CARLISLE, PA. Wednesday, Oct. 12, 1859.

THE ELECTION. The election yesterday was conducted with more spirit than any we have had: for some years; our friends contended every inch of ground, but the returns, as yet, are so imperfect that we can form no definite opinion of the general result in the county.

The hardest contest was made on the Treasurer; and Sponsler is elected over Killian, by a handsome majority. Some of the other candidates are running close. We are of the opinion that Irwin and Mc Curdy and prolably Allison have carried the county.

We give the majorities in the county as far as heard from.

CARLISLE, WEST WARD. Cochran 90, Kiem 94, Irwin 103, Mc' Curdy 104, Allison 102, Sponsler 192, Gorgas 170, Humrich 133.

CARLISLE, EAST WARD. 7 Cochran, 179, Keim, 175, Wright, 249 Rowe, 253, Irwin, 189, Crawford, 241, McCurdy, 184, Allison, 176, Church, 249, Power, 250, Humrich, 197, Gillelen, 230.

TREASURER.

· It is probable that Gorgas is elected Commissioner by a small majority.

Dispatches from Juniata, make Craw ford's majority 420, Mifflin, 100, and Perry about 100, which will elect him by nearly 500.

COUNTY FAIRS.

WASHINGTON COUNTY .- The Reporter says the late exhibition of the Washington County Agricultural Society was the finest ever held in the county. The number of entries exceeded by several hundred those of any previous year. The exhibition of live stock was indeed most gratifying, and afforded the best evidence that the farmers of Washington county are

LEBANON COUNTY .- The late Lebanon County Fair is regarded by one of our Lebanon exchanges as having been quite successful; about 1900 family, and 3000 single tickets were sold, amounting to \$2650. The rent received from various sources was about \$200 addition al, making a total of receipts of \$2850. This sum will be sufficient to pay all the expenses contracted this year, as also the debt of near \$1000 left over from last year for lumber.

SCHUYLKILL COUNTY .- The Annual Fair of the Schuylkill Agricultural, Horticultural and Mechanical Association commenced on Tuesday last, and continued three days. The Miner's Journal says that the display of articles was quite numerous, and the fair a decided success.

HARRISBURG WEEKLY TELEGRAPH.-This valuable paper has been recently enlarged, and otherwise improved, by the enterprising publisher. It is now one of the largest papers in the State, and those who wish full re ports of the proceedings of the next Legisla ture will do well to subscribe for it.

Three days later news has been received from San Francisco, by the overland mail. The election, which was held on the 7th ult., had resulted in the choice of Latham the Lecompton candidate for Governor, by an estimated majority of 20,000. The vote on the congressional ticket was much closer with little chance, however, for the election o Baker and McKibben, the opposition. There was a prospect of the election of the anti-Lecompton candidate for State printer. Both branches of the Legislature are democratic. -The People's Reform ticket has triumphed in San Francisco.

The Military encampment held at Lock Haven last week, is said to have been a very creditable affair. Thirteen companies were in attendance. Gen. Wm. H. Kiem, of Reading, the People's candidate for Surveyor General, spent a day or two at the encamp-ment, and we learn made a very favorable impression among the troops, both as a mili-tary officer and as a man.—Muncy Luminary.

QUALIFYING HIMSELF .- The London Quar

terly for July has the following: "A native of one of the South Sea Islands went to a Missionary desiring baptism. On his confession that he had two wives, he was told that he could not receive the sacrament until he should promise to be contented with only one. He retired without asking further explanation. The next day he presented himself again and reiterated his desire for baptism, saying he had only one wife, 'Upon ex-amination it was discovered that he had qualifi-ed himself for the ceremony by killing and eat-ing one of his wives.

Judge Ludlow delivered a decision on Saturday morning, in the Court of Quarter Sessions, in the case of Wm. H. Jeandella, charged with a breach of the peace in run ning a passenger car on the Sabbath. The defendant was discharged, on the ground that his act of driving a car did not seriously disturb citizens in their enjoyment of wor. ship, and therefore no breach of the pence was committed within the meaning of the

"aw.

