In view of this meeting, (which we hope will be attended by every member) we have a few suggestions to offer for their consideration, Now what is the duty of the Standing Committee? Most assuredly, they are not appointed merely to-have-their names paraded in the papers, once or twice a year, when it may be necessary to call a County Convention, although heretofore, that has been about the extent of their duties. We, hold that a County Committee bears the same relation to the party in that county, that the Stafe Central Committee, does to the party in the State They are the representatives of the party for the time being, and on them devolves the responsibility of conducting the campaign to a successful issue. The necessary action to be self to the mind of every member of the committee, and we trust they will come to this meeting, prepared to inaugurate such mean sures as will ensure succes.

Resolutions of the County Convention, The following series of resolutions adopted by the Poople's County Convention were omitted last week, in our report of the proceedings for want of room.

Resolved. That we are entirely opposed to the present National Administration; that it is founded upon and sustained by corruption in all the departments of government; that its reckless expenditure of the public money has rendered the treasury bankrupt; that, in many respects, it has tallen short and failed to provide for the wants of our people; and interests of the country and subversive of the

our common humanity and the laws of the land, against the renewal of the African slave trade, and regard the recent importations of Africans into several of the Southern States, an indicative of a demoralized bublic sent

Administration in the exercise of its duties.

Resolved. That every principle of sound
policy and common sense require that our

OUR TICKET.

We present this week to the people of the dence, that no better licket, was ever placed before the voters for their suffrages, than the present one. The well known character and abilities, of the men composing the ticket, must recommend it to the favorable consideraiton and confidence of the people, while it gains additional strength from the unanimity with which the candidates were placed in

The delegates went into Convention untramelled by outside dictation from self-constituted cliques-They had no breaches to heal, no pledges to fulfil - Their object was to place a ticket fairly in the field, composed of good nominated at Charleston, I can begt them men, competent to discharge the duties of the both. Or, if squatter sovereignty is a plank several offices for which they have been named; ticket fairly in the field, composed of good and having done their duty, they now ask the voters of the county, to ratify it, by a triumphant majority at the October election.

OUR CANDIDATES. The People's County Convention, have given s a ticket composed of "good men and true," and it is now the duty of those opposed to the policy of the Democratic party to go to work realously to elect it.

FOR SENATOR.

Wm. B. Irvine, of Upper Allen, has been ominated, subject to the decision of the Senatorial Conference. He is well known, as a young man of fine abilities and popular manners, an ardent politician, and a reliable and efficient working man in the party. His election would secure to the people of this district the services of an attentive representative, and a worthy exponent of their views on State and National affairs.

FOR THE ASSEMBLY. John McCurdy, of Shippensburg was nominated by acclamation, as a just tribute to his ntegrity and moral worth, and an evidence that his services in the last Legislature, are justly appreciated by his constituents . His earnest, conscientious discharge of duty, has gained him the confidence, even of political opponents, and we look to see him re-elected by a majority still more flattering than that of last fall

FOR COUNTY THRASURER. A. L. Sponsler, of Carlisle, is before the people. His ability as an accountant, his experiouce in public business, and his general acquaintance throughout the county, as well as his present situation, give him peculiar claims on the people of this county, for their suffrages. His qualifications are undoubted: and his personal popularity, equal to that of board like she used to do - God bless her still. any man who could have been flominated. Ifthe people do their duty his election is beyond-

KOR COMMISSIONER.

We have John D. Gorgas, of Carlisle, than whom no man sustains a higher character, or is more generally esteemed. He is well known as a prudent, reliable man, and will make a most excellent Commissioner.

DISTRICT ATTORNEY.

C. P. Humerich, Esq., was nominated for the office of District Attorney by acclamation. He is a young man of decided ability universally popular, and is well qualified for the office, having been a member of the bar for several years. No man on the ticket is more deserving, and none have fairer chances of success.

FOR DIRECTOR OF THE POOR. Col Wm. H. Woodburn, of Newville, has peen placed on the ticket. He is so well known to the citizens of the county, that any hing we could say, would be superfluous. He is an intelligent man of active busines habits. and the vacancy in the board could not be filled by a better man.

