MAMMOTH PAPER MILL -- We learn from the Philadelphia North American, that a contract has just been completed in that city, for the erection of a Paper Mill, near Havana, Cuba. which is believed to be the finest structure of the kind in the world. The main building is ,300 by 60 feet; the machinery embraces all the modern improvements, and is capable of making six thousand pounds of paper a day.

POLYGAMY IN UTAH .--- The recent vote in in the House of Representatives, in favor of the anti-polygamy bill, indicates that one of the "twin-relics," will soon be wiped from our national escutcheon. The Senate dare not refuse its assent to it and the President will doubtless approve it; as we may fairly presume, that a man who has not been able to secure one wife, would have serious objections to other men having half a dozen.

THE BOY PREACHER -- We learn from the Telegraph, that Crammond Kennedy, known as the "Boy Preacher," was to preach in Harrisburg, last Sabbath. He is described as a rosy-faced boy, yet under eighteen years of age, with wonderful powers for one so young, and curiosity induces growds to attend his preaching.

THE WYOMING MASSACRE.-Mrs. P. Wee den the last survivor of the Wyoming Mussa cre, died in March last. Wm. Martin the father of Mrs. Weeden, settled at Wyoming, from Rhode Island a few years before the massacre. Mrs. Weeden was twelve years old at the time, and she retained a vivid recollection of the massacre until her death-She was a prisoner with her sister in the fort where every male was put to death by the tomahawk. The sisters left the valley with their father and mother, and travelled with a flag of truce, through the then dense for est, till within forty miles of the Connecticut river. There they were met by two of Mr. Martin's sons and taken to Colchester.

Mr. Buchanan, felt that a victory was no cessary, to sustain the sinking fortunes of his party, and hence every appliance known to Locofoco wire-pullers, was used to prevent an honest expression from the people of Connecticut. It is a matter of congratulation therefore that in the face of such an opposition, the Republicans of that gallant state, have seoured the control of the State Government in 'all its branches. But however gratifying this result may be, the diminished majorities should teach our friends an important lesson, if they hope to be successful in the Presidential campaign. Let it admonish extremists, that a conciliatory policy, towards those who may differ from them on "outside issues," is absolutely necessary, to effect a thorough organization of the entire opposition; and that with-'out such an organization; the most powerful efforts will avail us nothing.