PERILOUS BALLOON VOYAGE,

Our readers are, no doubt, aware that Mr. La Mountain, the propaut, and Mr. Haddock! editor of the Waterton (N. Y.) Reformer, made an ascension, from that place on the 22nd of September. As some days passed, without dings from the voyagers, great apprehensions were entertained for their safety, and,

nore memoratida. I put up my note book, pengil and watch, and settled down into he basket, as much at home as though at my osition in the Reformer office. From this coint until the next morning I can only give are experiences from memory. The figures in the preceding narrative were all made at the preceding narrative word an america

oan he depended upon as accurate.
We heard, soon after dark, a locomotive whistle, and occasionally could hear wagons "We heard, soon after dark, a-locomotive whistle, and occasionally could hear wagons rumbling along the ground or over a bridge, while the dogs kept up an almost ceaseless sevenade, as if conscious there was something in the sky monstrous and unjusual. We sailed along, contented and chatty, until about haltpast seven, when we distinctly saw lights and heard the rouring-of a mighty waterfall. We descended into a valley near a very high mountain, but as the place appeared rather forbidding, we concluided to go pagain. Over with 30 bs. of hallast, and skyward we sailed. In about twonty minutes we again descended, but this time no friendly light or "deep-monthed watch dog's heavy bay" greeted us. We were over a small lake. We had our life preserver over dense wilderness, and settled down over a small lake. We had our life preserver over dense wilderness, and settled down over a small lake. We had our life preserver over dense wilderness, and settled down over a small lake. We had our life preserver over dense wilderness, and the settled down over a small lake. We had our life preserver over dense wilderness, and the settled down over a small lake. We had our life preserver over dense wilderness, in the weard over a single of the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a small lake. We had our life preserver over dense wilderness, in the settle down over a the extreme top of a tall spruce, which stopped the extreme top of a tall spruce, which stopped hor descent, and we were soon fastened to it by the large drag rope. The touch of that spruce sent a thrill of discomfort to my heart for I know that its kind-did-not-grow-in-any well settled nor any warm country.

Mr. La Mountain said, after he looked around and made as much of an examination.

round and made as much of an examination

La M. reized the valve cord and discharged gas, and we descended in safety by the side of a large spruce. We made the Atlantic has by her anchor, and for a moment talked over what we should do. We had not a mouthful by her anchor, and for a moment talked over what we should do. We had not a mouthful to eat. No protection at night from the damp ground, were distant, we knew not how far, they absorbed. We slept but little. It really from habitation, were hungry to start with, no earthly hope of of raising a fire, and no distinct idea as to where we were, we concluded to trust to the compass kindly loaned by II.

K Newcomb, Esq., and take a course which would bring us out of any wilderness we might of the Ottawa—and knew that a course south by east would take us to out if we had strength enough to travel the distance. La M. stepped up to the balloon and gave the edge of the basket a parting shake, saying "Good bye, old Atlantic," and I fancied I could see a tear in his honest eye when he said it. He seemed greatly to regret his inability to perform his engagements at the Kingston and New York State Fairs at both of which he was advertised to make ascensions.

TRAMPING IN THE WOODS.

