Enilrond Office, Chamberg., § | Ballroad Office, Chamber'g., July 27, 1850,

Inilroad Office, Chamber'g,
July 27, 1869,
The Commissioners of York and Cumberland counties, will lot to the lowest proposals, on the 17th day of August, A D., 1869, at the house of Benjamin Clay, at Bridgoport, the contract for building a WOODEN BRIDGE over Yellow Breeches creek, at Coover's Mill, in York and Cumberland counties The bridge to be of the following dimensions, 12: To contain in length 100 feet in the clear, from one abutment to the other, and 10 feet wide in the clear, with two abutments each 12 feet thick at the bottom, with a battered wall of one inch to the foth on the three sides of each abutment; the abutment to be 15 feet high from the bottom of the creek to the cord line, from which the wendon arches are to be started and extended across said-creek from one abutment to the other; and to be single floored with three inch white cak plank, and raised in the centre 12 inches; the sides and gable entits of said bridge to be of sufficient heighth to admit covered or hay wagons to past through the same. The bridge is to be closely weatherboarded with half inch pine boards, well lapped. The whole of the wark of said bridge to be rosfed with good and sufficient plans shingles; said rosfing to extend at each sind 10 feet over the heal of the bridge over the weatherboarding? feet. The abutments are to be built on firm foundations, to be approved of by the Commissioners, the while of the mason work to be built of large and hard stone, line and mortar, and pointed from the back of the abutments are to be built on firm foundations, to a be approved of by the commissioners, the while of the mason work to be built of the good of the bridge over the weatherboarding? feet. The abutments are to be built on firm foundations, to be approved of by the chemistoners, with a battered of one inch to the frost of the bridge over the past and stone, and to be supported with wing walls on each side five get the substance of the past of the proported with will me that needs, with an uncent not exceeding an angle of fo

of seven years, said bridge 1: to be built on the same plan as the one over the Little Conwas, o, at Nowman's Mill.

The Commissioners will also at the same time and place, receive proposals for building a STONE BRIDGE on the same site, of the following dimensions, vis: to contain in length 100 feet from one abutment to the other, and 10 feet while in the clear. The two abutments each to be 15 feet thick at the bottom, with a battered wait of one inch to the foot on three sides of each abutment. The bridge to be built with three arches; the ceptre arch to be 31 feet long and 10 feet, inches high in the clear; the two outer arches to be an 12 feet 6 inches high in the clear; the two outer arches to be feet high show the safe of the ches high in the clear. The abutments between the arches arches; the offer thick, and to rise 3 inches above low water mark, before the arches start. The side or curtain walls are to be 3 feet high show the filling and to extend as far as the wing walls, and, to be covered with broad stone coping, champed. The wing valle on each side to be 5 feet thick at the abutments, with a battering of 1 inch to the foot, to the top of the dilling, and to be to be 5 feet thick at the abutments, with a battering of 1 inch to the foot, to the top of the dilling, and to be foot the to the feet, to the top of the dilling, and to be foot the covered four degrees until it ments his bed of the road—as amay be necessary to support the filling to consist of earth and stone, and to be 1 foot thick on the crown of the centra rach, and the grade nut to exceed four degrees until it ments his bed of the road—the contractors to furnish all the materials and give security for the inthful performance of the countract, and the promanency of the bridge for the countract, and the promanency of the bridge for the countract, and the promanency of the bridge for the County—ANDIEME MEGAW.

heso celebrated PIANOS have, at different Fairs, for veral su-cessive years, been awarded the highest pre-aitums for oxcellence over all composition. They have also been pronounced by S. Thalberg, the most celebrated painst in the world, and other distinguished artists, including Mr. Strakosch, &c., &c., to be equal, if not superior, to any in this country.

We have constantly on hand at our extensive Wardious as above, the largest assortment of fine PIANO FORTES to be found in this city, which we will sell, wholesale and retail, on the most liberal terms to suit the times. In every case we guarantee our Planes to give entire

July 21, 1858. E W C O A L Y A R D—
AT-THE WEST END OF CARMESE.

The subscriber would respectfully call the attention of Limburners and the citizens of Carlising, and the surrounding country generally, to his NEW COAL YARD, attached to his Ware House, on West High st., where he will keep constantly on hand a large supply of the best quality of COAL, to wit:
Lykens Yalley, Luke Fiddler, Pine Grove and Treverton, Broken, Egg and Nut Ceal—screened and dry coal, which he phedges himself to sell at the lowest possible prices. Best quality of Limburner's and Blacksmith's Coal slwayson hand.

28 All orders left at the Ware House, or at his residence in North Hanover street, will be promptly attended to.

April 14, 58—tt. J. W. HENDERSON. MASURY AND WHITON

NEW YORK, WHITE LEAD, ZING PAINTS AND COLORS, OILS, VARNISHES, ETG.
Importers of English, French and German Artists' Materials, flue colors in oil and water, Winsor & Newton's tube and cake colors, Brushes Mathematical, and turials, fine colors in oil and water, Winsor & Nowton's tube and cake colors. Brushes Mathematical and Draughtsmon's Instruments. Drawing and Tracing Papers, Storeoscopes, Storeoscopes, Stowas, &c.

The particular attention of Painters, Dealers and others, is railed to the new patent method of putting up Leastand Zine Paints in metalic Caus, of which Masury & Whit in are the sole proprietors.

These Cans are intended by the inventor to obliate the difficulty heretofore existing in pitting up of Lead and Zine in signal kogs. All consumers of paint are aware that the loss on Lead and Zine put up in small wooden packages, is from five to temper cent., and in many cases much mere, owing to the absorption of the oil, and the consequent induction of the paint against the wood—to say nothing of the additional labor required to mix paint ready for use, after it has become, hard in the keg. The loss of the keg, too, is a consideration which should not be lest sight of. The patent Can not only obviates these difficulties, but in addition thereto furnishes the consumer with a store, and convenient paint pot, out of which to use the paint, which is alone worth more than the difference of cost between the caus, and kegs.

The Cans are facked in saw dust, in strong cases or

is alone worth more than the difference of cost between the cans, and kegs.

The Cans are packed in say dust, in strong cases or boxes, which contain 290 lbs cach, that is 8 25 lb. Cans, or 4 50 lb. Cans, and they may be safely shipped by rail road or otherwise to any part of the United States. Circulars, containing cuts with full description, sont by mail on application. [June 1, 1859.—3m.
