RIGHT OF SUFFRAGE.

The trick of the Locofocos, in introducing an amendment into the Massachusetts Constitution obnexious to naturalized citizens, with the hope of throwing the blame on the Republican party, is thus clearly exposed by one of their own organs.

From the Boston Pilot "The Republicans were by no means unani-mons in the support of the amendment. In the county of Worcester—the strongest Republican county in the State—a county which usually gives a majority of five thousand for the Republican ticket—the vote was nearly sven. Several Republican papers opposed it, and it is quite clear the Democrats could have defeated the amendment without straining themselves much, if they had desired to do so."

CAVBIANA, June 26th, 11.80, A. M.—The purpose of attacking us with their whole body have been obliged to abandon their positions and withdraw to the left bank of the river. They have blown up the bridge of Goito. The loss of the enemy is very considerable, but ours is much loss. We have taken 80 cannon, more than 7000 prisoners and 80 cannon, more than 7000 prisoners and 8 flags. General Niel and his corps d'armee have covered themselves, with glory, as well as the whole army. The Sardinian army inflicted great loss on the enemy, after having contended with great fury against superior forces.

There has been no circumstantial account

There has been no circumstantial account of the battle published at Paris. Private d spatches intimate that the French army has the offensive. Vague rumors also put the French loss in killed and wounded at twelve thousand. The battle was fought at Solfe-

PARIS, Tuesday.—Generals Anger, Forey, Dien, and L'Admirault were wounded slight-ly at Solferino. PARIS, Wednesday June 20—The Moniteur

of this morning contains the following:
CAVEIANA, June 28.—Our troops have passed the Minoio without hesitation, the enemy having withdrawn therefrom. Austrian accounts.

The following is the Austrian official ac-

count of the battle:
VERONA, June 25.—The day before yesterday, our right wing occupied Pozzolenge, Solferino and Cavriana, and the left wing day, our right wing occupied Pozzolenge, Solfetino and Carviana, and the left wing pressed forward as far as Guidizzolo and Castle Goffredo, but were driven back by the enemy. A collision took place between the two entire armies, at 10 A. M. yesterday. Our left under General Wimpfen, advanced as far as Chiese. In the afternoon there was a concentrated assault on the heroically defended town of Solferino. Our right wing repulsed the Piedmontese, but on the other hand, the order of our centre could not be restored, and our losses are extraordinarily heavy. The development of powerful masses of the enemy against our left wing, and the advance of his main body against Volta, caused our retreat, which begun late in the evening.

Vienna, June 25.—The Austrian Correspondence contains the following:

The day before yesterday the Austrian army crossed the Minoic at Your points, and yester.

crossed the Mincio at Tour points, and yester-day came upon the superior force of the ene-my in the Chiese. After an obstinate combat of twelve hours our army withdrew across the Mincio. Our headquarters are now at Villa

Franca.
The London Times says that the Austrians have most candidly admitted their defeat, and that historyscarcely records a bulletin in which such a disaster is more explicitly avowed.

A CURIOUS FACT, IF TRUE.—Cass county, Michigan, immediately west of Constantine, is dotted by lakes strung upon threads of water, which link them together for miles in extent. Is has been discovered that they contained It has been discovered that they contained whitefish, precisely the same fish that has so long been found and captured in our large lakes, and salted for market. They have been steadily increasing from year to year, until quite large hauls are made, and offered for sale in the village markets. These fish, then very small, came in our midst some ten years ago, upon the wings of a tremendous storm that swept with fury over Cass county, and they fell, "some upon land and some upon water," and were found gasping mpon land after the storm was spent, by many persons who were in its track. They went up from Lake Michigan, probably, in a water-spout. The seed was well sown, and the crop is a continual one to all persons in the vicinspout. The seed was well sown, and who vicin-

in Emory M. E. Church.
At 8 o'clock, P. M., the procession entered the Church, escorted by Beck's Silver Cornet Band, of Philadelphia; The church was well filled but not crowded, the ladies forming a large portion of the audience. After prayer by President Collins, the com-

petitors addressed the audience in the following order: The Central Idea of History, by William L.

The True Man .- J. W. Wright, Cumber land, Md. This gentleman, in his analysis of human character, took the ground that in dependence, self-reliance and originality of thought and action, were the prominent traits of true manhood, and instanced the public life of Washington, as a notable example that man is not the creature of circumstances .-As a politician, the true man is not bound to the obligations of party; but like Henry Clay, "would rather be right than be President." In Religion, he is bound by no dogmas, but becomes a reformer of the age, and his character lives in his works.