To the southeast, then, we started. After travelling about a mile and a half we came to the bank of a small creek, flowing down from the westward. At this point we were agreen bly surprised to find that some human small trees cut down, the coals from an old fire, and a half barrel which had contained pork. I cagerly examined the stamp, It read, "Mess Pork, P. M., Montreal." This settled the question that we were ie Canadafor I very well knew that no Montreal inspection of pork over found its way into the in-terior of New York State. We traveled all day Friday up the unknown creek, which kept its general course to the south of west, crossing it about noon on a floating log, and striking it about noon on a floating log, and striking on its southern-bank a "blozed" track which led us up to a deserted timber road, bying on the opposite side from a large timber ing shanty. We hoped one of the lumber roads might take us out to a settlement; but after travelling up them all until they terminated in the wilderness, we concluded to cross the creek to the sharty, and stay in it all night. La Mountain got across safely; but my weight was greater than his, and the raft let me into the stream. I sank in all over, and swam out, though it required all my strength to do so, and optreaching the bank I found myself so chilled as scarcely to be able to stand. I took of my clothes, wrung them, and we proceeded to the sharty, where we found plenty refuse straw, but it was dry, and under a pile of it we crawled, pulling it over our heads and faces in the hope that our breath might aid in warming our chilled bodies. I think the most revengeful, stony heart would have pitted our condition then. The weary hours of night at last, wore away, and the creek to the shanty, and stay in it all night. La Mountain got across safely; but my weight was greater than his, and the raft the shanty was covered with the halves of logs, scooped out in a manuer familiar to all wood men. Why not, then, take four of these, tie them to cross pieces by wythes and agaph old things as we could find around the sharity, and pole the structure down to that civilization which a saw log ought to be able to reach. Such was the course we adopted. We dragged the logs down to the creek, and La Mountain tied them together, as he was evidently more of a sailor than myself. We got under way, the logs down to the creek, and La Mountain tied them together, as he was evidently more of a sailor than myself. We got under way, and as we pushed off a crow set up a dismal cawing, an inauspicious sign, and ominous of the great trials and suffering in store for us. We could hardly believe our senses, and oredited anything favorable to course trials and suffering in store for us. We poddled down stream, about ten miles, and came abrubtly upon an immense pine tree which had fallen across the stream completely blocking the passage of the raft. No other alternative was left but to untie the pieces, and attempt to push them through under the log. This was at last done, ited the raft together again, and poled her down stream. To-day we set each a raw frog, all we could find, and began to feel that we were lungry. But there was no complaining—our falk was of the hope ful future and the civilization we hoped yet to reach. Down the creek we went into a late some two miles long, and into which we of course supposed the stream passed, having its

outlet at the lower end. We followed down the northern bank, keeping always in shallow spots, so that our poles could touch the bettom, until we arrived at the bottom of the lake, where we found no outlet and turned back upon the southern bank in quest of it. On reaching the head of the lake we found that the current of the creek turned abrubtly to the right, which was the reason-of our losing it. We felt happy to have found it again, and plied our poles like heroes. We, passed, during the day, the spot where we had first struck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek, and where we had made a truck the creek turned abrubtly to the surprise when he told me we were 100 miles denorth of Ottawa—in the dense, uninhabited wilderness. whose only limit was the dense uninhabited wilderness. When he told me we were 100 miles denorth to the came in with a balloon, were lost, and had been four days without food—asking where we were. Imagine my surprise when he told me we were 100 miles denorth to the came in with a balloon, were lost, and had been four days without food—asking where we were. Imagine my surprise when he told me we were 100 miles denorth to the came in with a balloon, were lost, and had been four days without food—asking where we were. Imagine my surprise when he told me we were 100 miles denorth to the came in with a balloon.

extreme weigniness enabled us to get, perhaps, so. The clouds had all lifted from our somball and hour's steep. Rising again (for it bre future, and the "silver lining" shane all unknown stream, than to lie on the ground which we had passed. unknown stream, than to be on the ground and freeze) we pressed on fore a couple, of hours, until about 3 o'clock, when pure exhaustion forced as to stop again. This time we found a spot where the clayey bank lacked a little of coming down to the water. On the mud we threw our little bundle of straw, and sat down with our feet drawn up under us, so that our heat bodies presented as little sur-

We went back, and after examing the stream

we went once, and there examine the stream attentively, concluded to try to get the raft down. Wa at once commenced, and I freely confess, the most trying and laborious of nife pf labor. The pieces would not float more than a red at a time, before they would stick on some stone which the low water left above the surface and then you must ray it. of the seenery as we could do for the one of the seenery as we could do for the ones and rain (for it had rained the past hour,) that the 'Atlantic was played out—we were far into the woods, and if we got out alive we ought to be thankful.

We rolled ourselves up in our blankets and patiently waited until morning. The rain dripped down upon us in rivulets from the great balloon, and it was not long before we were as wet as men could be. After a night passed in great discomfort we were glad to see the morning brake, the typical precurser, wwwere to learn, of many other mornings to be spent in these unjahabited wilds. We waited until six o'clock, in hopes the rain waited until six o'clock, in hopes the rain swinch and that the rays of the sun, by waited until six o'clock, in hopes the rain swinch are considered by the resolution as could be expected.

