scannine. for their solid machines. HOUR, GARNETSON & GO, Bochaniceburg. MURANK, or SIRKICKLER & BOO, Carliale. HOUR, GARNETSON & CO, Bochaniceburg. THOME & KNETLET, Newville. BMITI, & O., SIRKICKLER & SAFE, Propristors. June T, 1860. Louisa Carothers. The defondants will take notice that I will execute this writ of partition on the premises, to wit: A House-an I to' on Pomfred Street in Carlisle, bounded south by Pomfret Street, west by David Sterrett, north by Church Alley, and east by Geo. Hendel, on SATURDAX the 9th day of July 1860, at 9 of lock, A. M ROB'T. McCARTNEY, Sheriff. Sheriff's Office, Carlisle}, June-1, 3509-00
