mildly but powerfully, and soon restores them to a condition essential, to the healthy discharge of the functions at nature. Elderly persons may use the Bitters daily as per directions on the bottle, and they will find in it a stigutant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this-preparation while suffering from stomaolf de-rangements and general delfility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merity of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if the he young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggranted. Here, then, is a necessity for a stimulant to recupe-rate the energies of the system, and enable the mother to hear up under her exhausting trials and responsibilities.