The house was a high one, and at misstep or a step too far would have purported the distance. The house was a high one, and at misstep or a step too far would have purported the distance. The house was a high one, and at misstep or a step too far would have purported the distance. The house was a high one, and at misstep or a step too far would have purported the case, and the distance. The house was a high one, and at misstep or a step too far would have purported the case, and the result unit the edit and there. The house was a high one, and at misstep or a step too far would have purported the distance. The house was a high one, and at misstep or a step too far would have purported the distance. The house was a high one, and at misstep or a step too far would have proven the distance. The house was a high one, and at misstep or a step too far would have better the distance. The house was a high one, and at misstep or a step too far would have better the distance. The house of each middle and thought of the distance. The house was a high one, and at misstep or a step too far would have better the distance. The house of each middle and thought of the distance. The of the scenery as we could do for the dark-ness and rain (for it had rained the past hour,) above the surface, and then you must pry i be spent in these uninhabited wilds. We waited until six o'clock, in hopes the rain would cease, and that the rays of the sun, by warming the gas in the balloon, would give us ascending power sufficient to get up again, for the purpose, if no other, of obtaining a law of the country into which we had decided that the day we went up. A round we went the day we went up. A round we went the day we went up. A round we went view of the country into which we had descended. The rain did not cease, and we concluded to throw over all we had in the balloon, excep a coat apiece, the life preservers, the anchor and the compass. Overboard, then, they went—good shawls and blankets. Mr. Fayel's overcoat, bottles of ale, and a flask of cordial, ropes and traps of all kinds. The Atlantic, relieved of her wet load, rose majestically with us, and we were able to behold the country below. It was an unbroken will define out that we had group of the whole in the wind might not drift it away during the wind lind in stay up, as we were drifting farther and still farther to that "frozen tide" from and still farther to that "frozen tide" from which we knew there could be no escape. Mr. La M. reized the valve cord and discharged gas, and we descended in refer by the hile. our nighty wrestlings in the canon had torn the skin from ankles and hands. La Moun-tain's hat was gone the first day out; he had

Let that delight you." His voige was hardly above a whisper, but the song wits a source of comfort to me. His, indeed, was a "gallant mind,"which the extraordinary perils and hardships of our position had not daunted. But when we found that all the weary miles of our morning travel had been in vain, and had to be retraced, my resolution entirely failed me for a moment and I sat down on the end of the raft and felt like shedding one tear of genuine regret. Yet we felt that our duty as christian men was to

press on as long as we could stand, and leave the issue with God. It had now been four full days since we had seen some images weighing twenty-three eaten a meal. All we had caten in the mean-ounces, and some little ones of not over one good. Our strength was beginning to fail very fast, and our systems were evidently a-bout to-underge an extraordinary change. I had not allowed myself to think of food—the had not allowed myself to think of food—the thought of a well-covered table would—have that: The large gold is deeper than the small. No bones are found in the graves, but traces Strain's sufferings on the Isthmus of Darien of humaff hair are found in some. There have

would have pitied our condition then. The weary hours of night at last wore away, and we held a new counsel. It was evident, we held a new counsel. It was evident, we used for "driving" logs in the spring, season. If then, we followed it to its confluence, with holds are recorded to the second was we could several times. the Ottawa or some stream which emptied into the Ottawa, we could in time get out the same way the timber went out. The roof of I called La Mountain's attention to what I thought was smoke curling up among the trees on the side of a hill. My own eyesight had begun to fail me to an extent that I could

sa appears from their marrative, not without cause. Their account is too long, to publish entire, but we give such parts as are most interesting.

Mr. Haddock, describes the particulars of the ascension, variations of the flevinometer, and states that, they attained an elevation of three and a half miles, and a velocity of about me hundred miles an hour.

Mr. Haddock says:

Mr. Latenta says and s

THRILLING INCIDENT. An incident of thrilling and almost terribl nterest, combining in itself all the palpitat ing chances of hair-breadth escapes and the

Mr. Moreton gained his side, when his gaze fell upon a form, shrouded from head to foo in a long white night dress, about which a mass of long-hair tell in wild-confusion. The spectral form paced slowly to and from the narrow ridge board which covered the

companied the act, when the walk was again til there was no ruther reaching, and then clutched again, with a quick, convulsive smitch, and were withdrawn. The form was motionless a moment; and then commenced its walk again, continuing as far as the middle of the root, when the turned to what the rear of the house, and moving down the slope.

of the roof, was lost to sight.

