

PEOPLE'S STATE TICKET.

FOR AUDITOR GENERAL, THOMAS E. COCHRAN, of York County.

FOR SURVEYOR GENERAL, Gen. WILLIAM H. KEIM, of Berks County.

PEOPLE'S COUNTY TICKET.

SENATOR, W. B. IRWIN, Upper Allen.

ASSEMBLY, JOHN McCURDY, Shippensburg; WILLIAM ALLISON, Perry Co.

COUNTY TREASURER, A. L. SPONSLER, Carlisle.

COMMISSIONER, JOHN D. GORGAS, Carlisle.

DISTRICT ATTORNEY, C. P. HUMRICH, Carlisle.

DIRECTOR OF THE POOR, Col. W. H. WOODBURN, Newville.

CORONER, JOHN HOLTZ, East Pennsborough.

AUDITOR, HENRY RUPP, Hampden.

SURVEYOR, GEORGE WALTERS, Southampton.

THE STANDING COMMITTEE.

An adjourned meeting of the Standing Committee of the People's Party, will be held at the Hotel of H. Glass, on Saturday the 24th inst. at 11 o'clock A. M.

The following gentlemen compose the Committee: Lower Allen—C. Eberly.

Upper Allen—T. D. Drury, Carlisle, E. W. E. Noble.

W. W. Major, J. Bretz, Dickson—Thomas Paxton.

E. Pennsboro—D. O. May, Franklin, M. D. Leckey.

Hampden—Eli Grunkle, Howell—Martin Kunkle.

Mechanicsburg—Levi Kauffman, Lewis—Henry Snyder.

Morris—Richard Anderson, Newton—Jas. Koons.

N. Cambria—V. Freeman, Newville—Jos. McPherson.

North Middleton—John R. Coble, Southampton—Samuel Taylor.

South Middleton—Geo. D. Craighead, Silver Spring—Dr. W. H. Harris.

Shippensburg—H. B. McClure, Shippensburg (wp)—Wm. Baughman.

West Pennsboro—Jas. D. Gresson, West Pennsboro—Jas. D. Gresson.

JACOB BRETTZ, Chairman.

R. P. McCLURE, Secretary.

ORGANIZE ORGANIZE!

We feel again to be our duty, to remind our friends of the importance of perfect organization.

To work then and organize in every ward and township, find out your strength, and see that every vote is polled on the day, and see that you carry your ticket by a triumphant majority.

YORK COUNTY.—The People's Convention of York County, met on Thursday last, to nominate a county ticket.

The resolutions adopted by the Convention endorse the platform and candidates of the State Convention of June last.

THE TICKET.

The nomination of Wm. B. Irwin for the State Senate, renders our county ticket complete, and the responsibility of its election or defeat, rests now on the voters.

They are opposed to the democratic doctrine of free trade, which would sap the very foundation of American enterprise and industry, and make us dependent on the paper labor of Europe.

They are opposed to the democratic doctrine of admitting goods free of duty, and forcing the people to pay the expenses of the Government by direct taxation.

They are opposed to the democratic doctrine that the Constitution of the United States, carries slavery with it into the Territories and that therefore, "Kansas is as much slave State as Georgia or South Carolina."

They are opposed to the democratic doctrine, that a naturalized citizen cannot claim the protection of our flag beyond the boundary of the United States, but must remain subject to the country of his birth, if found within her limits.

They are opposed to the democratic policy of conciliating the South, by forcing a State Constitution on the people of a Territory, when they had previously repudiated it by a majority of thousands, and they are opposed to the democratic system of making the Government a wet-nurse for political cripples, by providing job contracts for favorites, whenever they are defeated for office.

These are all Democratic measures, receiving the cordial support of the party. The candidates who were placed in nomination, by the democratic Convention, have to swear by this party creed, and it becomes you, as honest opponents of such measures, to prove your opposition by sustaining the men who are pledged to carry out your views and principles, whenever they have the power.

THE SAN JUAN DIFFICULTY.

The occupation of the Island of San Juan, by American troops under orders of Gen. Harney, created no little excitement, though Harney, created no little excitement, though it is believed, that the dispute in regard to the surveys under the treaty, will be amicably settled between the United States and Great Britain.

