Delegate Election --- County Conven tion.

Pursuant to public notice the Standing Committee of the people's party of Cumberland County met at the "wigwam" of the Lincoln Club in Carlisle, on Saturday, the 28th July. Col. Thomas Paxton was appointed Chairman, and R. P. McClure, Secretary. On motion it was

"Resolved, That the People's Party of Cumberland County, and all friendly to the election of its candidates be, and they are requested to meet in their respective Boroughs. Wards and Townships, on Saturday, the 18th day of August next,-in the Townships between the hours of 3 and 7 o'clock P. M., and in Boroughs and Wards between the hours of 6 and 8 o'clock P. M.,-to appoint two delegates from each of the said Boroughs, Wards, and Townships, to represent them in a County Convention to be held in the Court House, in the Borough of Carlisle on Monday the 20th day of August next, at 11 o'clock A. M., for the purpose of nominating a County Ticket.

Resolved. That these proceedings be signed by the officers and published in all the news papers in the County friendly to the cause. THOMAS PAXTON,

President. R. P. McClure, Secretary.

TO CORRESPONDENTS. The "Susquehanna Boys" will see that we have been obliged to cut down their commu-

nication. We shall be glad to hear from our friends, in all parts of the county, but let the articles be brief.

An accident to the press has delayed our paper a few hours behind the usual

POSTPONED-The regular meeting of the Carliele Lincoln Club to-morrow evening, will be postponed until the 25th, on account of the Delegate elections.

LINCOLN MEETING .- A meeting will ro be held at the STONE TAVERN on Friday evening, the 24th inst., for the purpose of forming . Lincoln Club. Messrs. Todd, Sharpe, Lee and others will address the meeting.

The Hon. B. F. Junkin, member of Congress, will address the citizens of Mechanicsburg this evening, on the political topics of the day. We hope our friends there will turn out in strength, and give Mr. Junkin a hearing.

. THE MEETING.—Hone B. E. Junkin arrived in town, rather unexpectedly yesterday, and consented to address the citizens at the Court House in the evening. The meeting was quite large, considering the shortness of the notice, and Mr. Junkin's remarks were heartily applauded by the audience. When Mr. Junkin concluded, loud calls were made for Mr. Todd, who responded in an elequent speech. We wished that every man in the county could have heard these gentlemen, and regret that our limits prevent us from giving au outline of their remarks.

Old Berks in Motion!

The People's county meeting at Reading on the 6th inst., is said to have been the largest meeting ever held in Berks county. The Hon, Robt. M. Palmer, of Schuylkill, addressed the meeting. In the evening the "Wide Awakes" had a grand torch-light procession and afterwards formed a mass meeting in the square, to hear an address from Isaac Hazelhurst, of Philadelphia.

Democratic Union and Harmony. The Democracy of Fulton county held meeting at McConnelsburg on the 10th inst. in which a regular skirmish took place, and the meeting broke up in a row.

"During the absence of the editor of the Democrat, Mr. Sansom, at Cresson, the Breckinridge party entered the office of that newspaper, mutilated the forms, run up the Breckinridge flag and issued an edition of the paper under that banner.

THE DROUGHT IN KANSAS.—Statements of the drought in Kansas are said to be exaggerated. Although the drought has been very severe in some portions of the territory, yet it is to be believed that all sections have a fair prospect of a sufficiency for home con... sumption, and site paterings are as soft a

TAINTED MEAT. - A butcher in Har-- risburg was fined last week for selling tainted"

We again remind our friends that to morro is the day appointed by the Standing Committee for the delegate elections. It is often the case that these delegate meetings are neglected, and the business left to the managenent of the few, who, having some personal interest at stake, are induced to attend. In this instance, we enjoin it upon our friends as a duty they owe to themselves and the party, to see that good, reliable men are sent in as delegates to the County Con vention, who will discharge their duty faithfully, unswayed by private or personal feelings. With a good Convention, the people will have that confidence in their action that will induce them to unite heartily in support of the ticket, even at the sacrifice of personal