Mr. Moreton recognized the features and form of his aervant girl, about 18, named Jane Mooney. "She descended through a skylight to her nown room. Hustening in; he troused his wife, and went with her to the girl's room, and found her sitting on the side of the bed, wide awake, and in a state of mind bordering on distraction. She had no knowledge of the occurrence, but had been tering the house, and found herself standing in the middle of her own room in the condi-tion described. The girl had been suffering from a brain fever, from which she was grad unlly recovering.

Chiniqui Images .- Last week we saw in the windows of Bailey and Co, and Caldwell, jewellers of Philada., quite a number of the golden images taken from the tombs of Chiri qui, in Central America. A letter to the Bulletin, dated DAVID, Chiriqui, Aug. 1, says:

"I have only time to drop you a line to say that the story of there being plenty of gold in the 'huacas' is no humbug I think that three-fourths of the nativos who have return-ed have each from \$500 to \$10,000 worth of gold I shall go up to the place, about 30 miles from this place, where there are about 300 natives digging. The Indians are coming in every day with from \$300 to \$500 worth, which sells here at \$1,60 the Castilians, or which sells here at \$1,60 the Castliana, or ahout \$9,60 per ounce troy weight. Some of it is mixed with copper, but the greater part is pure gold. The Indians want to sell the poor, but hold on to the finest gold. I have oighth of an ounce. I have a lot of pots, im-ages, corn-grinders, &c., taken from the graves. The graves are all single, dug in the ground, and are covered with nine or ten flat stones from the river. They found pots and other earthenware about four feet below the

twelve years ago a party of gentlemen, then residing in this place, went down the river on a gunning and fishing excursion. They took with them camp equipages, and provious sufficient to last them a week. Among their provender they had several bottles of brandy, and while in one of their convivial modes, and so agreement to have one of moods, made an agreement to bury one of the bottles, and let it remain upon the island intil only one of the party survived, when he should procure the bottle, and drink its contents with his friends, and revert to the memory of the departed ones. The persons that composed the party have all but one been called to their final rest, and the surviv or yesterday started for the spot where the bottle is buried, to fulfil the promise made to his departed companions.—Harrisburg Patriot, Oct. 8.

MISS RICHINGS' CONCERT.—The hour at which our paper went to press last week, precluded any notice then, of the delightful concert given by Miss Caroline Richings, assisted by her father, Mr. P. Richings, on Tuesday evening, in Rheem's Hall. It was a refined and elegant musical entertainment of the most attractive character, and the au dience manifested their appreciation of its merits, by rapturous applause. In liquid purity of tone, and skilful execution of difficult passages, Miss Richings has no rival among native artistes; her beautiful trills, are as distinct and clear as the warblings of a bird, and are made with as little apparent. effort. We never fully realized the beauty of Longfellow's poem on Hiawatha, until we heard Miss Richings' musical recitation of the wooing and wedding feast; and the Indian melody at the conclusion, composed by the fair can/atrice herself, showed to perfection, the exquisite smoothness of her voice, The entertainment embraced selections from several eminent composers; but, to our taste the Scotch ballad of Down the burn Davy, was the gem of the evening. The comic scenes between Mr. and Miss Richings, included a duet from the "Daughter of the Regiment," and Florovanti's singing lesson. Mr. Richings also gave us "Largo al Factotum," from the Barber of Seville, with fine

-Miss-Richings-is-represented-as-a-highly accomplished young lady, as much distinguished from her private virtues, as her ar tistic eminence; of Mr. Richings, it is only necessary to say, that for the last twenty years he has been acknowledged as one of the brightest ornaments of the American stage-a finished actor and an estimable gentleman.

The audience was one of the largest we have ever seen assembled at a concert in this place, and the most perfect order prevailed throughout. The impression left by these fine artistes, has been such as to ensure them a full house whenever they may find it convenient to repeat their visit."