The surveys at the State Department, of the waters between Vancouver Island and the continent show three channels. The central one, Douglas, is not very deep, and runs zig-zag through a sort of archipelago of islands. That near the continent, Rosario, and that near Vancouver's Island, are both of excellent water. Our government takes the position that the channel nearest Vancouver was meant as the line of division by the treaty, for the reason that it is a better one.

The British minister declines going behind the treaty, but offers the first article as follows:—"The line of boundary shall be continued westward along the forty-ninth parallel of north latitude, to the middle of the channel which separates the continent from Vancouver's Island, and thence southerly through the middle of said channel, and of Buena Vista, to the Pacific ocean; provided however, that where the said line intersects the said channel and straits, south of the forty-ninth parallel of north latitude, remain free and open to both parties."

Upon the question, which of these must be taken, the British minister says that much must be said on both sides; if the word "channel" is construed in the sense that we speak of, the British Channel, &c., then it may mean the middle of the body of water lying between the continent and Vancouver's Island. San Juan Island lies west of a line thus drawn.

The Washington papers of the 16th inst. state that Gen. Scott arrived here this morning, and in the course of the day called on the President and other officers of the government, and made an inspection of the San Juan Island dispute. The present indications are that he will be ordered thither, the condition of affairs at that quarter being considered such as to require the services of a man of his high position, and the presence of all his official movements to prevent a possible collision between the United States and the British forces, pending the settlement of the question by the two governments, as in the Northern boundary difficulty.

Col. Hawkins, of the British army, yesterday brought dispatches concerning the San Juan dispute to the British legation, and then left for New York to take passage for England with dispatches from Governor Douglass and Her Majesty's government on the same subject.

WASHINGTON, Sep. 16.—General Scott left here this afternoon for New York, and will sail in the steamer of the 20th, for the Pacific. The present delicate and complicated state of affairs at San Juan, growing out of Gen. Harney's movements, require great care and caution on the part of our government, to prevent a collision.

The President, conferring with General Scott in regard to the matter, suggested the propriety of sending some one there who has less impetuous and more prudent than Gen. Harney. Gen. Scott at once informed the President that he would go, and that as soon as his instructions were prepared, he would be ready to start.

The instructions were partially prepared and considered in Cabinet council to-day. They will probably be completed to-morrow, and forwarded immediately to New York. The Administration received some additional advices from Gen. Harney, brought by the Star of the West. There had been no material change, and matters remained in statu quo.

THE ADAMS SENTINEL.—The editor of the Sentinel, has improved the appearance of his paper, by bringing it out in a full set of new type. We congratulate the editor on this evidence of prosperity. The Sentinel, is among the most high-toned, moral and conservative journals in the state.

PENNSYLVANIA COLLEGE.—The annual commencement of this institution, took place at Gettysburg last week. The annual addresses, before the literary Societies, were delivered by Prof. Coppee, and Dr. Stille. The address before the Alumni of the College, was delivered by Rev. W. M. Baum, of Winchester Va.

YORK COUNTY AGRICULTURAL FAIR, will be held at York, on the 4th, 6th, 8th and 7th of October. We are indebted to Dr. Wm. S. Boland, for complimentary tickets to the exhibition.

MAINE ELECTION.—The returns of the Maine election on the 12th inst. shows an increased Republican supremacy in the state. Lot M. Morrill, the Republican candidate for Governor, has been re-elected by about 10,000 majority.

HEAD THE advertisement of Dr. SANFOOD'S Liver Invigorator.

IMPORTANT FROM SAN FRANCISCO.

San Francisco, Sep. 18.—We have received Salt Lake papers of the 17th ult. They are filled with outrages in the Mormon country. Superintendent Forney reports that from the information which has been acquired in relation to the recent Indian massacres, in which six men and one woman were killed and six men and one little girl wounded, he is led to believe that the butchery was instigated by white men. Sitkaunts, Indians, were under oath, to the effect that white men were engaged with the Indians in the work of slaughter.

They are opposed to the democratic doctrine of free trade, which would sap the very foundation of American enterprise and industry, and make us dependent on the paper labor of Europe.

