YORK, June 18th, 1859. To John S. Pomoroy, Joseph Garretson and J. H. Seltzer, Esqs., Committee of People's State Convention :-

State Convention:—
GENTLEMEN:—I have this day received your letter dated the 16th inst., in which you advise me of my nomination as a caudidate for the office of Auditor General by the State Convention which met at Harrisburg on the 8th inst. I beg leave, through you, to express to men who composed that Convention my grateful acknowledgments for this proof of their confidence, and in accepting the nomination which they have conferred, take occasion to avow my earnest agreement with them in their declarations of principles and in their expressions of opinion on measures of public policy. Should the people of the State ratify the nomination of the Convention by a ratify the nomination of the Convention by a majority of their suffrages, I shall labor so to discharge the consequent official duties which will devolve upon me that my political friends shall not be disappointed in the selection which they have made of a candidate, and the public interests shall suffer no detriment from

Having been entrusted to my care.

I am, Gentlemen. Very Respectfully,

Your Friend and Obedient Servant, THOMAS E. COCHRAN.

READING, June 20th, 1859. GENELEMEN: —I received your favor of the 17th inst., conveying to me the official notification of my unanimous nonination for the office of Sugreyor General by the People's Gonvention, assembled at Harrisburg on the 8th of June. I thank you for the evidence of your regard as the representative of the people and the high honor conferred upon me, as calls forth our warmest aspirations. The good feeling and unanimity of purpose evinced by the Convention, are at once avorable auguries and a true reflex of the popular sentiment. It behooves us, as advocates of human progress, behooves us, as advocates of human progress, to give our unfaltering support to the principles enuciated by the Convention, many of which I sustained by my voice and votes in the Halls of Congress, and all of which I approve. Let the motto be, "The Union of all good men for the good of the Union," to insure a glorious and lassing victory. Yours, very truly,

W. H. Kein. very truly,
To John S. Pomoroy, Joseph Garretson and
John H. Seltzer, Esqs., Committee.

OUR STATE TICKET.-We are glad to see, says the Pittsburg Gazette, the unanimity and seal with which the opposition press throughout the State respond to the nomination of COOHBAN and KEIM. Every paper enlisted in the cause of opposition to the National Administration has not only spoken favorably of them, but has entered warmly and enthusiastically into their support, and papers occupying a neutral or independent position, have

also awarded them a cordial endorsement. But although the State Convention did well in the selection of this ticket, it seems to have achieved an even greater success in its platform, which has given unlimited satisfaction to every branch of the opposition throughout the State. It is everywhere greeted with a hearty approval; and outside of the State it is spoken of as forming the framework of the platform to be adopted in 1860. Altogether, the evidences are cheering that we shall, under this banner and with these candidates carry the State triumphantly, and so pave the way for a great popular triumph in 1860.

OPPOSED TO PREACHER POLITICIANS .- The German Evangelical Lutheran Ministerium of Peansylvania and adjacent States, held recently at Lebanon, Pa, took action in the case of the Hon.-Rev. Jeremiah Shindel, State Senator from the Lehigh district. A series of resolutions, reported by a committee, was adopted, the substance of which was about as follows :- The Synod considered the holding of political office incompatible with that of the clerical. He is requested to resign his seat in the Senate within thirty days of his reception of the action of the Synod; if he does not see fit to do so, he is then to resign the ministry; should he resign his political position and adhere to the ministry, he is hereafter to confine his labors to three specified congregations. The course of the Synod in the matter was eminently proper. We take it for granted that Mr. S. will prefer to serve the devil, and resign his clerical functions, rather than give up his chances of political preferment .- Reading Journal.

GERMAN NATIONAL CONVENTION .- A German National Convention met a few days since at Cleveland, Ohio. The purpose of this Convention was to take into consideration the propriety of organizing a separate political party. About 125 delegates were present. composed of both Republicans and Democrats, from Massachusetts, New York, Ohio, Pennsylvania, New Jersey and Illinois. The German press had generally spoken against the Convention, viewing it as unnecessary and uncalled for and this fact accounts for the smallness of the attendance. After a harmonious session, in which the whole subject was fully discussed, it wisely adjourned sine die, without taking any steps towards the end for which the Convention was called.

A GREAT FEAT.-A dispatch, dated Ningara Falls, June 30, says :- "Mons. Blondin performed his hazardous feat to day, of walking across the Niagara river on a tight rope in the presence of from five to tan thousand spectators. He first crossed from the American side, stopping midway to refresh himself with a drink of water, which he drew up in a bottle with a rope, from the steamer Maid of the Mist. The steamer accompanied him, to be of service in case of accident. He crossed over in 171 minutes, and returned in 12 minutes."

"Roor Hog on Die."-In one of the counties of Wisconsin it is stated there are three candidates for the Legislature : J. M. Boot, Democrat; Robert Hog. Free-Soil: and T. H. Dye, Whig. So on the election day, it will be Boot, Hog, or Dye," with the voters.