The solos by Mr. Jarvis, evinced great abilities as a Pianist. The instrument used on the occasion, was furnished by Mr. John

Robbery.-Mr. Jacob Zug, of this orough, had about ninety dollars stolen from his desk, on Saturday last On, Tuesday, a german, who gave his name as Joseph Miller, was arrested on suspicion of being the thief. This man, was in Mr. Zug's house a short time before the robbery, and saw notes lying within the leaves of a book in the desk, a short time afterwards, during Mr. Zug's absence, the book, with its contents was taken.

MILITARY ELECTION.—At an election for commissioned officers of the SUMNER RIFLE COMPANY, held on Monday last, the following

Captain-Christian Kuhn. 1st. Lieutenant - Augustus Zug. 2d. " - Peter Monyer.

Our Book Cable.

THE ATLANTIC MONTHLY for October, is out with its wonted punctuality. It is an excellent num. ber, in all respects. The contents are as follows:—
"Daily Beauty," (by Richard Grant White;) "The Artist Prisoner;" "The Minister's Wooing;" "Old Papers;" "Rifled Guns;" "A Trip to Cuba;" "Blondel;"
"The Wondersmith," (by Fitz James O'Brien;) "Roba dl Roma," (by W W. Story ;) "La Malanotte;" "The Professor at he Breakfast Table ;" "Literary Reviews." The failure of the firm of Phillips, Sampson & Co., will occasion no interraption to the publication of The At-LANTIC. which has obtained a circulation sufficiently large torgive it a permanent existence. A VOICE FROM VIRGINIA

A VOICE FROM VIRGINIA

DR. SETH S. HANCE:—I was in Baltimore in April, 1854, and from a paper I received of yours was induced to buy a box of your Fills, recommended as a sovereign cure for the Epileptic Fits. At that, time one of my servants had been afflicted with fits about twelve years. When reaching home, I commenced with the pills according to directions, I do not think she has had one since. My wife, though, is somewhat induced to believe she may have had one only. Enclosed you will find five dollars, for which you will please forward me two boxes. I suppose you can forward them by mail. Your compliance will oblige me. Yours respectfully. M. P. Shfor. Dr. Honce's Epileptic Fills are als a sovereign remody for every meditication of nervous diseases. The ner your sufferent, whether tormeuted by the acute, physical agody of nournigia, tied-correnx or ordinary headache, affileted with vague terrors, weakened by periodic fifst, threatened with paralyses, been down and disease. ache, affileded with vague terrors, warkened by periodical fits, threatened with paralyses, borne down and dispirited by that terrible lassitude which proceeds from a lack of nervous energy, or experiencing any other pair of disability arising from the unnatural condition of the wonderful machinery which connects every member with the source of sensetion, medition and thought—derives immediate benefit from the use of those pills, whicheat once coins, invigorates, and regulates the shattered nervous orgalization.

Sent toany part of the country by mail, free of postage. Address SERI S. HANCE, 198 Thaltimore street, Halmore, Md. Price, one box, 23: two 5: twolves 421.

and made. 233 Broadway, New York. nov 17,58-1y

TO FARMERS.

Vingi nia Lanes.—The undersigned, is now prepare to furnish, in any quantities, from 100 to 1000 acres, or ore, good farming and growing lands, in Randolol and adjacent counties, in western Virginia, within 12 ler 15 hours of Baltimore, and 24 of New York.

The land is fertile and well timbered, the climate very healthy, and so mild that sheep can be ordinarily wintered with very little feeding, and where a cow can be raised as cheap as a chicken in New England. They will be sold cheap, and on easy terms, or exchanged for Improved property, or good merchandisc.

Address, with P. O. stamp, B. Franklin, Clark, 118

Walnut Street, Philadelphia.

Dr. Wistar's Balsam of Wild Cherry The unequalled success that has attended the appli-cation of this Medicine in Coughs, Colds, Asthma, Bronchial Affection, Diseases of the Throat and Lungs, In cipient Consumption, has induced many physicians nigh standing to employ it in their pra whom advise us of the fact under their own signature WISTAR'S BALSAM OF WILD CHERRY RECOM-'MENDED BY PHYSICIANS.

