M'CORMICK'S REAPER AND

MOWER HIGHLY IMPROVED FOR 1860.*

Constructed from the first on correct principles, it has always been eminently successful, and with its present improvements fully meeting all the requirements of the ago, it now defeas all competition.

Farifors who may desite it are at liberty to work one of these Machines intrough tho harvest with any other, and keep and pay for the one preferred

The Machine is now-perfectly balanced, not leaving a pound weight on the horses' neck; its execution in reaping and mowing, in both wet and dry is perfect; it cuts the widest swarth, and as now made, with the lightest draft of any machine new principle, on the grain side, wholly relieves the horses from the pressure of the unschine from strain in turning, and is so arrainged that the cutting bar is completely and easily thrown over obstructions while in motion by the driver without the use of lovers and complicated machinery. A very decided and important feature in its improvement consists in its perfect arrangement for separating and cleaning the track in mowing.

It is the most simple, most substantial, most durable and in every fray the most complete and reliable leaning and chort wider. For particulars address.

New Guilford, Franklin County, Pa., Agent for Franklin and an and Cumberland counties LOCAL AGENTS.