FOR COBONER John Holtz of East Pennsboro. FOR AUDITOR

p, of Hampden, and FOR COUNTY SURVEYOR.

Henry Walters, of Southampton have been put in nomination, and although these offices are not so important in a political point of view, as those above mentioned, yet so far as the interests of the 'county are concerned, it s necessary that they should be filled by good and competent men; and the character of the nominees, show conclusively, that the Convenvention were not unmindful of that object, in naking the selection. To our friends, we would say, the ticket is now before you, scan t from top to bottom, and you will not find a man who is not worthy of your confidence and you profess, it is your duty to elect it.

Wm B. IRVINE.

The nomination of this gentleman for Senator, affords great satisfaction to the people of this county, by whom he is well known, and we hope, the Senatorial Conferees, will not nesitate to ratify the nomination made by Cumberland County.

The claims of Cumberland are paramount to any other county in the district, and we trust the Conferees will stand up from first to last, for the candidate presented by "Old Mother Cumberland," until they secure his nomination. His character as a business man his position in the party, and his ability to tion of his constituents, entitle him to the AND WILL BE ELECTED, if placed on the riety of feats.

The object of every man who has any agen y in nominating candidates, should be to want drones put on the ticket by way of compliment. We nominate men TO ELECT THEM ought to stick to him "first, last and all the 316 pounds. The Register says:

GOV. WISE.

This gentleman, has recently committed a county, the names of the candidates, who were political faux pas, by writing a letter confi minated for the different offices, by the lates fentially, to a Mr. Donnelly of New York, the organization of the representation branch County Convention, and we assert with confi- opening out his views in regard to a nominatof the next. Congress, beyond the reach of tion for the Presidency. The following ex- the democracy. tract, will show, the tone of the letter. . . . .

A united South will depend on a united Virginia, and I pledge you that she, at least, shall be a unit. Virginia a unit, and persistent and firm on a sound platform of protection to all persons of popular rereus squatter sovereignty, she must rally to her support all the South. The South cannot adopt Mr. Douglas platform. It is a short cut to all the ends of black republicanism. He will kick up his heels. If he does, owndon't, he can't be nominated, and the main argument ngainst his nomination is that he can't be elected if nominated If he runs an indepen-dant candidate, and Seward runs, and I am nominated, the South will run an independan comminded the South will run an independant camilidate on protection principles, and run the election into the House.—Where, then would Mr. Douglas be? The lowest candidate on the list. If I have the popular strength you suppose, it will itself fix the homination. Get that, and I am confident of success.

This letter, by some means, gained publicity and was read at the Democratic Convention at Albany. The Governor thinks the letter was made public for the purpose of killing him off," and in revenge, threatens to inflict a letter on the public, giving a history of the "Albany Regency," from the days of Jackson. A letter of thirty columns is no joke, and it is to be hoped he will defer it until after the dogdays. In the mean time, the Governor wants letter, written to John S. Foster, Secretary of the Mercantile Library Association, in answer to an invitation to lecture before the society.

RICHMOND, Va., July 27, 1859 TICHMOND, Va., July 27, 1859

'Dear Sit.—I hardly know how to decline your invitation, but must do so. Please present my acknowledgments to the lecture committee and say that I am about to start for our mountains for a tour of sixty days, examining routes and reservoirs for a canal. That from that time to the first of December I shall be engaged in preparing materials for my lost. from that time to the first of December I shall be engaged in preparing materials for my last message to the Virginia General Assembly, upon whom I must wait constantly until the 1st of January next. And that thereafter I shall be busily occupied in fixing a house and home for my family after four years' absence, besides all this extra labors of grievous burthen fall heavily upon me So. Leaniof accept this call I have no time for literary or any other composition. I am a bad shot at the this call I have no time for literary or any other composition. I am a bad shot at the best, and I am not going to Boston to shoot game on the wing. I would like to bag you if I could be ! if I could bag Boston the whole nation would be safe then. Yes! I always loyed old Boston—she was the saloon of the tea party. And some of these days. God willing, ! will try to see what js the matter with her that she don't—throw tea over board like she used to do—God bless her still. Very hastily, but truly yours.