S. W. FOWLE & CO.—Sirs:—I most cheerfully add us testimony in favor of the Balsam. We have used it tour family, in Pulmonnry affections, Coughs and Cold and esteem it a most valuable remedy, and have recommended it in various complaints of this nature with in rariably happy results.

W. B. I. Valor.

variably happy results. W. B. LENGH, M. D. MANSFELD, Trock Co., Pa., Aug. 1838.
Gantlemen:—Having used in my practice the last four years, Wistar's Balsam or Wild Cherry, with great success, I more cheerfully recommend it to be as affiled with obstinate Coughs, Colds, Asthma. &c.
H. D. MARTIN, M.D.

with obstinate Coughs, Colds, Askhma. &c.

CAPE VINCER, D. MARTIN, M. D.

CAPE VINCER, I. M. MARTIN, M. D.

Gentlemen:—After using Dr. Wistar's Belsam for a
long time I can say from Fejeated observation that I
regard it as one of the beat kind of Cough medicines,
and take great 'pleasure in recummending it to the
affileful.

BROWNYILLE, N. J., July 18, 1858.

Genta:—Having sold Wistar's for two, years past and
having used the same myself with great success. I
cheerfully, recommend to all who are suffering with
Asthma or Consumption.

A. A. Gilbs.

THE GREAT RESTORATIVE. FEVER AND AGUE CURED BE DR. M'LARE'S LIVER PILLS.

LIVER PLUS.

172. Mr. Jonathan Houghman, of West Union, Park County, Illinois, writes to the propriet rs, Fleming Bros., of Pittsburgh, that he had suffered greatly, from a severe and protracted attack of Fever and Ague, and was completely restored to health by the use of the Liver Pills alone. These Pills unquestionably, possess (Egraat tonic properties, and can be taken with decided advantage for many diseases requiring invigorating remedies; but the Liver Pills atand pre-eminent as a means of restoring a disorganized Liver to healthy as tion; hence the great celebrity they have atalened. The numerous formidable diseases arising from a diseased Livery, which so long buffled the skill of the most eminent, physicians of the United States, are now rendered easy of eye, thanks to the study and perseverance of the distinguished physician whose name this great modicine bears—a name which will descend to peaterly, as one descring of gratitude. This invaluable medicine should always be kept within reach; and on the appearance of the earliest symptoms of diseased Liver, it can be safely and usefully administered.

1879 Purchasers will be careful to ask for DR. M-LANES CELEBRA RINE LIVER PILLS, manufactured by FleMING, BROS., of Pirrsbusch, PA. There are other Pills purporting to be Liver Pills, also biscelebrated Vermifue, can now be had, at all respectable drug stores. Nonegenulne Medical PLEMING BROS.

DAGUERREOTYPES.-In beauty and duability, no "Sun drawn" picture equals a good daguer-rectype; this is the opinion expressed by the leading Photographic Journals of the day, both American and English; these may be obtained at the rooms of Mis. synolds, Louther Street, two doors west of Hanover... Carlisle June 15'1850-tf

RIND STONES.—150 Grind Stones of all sizes just received at II. SANTON'S. So doz. Fly Nots, of all colors, Linen. Cotton and Twine, chaper than the cheapest, at H. SANTON'S. May 25, 1859.

Read the advertisement of Dr. SAN-FORD'S Liver Invigorator.

The Markets.

THE INDIANS.—St. Lous, Oct. 7.—A despatch from Independence says the mail which left there on the 10th uit., for Santa Fe, was attacked by the Indians below Pawnee Fork.— CARLISLE PRODUCE MARKET. Reported weekly for the Herald by Woodward & Schmidt. The conductor and one of the passengers were killed. The incoming mail, due last Tues-day, has not yet arrived at Independence, and fears are entertained for its safety. Information has been received at Washing FLOUR Superfine, per bbl. do. Extra, do. Family ton, that Coloner Sumuer, as soon as he heard of the attack on the Santa Fe mail-sent a de-Rep. do tachment of dragoons, to Pawnee Fork to pun-ish the offending Indians. It will probably be necessary to retain troops at the Forks to prevent a recurrence of Indians outrages.