Mr. Wright was very earnest and forcible in his remarks. The Crusades, C. C. Penuel, Salisbury Md. The Love of Adventure. - Thos. S. Parker, Carlisle. This speech was among the most effective delivered during the evening. In the close of his remarks, the speaker paid glowing tributes to De Soto, the discoverer of the Mississippi. Bayard Taylor, Sir John Franklin and Baron Humboldt, but we were somewhat surprised, that he did not include among the list of heroes, to whose adventurous exploits the world owes so much, the name of in the midst of his fame and usefulness, so

recently cast a gloom over the country. The True Pride of Ancestry .- D. D. Stone. Norfolk: Va. This speaker started out with old world. That it required no monument to perpetuate the memory of true greatness, and that in the just appreciation of our civil and religious liberty-the master-piece of government, as developed by the heros and sages of the Revolution, we could find the true ouch-stone to pride of ancestry.

Good order prevailed throughout the exhibition, each speaker receiving his due meed of applause from the audience and a profusion of beautiful boouets, from the ladies. During the entertainment the Band contributed some of their choicest selections of music.

anniversary of American Independence, was t ever was before. In addition to the celebrations at Carlisle and Mechanicaburg, no enthusiastic celebrations were also held in Newville and Shippensburg. From a glow ing description in the Valley Star, we learn that at Newville the day was ushered in by martial music and the ringing of bells. Bu siness of all kinds was suspended, and me chanics, merchants, clerks and professional men, all seemed determined on having a holiday. About nine o'clock, the Big Spring Cornet Band paraded the streets, performing in their usual excellent style. At the time appointed, a procession was formed consisting of the Band, Fire Company and chizens under the marshalship of JAMES McCANDISH, Esq., The Fire Company had about forty men on parade, under command of Capt.

GEO. W. NORTH. After parading through the streets, the procession repaired to the beautiful grove of the Messrs. Aul, where a sumptuous dinner was prepared. After dinner the Declaration of Independence was read by Master Shella barger, and a number of toasts drank by the company. Eloquent speeches were made on the occasion by J. J. Herron and James McKeehan, Esqrs., and Mr. S. A. Sollenber ger; after which, the procession re-formed and returned to town, every one being pleased with the events of the day.

The citizens of Shippensburg celebrated the Spring. The Shippensburg News says: "At 12 o'clock the meeting was organized by the election of Judge Henry Ruby as President, and ALEXANDER McCune as Vice President. The exercises were then comperior in tone and effect, to former exhibimenced by the reading of the Declaration of Independence by Mr. W. WILLIS, which was done in a clear and distinct voice, at the conclusion of which the Rev. F. A. While de scending a long hill, part of the harness gave way, and the horse becoming frightened ran off. Finally the carriage was overturned and the inmates pitched into the road; when found by some harvest hands. Dr. Z. and one of his sons were still insensible, and all of them are more or less injured. One of the boys had his arm so badly broken, that it is not probable he will ever have the use of it.

CARLISLE SPRINGS A reference to our advertising columns will show, that this popular summer resort, is now opened for the reception of visitors. Among the many water ing places in the vicinity of Carlisle, none is ore deservedly popular than the Carlisle Springs; the water has valuable medicinal properties, and the buildings have all the space and comfort of a first class hotel, under the superintendence of the proprietors who spare no efforts to surround their guests with "home comforts;" so that those who would retire for a few weeks from the active duties of life, to the day in a beautiful grove at the head of revel amidst a pure mountain atmosphere, can find it at the Carlisle Springs.

ASSAULT AND BATTERY.-A colored man named John Campbell, of Chambersburg, made oath on Saturday before D. Smith, Esq., against two sons of Saml. Gleim, for assault and battery. Campbell says that he was on his way to Carlisle from Petersburg, in company with his sister, and being sick, he sat down under a tree to rest; that these young men ordered him off the ground, but refusing to go they commenced stoning him. a right to speak of its merits.

Of change and improvement. 2. 1. Ignorance the cause of national imbe cility. 2. Common schools its remedy. 3
A general distribution of knowledge neces sary to a republican form of government. This gentleman was a little inclined to periodic emphasis, which made his style a little heavy; with that exception it was a very creditable effort. Time, 7 minutes. Phrenology, B. F. EBERLY, Mechanicsburg,

This was an attempt to disprove the principles of the so-called science of Phrenology. His method was preeminently the reduction ad absurdum intereses. His method was preeminently the reductional absurdum, interspersed with some smart sarchestic hits. We think however, his logic did not quite reach the case; perhaps another knock will demolish it. He spoke with some hesitancy, and held his right arm in an awkward position. Time, 12 minutes. Union of the States, A. J. SMYTHE, Canan-

daigua, N. Y. al. A glance at the happy condition of our country and deprecation of disunion. 2 Causes which led to the suppression of liberty in the ancient republics. 3. Conservatism our only hope of safety. Time, 9 minutes. Genius, L. L. McARTHUR, Baltimore, Md 1. Contest between genius and mediocrity.
2. Genius subject to errors and irregularities unknown to those less gifted. He presented some very fine thoughts, but as before, was too animated—going far beyond what the feelings of his hearers would justify. Time, 11 minutes. Valedictory, L. M. HAVERSTICK, Cumberland