HENRY A. WISE

COL. FORNEY.

This gentleman recently addressed a democratic meeting at Reading. The following extract gives us some inkling of the line of policy to be pursued by the "State Rights Democracy," at the October election :

"One word more: We have a duty to perform in October next. The Administration has placed its State ticket upon a piain and distinct platform. It tells you that every man who votes for John Rowe and Richardson L. Wright, votes in favor of its platform, which declares that the people of the Territories shall have no right to control then wn affairs in their own way, and that if they take a vote upon the slavery question and abolish slavery, Congress must intervene to abolish slavery, Congress must intervene to put them down, and uphold that institution against their will. I have to say for myself that I shall refuse to vote for that ticket, and I hope that every Democrat who stands upon the platform of State rights, and believes in popular sovereignty and the justice of the ement we have inaugurated and carried on, will do the same. Let fossils and fogies complain, if they choose, of this action; they will submit. There will be no difficulty about that; and after we have defeated the the Democratic party, as expounded by Senator Douglas, and as expounded by Democracy in 1856, and triumph, as I have no verwhelming vote." [Cheers.]

BLONDIN'S LATEST FEAT.

The Buffalo Courier says that at the Falls on Wednesday, Blondin did all that he prom ised, and more. He crossed the rope dressed in Indian costume. His journey to the Canada side was not marked by any feat of peculiar daring. He went over on a trot, merely halting for an instant to balance himself. His homeward trip, however, com pletely eclipsed his previous feats. When about one quarter of the way across he stood support, and if you are true to the principles on his head, holding the balance pole in his hands. A little further along he laid down on his back with apparant composure. When near the centre of the rope he tied his balance pole to the guy rope and navigated by means of his hands and feet, his body being in a state of "suspended animation" beneath. After proceeding some distance in this way he assumed a perpendicular posithrew his body over the pole, striking astride the rope. Without the pole he hung by one discharge the duty of Senator to the satisfac. leg from the rope, and supported himself by one arm. During his passage he stood on nomination; and beside all this, HE CAN his head several times and performed a va-

Storm in Baltimore.

On Saturday last, Baltimore was visited by terrific storms Several houses in the eastern part of the city, were struck by lightning At Locust Point, a large rock of iron ore was struck by lightning and broken to pieces, the shock being so great that some of the fragments were thrown a distance of sixty yards. The streets in the lower part of the city were flooded with water, and a lady in attempting to cross Broadway, fell and was carried some distance down the street by the current, before assistance could be rendered.

During the storm, the lightning struck a edar tree, near the Long Bridge in Baltimore county, killing instantly. George II. Hall and his son Wm. H. Hall, both of Baltimore city, who had taken refuge under the tree; another son, George Hall jr., who was under another ree, was also stunned by the fluid. The party had started to fish in a boat, but when the storm came up, they rowed to shore and took refuge under the cedars.

Since the published declaration of Mr. Buhanan that he is not in the field for the hext residency, the editor of the Buffalo Repub lic says : - "The denial is true in one sense Mr. Buchanan is not a candidate, but expects to get the nomination, and within ten days he so said, adding : "The Democratic party is lost, unless it nominate me at Charleston, for no other man can be elected but me" The editor snys that if any office holder wishes to test the fact, let him make himself very busy, or about three days, in favor of any other andidate. This is a simple experiment ; will not some of our own federal officials, for the sake of settling a great public question, just' try it?

STATE TEACHERS ASSOCIATION. - The anand session of this association, which was held this year at West Chester, is said by the Chester Co., Times, to have been the largest educational meeting ever held in America.

THE WESTMINISTER REVIEW for July, has been received. This number contains eight articles, in addition to the usual copious account of Confemporary Literature, which forms a valuable appendage to every number. The paper, What Knowledge is of most Worth? is a comparative estimate of the relative val ues of the different kinds, of knowledge for the purposes of education, with a strong leaning to a greater infusion of the practical element in the ordinary systems.

There is also a review of Prof. Jewett's Epistles of St. Paul A paper on The Influence of Local Causes or National Character. The life of a Conjucer.