They are opposed to the democratic doctrine of admitting goods free of duty, and forcing the people to pay the expenses of the Government by direct taxation.

They are opposed to the democratic doctrine that the Constitution of the United States, carries slavery with it into the Territories and that therefore, "Kansas is as much slave State as Georgia or South Carolina."

They are opposed to the democratic doctrine, that a naturalized citizen cannot claim the protection of our flag beyond the boundary of the United States, but must remain subject to the country of his birth, if found within her limits.

They are opposed to the democratic policy of conciliating the South, by forcing a State Constitution on the people of a Territory, when they had previously repudiated it by a majority of thousands, and they are opposed to the democratic system of making the Government a wet-nurse for political cripples, by providing job contracts for favorites, whenever they are defeated for office.

These are all Democratic measures, receiving the cordial support of the party. The candidates who were placed in nomination, by the democratic Convention, have to swear by this party creed, and it becomes you, as honest opponents of such measures, to prove your opposition by sustaining the men who are pledged to carry out your views and principles, whenever they have the power.

THE SAN JUAN DIFFICULTY.

Colon and County Matters.

Metereological Register for the Week Ending September 10th, 1869.

Table with columns: Date, Thermometer, Rain, Remarks. Data for Tuesday through Monday.

The degree of heat in the above register is the daily average of three observations.

THE RAIN.—By reference to our Metereological Register it will be seen, that the amount of rain during the storm of last week, was 5.60 inches nearly one sixth of the annual average.

THE STORM.—The equinoctial storm of Saturday, was very violent in this section of the county; on Friday, a disagreeable nor-wester set in; and the rain which commenced falling in the afternoon, continued without intermission until Saturday evening.

Several properties along the Spring, were flooded; and in one case, part of a family had to be taken from the house, on horses. We have not heard of any serious damage to property resulting from the storm; the rain will certainly be of great advantage to the farmers, as it will put their land in good order for seeding.

EFFECTS OF THE STORM.—The venerable old Locust tree, which has stood as a landmark at the West end of High street, probably since the first settlement of the town, was blown down by the storm of Saturday last. Another one of these old trees, still stands at the upper corner, against which, it is said, Gen. Washington leaned, as the troops fed past him, on their march to the West, during the time of the "Whiskey Insurrection." In some localities, this tree would be better cared for, than it is likely to be here.

CONCERT.—Our readers will no doubt be gratified to learn that the celebrated vocalist, Miss C. RICHMOND, will give a concert in Riegels' Hall, on Tuesday evening October 4th, assisted by her father, MR. PETER RICHMOND, and PROF. C. JARVIS, the popular Pianist.

Their appearance here, will give our citizens an opportunity of showing their appreciation of professional ability, when united with the virtues and accomplishments which adorn the social circle.

MORE INCENDIARISM.—About two o'clock on Saturday morning last, the carpenter shop of Mr. Henry Myers, situated on Chapel alley below Hanover street, was set on fire by some malicious person, and totally destroyed.

THE FIRE.—The fire which broke out in the carpenter shop of Mr. Henry Myers, situated on Chapel alley below Hanover street, was set on fire by some malicious person, and totally destroyed.

PARK BENJAMIN'S LECTURES.—Our citizens enjoyed a great treat last week, in the lectures delivered by Park Benjamin Esq., of New York, in Rheem's Hall. These lectures were got up by Mr. Rheem, for the purpose, to some extent, of dedicating his Hall to letters, and the higher grades of amusement.

On Thursday evening, he read a postulated lecture on the "Press," which he addressed with good "uh," and was well received by the audience; although a portion of it was too local in its character, to be well appreciated outside of the Meridian of New York City.

On Friday evening, the subject was "Marriage," and drew out of the largest audiences we have ever seen at a lecture in this place. The evening was very wet and disagreeable, and it must have been gratifying to the lecturer, to see that so many had braved the inclemency of the weather to hear him had the weather been favorable, the Hall would have been crowded to its utmost capacity.