Co., Pa 1. Youthful aspirations. 2. Conciliation of the audience. 3, l'hillipic against town gossips. 4. Address to the teachers and class. The speech was good, modest, and sensible throughout. WAS As this is the season of the year when worms are most formidable among children, the proprietors of M'Lane's Vermifuge. Vienting Brok. of Pittaburg, beg leave to call the attention of parents to its virtues for expelling of those annoying and often fatal exemies of children. It was invented by a physician of great experience in Virginia, who, after having used it for several years in his own practice, and found its success so universal, was induced at last to offer it to the publicas a che-p but certain and excellent medicine. It has since become justly popular throughout the United States, as the most efficient Vermifuge ever known, and the demand has been steadily on the increase since its first introduction to the public.

39.Purchasers will be careful to ask for Dr. M'Lane's Celebrated Vermifuge, manufactured by Fleming Bros. OF Pittaburg, Pa. All other Vermifuges in comparison are worthiess. Dr. M'CLANE'S genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores. None genuine without the signature of PLEMING BRO.

I be cause union the grave. Last July I was attacked with a sudden cold, which resulted in a very severe couch, with vio ledt pains in the side and cheet. I becames omuch requeed, that my freedas frankly told me that I must die. At this crisis, I heard of Wistar's Balsam of Wild Cherry, and immediately sent for a bottle. The effect produced was indeed wonderful. My physician, one of the most reope table in. Botton, who had previously told me that a cure was hopeless, came in. and I informed him what I had taken. He examined the Balsam, and advised me to continue the use of it, since which time I have continued to improve daily; and the same physician who had given me up, told me, a few days since, that I might live many years.

We can cheerfully testify to the truth of the above statement, Mrs. Rows having been an inmate of our family.

EPILEPSY, OR FALLING FITS.

We believe we cannot do our readers a more important service, than by again calling their attention to that most remsekable preparation, discovered by Dr. Seth S. Hance. of Baitimore, Md. which possesses the power of alievisting and curing that horrid visitation of mare. Explience, or Kalling Fits. In recommending this preparation to our readers, we do so with a conviction that we are not degrading our columns to pull a common patent medicine, but are placing before them a discovery, which, if fully known, would probably do more to alleviate human suffering, than any invention of modern times. Dr. Hance, in asking us to notice his preparation favorably in our editorial department, has sent us for perusal a number of letters from persons who have used his pills, and have been cured thereby. All of them speak in the most grateful and culogistic torms. One great advantage this medicine possesses is the fact that it can be transported through the mails, thereby affording every one au opportunity of dealing directly with the inventor, and also precluding all possibility of being imposed on by a counterfeit or spurious imitation. Dr. Hance pays the postage on his pills to any part of the country, and will forward them by return of mail, on the receipt of a remittance. His prices are as follows: 1 box, 33; 2 do., 51: 12 do., 34. All orders for the medicine should be addressed to Seth S. Hance, 108 listimore street, Baitimore, Md. EPILEPSY, OR FALLING FITS.

The Markets. CARLISLE PRODUCE MARKET. Reported weakly for the Herald by Woodward & Schmidt. FLOUR Superfice, per bbl.

Extra, Family WHITE WHEAT per bushel CORN OATS 4.50

SPRING BARLEY PHILADELPHIA MARKETS.

Timothyserd

Monday, July, 11 1859.
The Flour market is without any new feaures; there is no demand for export, and standard and shipping brands are nominally held at \$6 25 per bbl., without finding buyers the trade being the only purchasers, at from this figure up to \$6.75 a 6.50 per bbl. for common to choice superfine extra and fancy brands, as in quality. The receipts are very light and the market generally dull. Rye flour is held at \$4.25, without much sell and Penna. Corn Meal at \$3 75 per bbl, but we hear of no further sales to-day.

In Wheat there is very little movement, owing to the difference in the views of buyers and sellers, who are apart' in their views; some small sales of old Pennsylvania red are reported at 145 a 150, for fair to red on li reported at 145 a 150c. for fair to good quality, and 400 bushels handsome Maryland do. 44,55c, but this rate is not now obtainable; 600 bushels old Kentucky white sold on terms we could not learn, and 200 bushels fair new southern do. at 150c. There is more new wheat offering. it is generally of spuerior wheat offering, it is generally of superior quality, but the millers are holding off for lower prices. Rye is scarce and wanted at 85c. some small lote have been sold for some. thing more. Corn is better again to day, and about 600 bushels prime Delaware and l'enna-yellow brought 90c affoat; the receipts are very light, but buyers generally are not disposed to pay this figure. Oats sell slowly at the advance: some Penna. brought 44c, and Delaware 42 a 43c.