All the corps of the Austrian army are concentrating upon the line of the Mincio. The provinces of the Empire have been denuded of troops, and the last columns are arriving by forced marches upon the scene of the contest. The Austrian army has chosen its position, it occupies a line on the other side of the Chrease, the centre of which rests upon the heights of Castiglione, before Peschiera; the right wing extends to Lonato, the left to Castle Goffredo. We are daily in expectation of news of a battle on the Mincio—a great battle—which, if lost by the Austrians, may hasten the solution of the great question at issue, and dissipate the delusion that they can continue to hold Lombardy as before. The famous fortresses will, we are told, not long stand out against rifled canon. Should a battle then be lost by the Austrians on the Mincio, it is thought or hoped that the neutral Powers may try to bring about an armistice, with a view to an ulterior arrangement. There are various versions, or rather conjectures, as to the nature sions, or rather conjectures, as to the nature of this arrangement. Chicago, June 29.—Thirty four bodies have been recovered from the wreck of the ill fated train on the Michigan Southern-Railroad, which, as before reported, was thrown from the track by the washing away of a culvert. Seventeen of the bodies are so disfigured sisto render identification impos sible. Others are missing—supposed to have been drowned. Among the killed is nave neen drowned. Among the killed is Henry Fleckinger, of Reading, and B. P. McCullough, of Lawrenceburg, Pa. Among those fatally wounded is E. C. Smith, a banker of New York. The passengers ac-quit the officers of the train of all censure There were about one hundred and fifty persons on the train. The stream where the accident occurred, which is naturally but a rivulet, was swollen by the extraordinary rains of the previous afternoon and evening, and the drift wood brought down by the flood choked the culvert and converted it into a dam. The great weight of the water, with the concussion caused by the crossing of the train, was the occasion of the sad calamity. The train was running at the time at the rate of ten to twenty miles an hour. The train coming wesst had passed over the embankment safely only three hours before the

This body convened in the Rev. Dr. Harper's church, in this place, on Tuesday evening, the 14th ule, at 4 o'clock, P. M., and was constituted by prayer by the Moderator Rev. E. Emerson, of Greencastle. A larg majority of the members answered to the ca of their names, the attendance being unusually large for an adjourned meeting. On letter, the Rev. Messrs. Davis and Williams were admitted, after examination. After some preliminary business the Presbytery took a recess until 6½ o'clock, P, M., when they re-convened, and Mr. Fitzgerald appeared for examination. On motion Rev.
Mr. Barrett, of New Jersey, was admitted as
corresponding member for his Presbytery,
and delivered a brief-battelegant address on "Systematic Benificence," riging the claims of the "American Tract and Missionary Soof the "American Tract and Missionary So-ciety," upon the attention of the Presbytery. Religious services were then had, on which occasion Mr. Fitzgerald preached his trial sermon, after which the Presbytery was re-organized, and proceeded to his further ex-amination on Theology. On motion, ad-journed.

On Wednesday morning at 8 o'clock, the Presbytery re-convened, and was opened with prayer. The contest was an animated one, although it does not seem that the nation is yet so far advanced in political science as to be divided into regularly organized parties. DESTRUCTIVE FIRE.—About 1 o'clock on Thursday last, a fire broke out in the stable of Wm. Bentz, on Church alley. The stable was of frame, and the fire soon extended to a dwelling house on the east side, owned by Mr. John Noble, and occupied by family named Monaghan, and on the west, to a store house, occupied by J. & D. Rhoads.

The stable and store house were entirely de stroyed, and the upper part of the dwelling, with some furniture, was burnt out. Mr. Postlethwait's house, on the opposite side, made a narrow escape; it was on fire several times, and, if the engines had been a few minutes later, would have been past saving. A good deal of damage was done to the gardens and fences in the vicinity of the fire. Mr. Rhoads had about a thousand bushels of corn in the store house, but we believe it was not much injured. The fire department are entitled to full credit. for the way in which they managed this fire; but for their exertions it would have been much more serious and destructive.

It is supposed the fire originated from shooting crackers, which the boys were playing with, as a fire occurred from the same cause, a day or two before, but was extinguished by the neighbors before any lamage was done.

THE 4TH IN CARLISLE.—The "day e celebrate," was, with us, very generally bserved as a holiday. A gentle breeze from the north, rendered the air cool and invigorating, and the atmosphere was clear and balmy, until "Young America" caused it to become

After having tried every known remedy without effect, and despairing of over regianing my lost health, I was juduced to make use of the Oxygenated litters, the good effects of which were immediately visible on my health and system. DALLEY'S MAGICAD PAIN EXTRACTOR will curs the following among a great catalogue of diseases: Thurns, Scalds, Cuts. To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the saive is a combination of ingredinents, each and every one aptiging a perfect antidote to its opposite disorder. Dalley's Magical Pain Extractor in its effects is magical, because the time is short between disease and a permanent cure: and it is an extractor, as it draws all disease out of the affected part, having nature as perfect as before the injury. It is exarcly necessary to say that no house, work shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.