Two MORE LECTURES.—We understand that Mr. D. B. Smith of Pennsylvania College, (Gettysburg) is making arrangements to deliver two lectures in this place in the course of a few weeks, previous to which time he will make another public announcement. The object of Mr. Smith's lectures are for the purpose of enabling him to present his Theological studies, and is therefore, true to the object of the Literary and Lecture Society of our community will favor him with full houses.

At his first lecture, Mr. S. will speak on the "Fallacies of Popular Education," and in his second, on "The Past and Present." The Lebanon Advertiser speaking of Mr. Smith's lectures on Popular Education, says:—"Although the lecturer is quite a young man, he presented new facts, worthy the consideration of all, and particularly those old champions in the cause, who may have thought they had consumed their death relative to the subject, without arriving at Mr. Smith did, and that was the fallacy of the present idea of Popular Education."

READING ROOM OF THE Y. M. C. A.

This new feature of our town, was opened for the first time on Monday evening last, and the attendance was much larger than the members anticipated. It is certainly a great convenience that persons can have free of expense, a comfortable room, well lighted and heated, with reading matter to read the news of the day; and we think the following list of papers offered, among themselves to young men, to make this Reading Room a general place of resort, during the long winter evenings, which are now approaching.

DAILY NEWS.—New York Tribune, Philadelphia Evening Bulletin, Inquirer, North American, Daily News, Evening Journal, Daily Sun, Columbus Georgian.

WEEKLY & MONTHLY.—New York Independent, American, Indianapolis Ind. State Journal, Philadelphia, American, Sunday School Times, Christian Advocate & Journal, Patriot & Union, Pittsburg Courier, Zion's Weekly Messenger, Chambersburg, Richmond, Enquirer, Union Lancaster, Express, do, Nashville Weekly Tribune, West Chester Times, New York Weekly Tribune, Lutheran Observer, Lutheran Messenger, Princeton Standard, Ill. Advocate and Family Guardian, Christian Observer.

HENRY FLORENCE.—Some weeks ago we published the account of an attack made by a party of Crow Indians, on four men who were returning from California, in which three of them were killed, and the fourth, a young man named Florence, well known to several persons here, was taken prisoner. Several of the friends of Mr. Florence in Carlisle, addressed the President Buchanan, on the subject, and we are glad to learn, by letters from the Department of the Interior, that measures have been taken for the recovery of Florence, and the return of the property alleged to have been stolen by the Indians.

We take the following extract from the letter of Chas. E. Mix, acting Commissioner of Indian Affairs, to Secretary Thompson of the Interior, under date of the 16th inst.

"The Crow Indians are embraced within the agency of B. S. Schomover (upper Missouri) who it is ascertained is returning from the payment of the Indians of the upper Missouri and Yellow Stone Rivers. Should he have in his possession any information in reference to the alleged imprisonment of Mr. Florence, it will be immediately communicated to his friends.

These Indians are a nomadic tribe and sometimes roam the vicinity of the upper Platte Agency, and as an act of precaution, Agent Trevis has been directed to inquire into the subject, and if it is true that Mr. Florence is a prisoner among the Crows, to take steps to release him, and also to endeavor to recover any effects of the party that may be in the possession of the Indians."

WM. ALLISON.—We had the pleasure yesterday, of an interview with Wm. Allison, Esq., of Perry County, one of our candidates for the Legislature in this district. He is a man of considerable talents, and we commend him to our friends, as a clever, unassuming gentleman, whose appearance and character, fully justify the choice of the party in making him their candidate.

FRUIT AND VEGETABLES.—We are glad to find that the article in the last Herald, relative to competition in the culture of fruit and vegetables has excited some attention among our farmers. On Monday last Mr. James B. Weakley of South Middleton township, brought to our office, five Turpocheen apples, the largest of which measured 18 inches in circumference, and weighs 13 ounces, the other four nearly reach the same average.

The finest tomatoes we have seen this year; the stem of one stalk bore seven tomatoes which weighed together, 34 pounds. The entire lot are very uniform in size, one half of them averaging 8 oz. and some considerably over it.

