Our readers may remember we have on several occasions spoken in very subgistic terms of a preparation which Dr. Skrif S. Have, r. of 108 Baltimore street, Battimore, Md. has discovered for the curs of Epilepile Fits, Now, in doing so, we have been actuated by the very best in clives, via: the allowistion of human rediering. From circumstances which have haby come to our knowledge, we four there be a coltain class of persons who are not disposed to fay this remedy. In a commonsense manner. We allowed to the fact of selecting a particular case in a town where perhaps there are six origin cases, and trying it, on one case. Now, perhaps the sake in a town where perhaps there are six origin cases, and trying it, on one case. Now, perhaps the sake in a town where perhaps there are six origin to associate thing it is fit in the sake of the sake persons were stricken down with cloubra in one town or neighborhood, would they all send for a physician, or would only one employ him, and with and see if he cured the first patient? That plan with and wait and see if he cured the first patient? That plan of precedure would be most absurd. So in this case of Dr. Hance's remedy, every one who has Pits should try it for a reasonable length of time. It will include. In the case of the cured the sealing on the accomplished at once. An aperient and Stomach preparation of IRON puri d of Oxygen and Carbon by combustion in Hydrogen netioned by the highest, Medical Authorities, but Europe and the United States, and prescribed in eli practice. The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexious indirate its nevessity in aim at every conceivable case.

Innoxious in all unabdies in which it has been tied, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhora, Dysentery, Incipient Consumption, Tuberculosis, Sait Rheum,
Mismenstruation, Whites, Chiorosis,
Liver Complaint, Chronic Headaches,
Rheumatism, Intermittant Fevers,
Pimples on the Face, &c.

Plumples on the Face, &c.

In cases of Jeneral Bellitty, whether the result of scute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would ronder credible. Invalids so long bed-ridden as to have become forgetten in their own neighborhoods, have suddenly re appeared in the busy world as if just roturned from protracted travel in a distant land. Some very signal instances of this kind are attested of founds Bufferers, cuasciated victims of apparent marasmus, sangulineous exhaustion, critical changes, and that complication of nervous and dyapeptic aversion to air and exercise for which the physician has no name. In Nervous Affootions of all kinds, and for reasons familiar with medical men, the operation of this preparation of iron must necessarily be adultary, for unlike, the old exides, it is vigorously tonic, without being exciting and overheating; and gently, regularly apperient, even in the most obstimate cases of contiveness without ever being a gastrip purgative, or inflicting a disagreeable somation.

It is this latter property among others, which makes

without ever being a gastric purgative, or inflicting a disagreeable sousation.

It is this latter property among others, which make it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispursing the local tendency which forms them.

In Dyspopsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendent Costiveness, ness,
In unchecked Diarrhea, even when advanced to Dysentory, confirmed, emaclating, and apparently mailgnant, the effects have been equally decisive and astoniahing.

entery, confirmed, emaciating, and apparousy manayment, the effects have been equally declaive and astonishing.

In the local pains, loss of fiesh and strength, debiliting cough, and remittent heetic, which generally indicate incipient Consumption, this remedy has allayed the alarm of irlends and physicians, in soveral very graitifying and interesting losinances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of farales cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rhoumatism, both chronic and inflammatory—in the latter however, more decidedly—it has been invariably well reported, both as allevising pain and reducing the awellings and stiffness of the joints and musclers. In internition, Fovers it must necessarily be a great remedy and energy the reverse that necessarily be a great remedy and energy the reverse that the constituences in the new sattlements of the West, will probably be one of high renews and usefulness.

No remedy has ever been discovered in the whole history of medicines, which exerts such prompt, happy, and fully reberative effects. Good appellet, complete digestion, rapid acquisition of attength, with an unusual digosition for active and cheeriui exercise, immediate ly follow its use.

fully restorative areas to a strongth, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in next flat metal boxes containing 50 pills, price 50 ceuts per box; for sale by druggists and dealers. Will be sont free to any address on receipt of the price. All letters, orders, etc., should be addressed to R. B. LOOKE & Co., Gameral Agents.

YCORMICK'S REAPER AND
MOVER HIGHLY IMPROVED FOR 1860.
Constructed from the first on correct principles, it has always been eminently successful, and with its present improvements fully meeting all the requirements of the age, it now defea all competition.

Farmers who may desire it are at liberty to work one of these Machines through the harvest with any other, and keep and pay for the one preferred
The Machine is now perfectly balanced, not leaving a pound weight on the horses' neck; its execution in reaping and mowing, in both wei and dry is perfect, it cuts the widest swarth, and as now made, with the lightest draft of any machine now in use. It is so constructed that the labor of raking off is vary much lightened, a castor wheel, can an entire new principle, on the grain side, wholly relieves the horses from the pressure of the machine from strain in turning, and is so arranged that the cutting bar is completely and easily thrown over obstructions while in motion by the driver without the use of levers and complicated machinery. A very decided and important frature in its improvement consists in its perfect arrangement for separating and cleaning the track in mowing.

It is the most simple, most substantial, most durable and in every way the most complete and reliable Reaper and Mower in the world, and as such is Warranted. The Tro horse Machine (with any draft for two horses,) cuts a swarth 5½ feet wide, and the Four Horse Machine a foot wider. For particulars address.