MECHANISBURG AFFAIRS.—The new banking institution at Mechanicsburg, went into operation on Monday last. Mr. Levi Kaufman has been appointed cashier, and the Bank will do business under the firm of Mumma, Merkle & Co. We learn from the Journal, that the new Presbyterian church was dedicated on Sunday the 10th inst. The Dedication discourse was delivered by the Rev. Dr. Magill. Upwards of one thousand dollars were raised towards defraying the expenses of the church.

TOBACCO FOR BOYS.—A strong writer administers a wholesome dose to the boy-chewers and smokers, assuring them that tobacco has spoiled and utterly ruined thousands of boys, inducing a dangerous precocity, developing the passions, softening and weakening the bones, and greatly injuring the spinal marrow, and the whole nervous fluid. A boy who early and frequently smokes, or in any way uses large quantities of tobacco, never is known to make a man of much energy of character, and generally lacks physical and muscular, as well as mental energy. We would particularly warn boys who want to be anybody in the world, to shun tobacco as a most baneful poison.

TRIBUTE OF RESPECT, U. P. Hall, Sep. 17th, 1869. At a meeting of the Union Philosophical Society the following resolutions were adopted.

WHEREAS, we have heard with deep regret the death of our brother, John T. Mohler, of Va. and feeling that in his loss our Society is deprived of a worthy representative, the members of our Society, do hereby resolve, that a mourning badge be worn on the breast of a mourning emblem. Therefore, Resolved, That while resigned to the care of a just Providence yet, we cannot but lament the untimely death of one so noble.

Resolved, That the United States Hotel be closed on Monday, Tuesday, Wednesday, and Thursday, in mourning, and that we wear the usual badge for thirty days. Resolved, That these resolutions be published in the Carlisle Herald and the Page Star, a copy of the same be sent to the family of the deceased.

JOHN E. GRANELL, R. SOUTHERN SURVEYOR, THOS. S. WILLIAMS, Com.

Sick Headache, Dizziness and Indigestion.—Where among all the remedies for these complaints, is there one which so quickly, so effectually, and permanently removes them as the Oxogonated Bitters?

FIRE AT EASTON.—Twelve of Dan Rice's Horses Smothered.—Easton, Sep. 17.—The stable attached to the United States Hotel caught fire this morning. The stables were occupied by the horses attached to Dan Rice's circus, and twelve of them were smothered. These, however, were mostly team horses, and the loss will not exceed five hundred dollars. The fire originated through the carelessness of a driver, who lit a fluid lamp full, causing it to burst, and scatter the flames among the combustible contents of the stables. The damage to the hotel was trifling.

THE BOSTON QUARTERLY

"The Boston Quarterly" is one of the best family papers published in the United States. It is full of thrilling tales, sparkling sketches, accurate news and advertisements, with that extra-razor and humor that overflows with laughter, and makes less people fat, and jolly; the cheerful poetry, the cream of the news, hand-fuls of Family Receipts, Agricultural Information; Prices of Produce, Cattle Market Reports, &c. It is a very valuable and entertaining journal. There are worth double the price of the paper, which is only \$2.00 per year.

THE BOSTON QUARTERLY. Address: HENRY DUHAN & CO., Olive Branch Office, Boston, Mass.

SPECIAL NOTICES. DALLEY'S MAGICAL PAIN EXTRACTOR.—In all diseases inflammation more or less predominant, now to all inflammation strikes at the root of disease, and no medicine, no matter how potent, will remove it, unless it is applied to the root of the disease.

DALLEY'S MAGICAL PAIN EXTRACTOR will cure the following: a great catalogue of diseases: Rheumatism, Sciatica, Gout, Sprain, Neuralgia, Headache, Toothache, Stomachache, Colic, Cholera, Cholera Infantum, Dysentery, Spasmodic Cholera, Cholera Morbus, Cholera Asiatica, Cholera Japonica, Cholera Mexicana, Cholera Indica, Cholera Persica, Cholera Arabica, Cholera Siamensis, Cholera Cochinchinensis, Cholera Sumatrensis, Cholera Java, Cholera Celebes, Cholera Sulu, Cholera Moluccas, Cholera Timor, Cholera Celebes, Cholera Sulu, Cholera Moluccas, Cholera Timor, Cholera Celebes, Cholera Sulu, Cholera Moluccas, Cholera Timor.