The County Convention. The machinery of a convention of delegates to form a county ticket, is a matter of convenience, to avoid the necessity of the whole people assembling in mass meeting, for that purpose. The delegates bear the same relation to the party, that the members of the Legislature do to the people, and are supposed fairly to represent the wishes of a majority of their constituents. It will be seen therefore that they occupy a responsible position, and it is fair to presume that they will not knowingly abuse the powers delegated them. It will be conceded, that the object of the party is to place a ticket in the field composed of mon, pledged to sustain the principles they advocate; qualified to discharge the duties of the several offices for which they may be nominated, and with sufficient personal popularity to obtain, at least the full party vote. The duty of the Convention, therefore, is a plain one. We hold that no man has a claim on

men who can best satisfy the Convention on on these points, should be the nomince, regardless of previous announcements, personal preferences, or claims for party service. . The duty of selecting candidates from among o many worthy men, who have been, and may yet be named for the various offices in the county, will be a delicate one: but we trust the Convention will discharge it as men determined to do right, and that when the ticket is formed the members of the party will smother their private griefs and sustain the action of the Convention, in a united effort to

motto of our friends be "everything for the cause-nothing for men," and a glorious vicory awaits us.

The Democratic Convention. The Democratic County Convention met at Carlisle on Monday last, to form a county

The general appearance of the Convention was very different from that of former years. That vaunting self-confidence, once so conpicuous, was dissipated: no enthusiasm was nanifested, and a dark cloud rested over their deliberations. They seemed to feel that the was stalking among them, and looked every noment for the spectre to make his appearince. Fortunately the programme was made out in advance, by the men who control the wires; the ticket was regularly "out and dried," and they were enabled therefore to them to risk a second visit to the "haunted question, "shall the convention now adjourn o take their grog," it was voted down, and the whole business was concluded at one sitting. The following victims were prepared

for the sacrifice:-Assembly, Wm. J. Shearer; Prothon Benjamin Duke; Cierk of Courts, John Floyd Register, Joseph Thompson; Commissioner, Samuel Megaw; Director of the Poor, George Shaeffer; Auditor, Elias Eyster; Conferees, Jos. Anderson, Sam'l. Emminger, Peter Tritt. dential candidates, not a word was said .-They were afraid to "face the music," and herefore as usual in critical times, they shirked the question. In regard to the nom ination for Commissioner, there is evidently "a nigger in the wood-pile," judging from the following which we clip from the Volun-

With one exception the ticket nominated or Monday by the Democratic County Convention, is composed of excellent and deserving men and good Democrats. The exception, it is needless to say, is the candidate for County Commissioner. This nomination, considering he manner in which it was brought about will be repudiated by an immense majority of indignant Democrats. The crowded state of our columns prevents us saying more in regard to the ticket this week. In our next we

hall speak of it more at length. The Crops of 1860. In all portions of Pennsylvania an unusually valuable grain crop has been gathered, and the term "harvest home" this year means mething. The quality too is of the first class, and those who have bad bread this year. must put the blame on the cook, and not on

but little stock now to feed it to. On this

ubject an exchange says: "The Committee on Farms, of the State Agricultural Society of Wisconsin, have made a careful estimate, from which they set down the wheat crop of Wisconsin for the year 1860, at twenty-two millions of bushels. This will probably exceed the crop of any other State in the Union. In 1850, according to the cen-sus, the heaviest wheat-growing State was Pennsylvania, whose crop amounted to 15, 307, 601 bushels. The crop of Wisconsin, in that year, was 4,286,131 bushels. For a comparatively small State, the crop estimated for the present year is amazing. Orrespondingly large crops in the other Western States, with a fair Eastern and European demand, will go far towards relieving the embarrassments of the West, and enabling the farmers

The Democratic Committee at Oresson. The State Central Committee of the Democratic party went to Cresson last week, to see what virtue there might be in the medicinal waters of that mountain resort, for the healing of the disunion in the Democratic party.-Whether or not, they have found a balm in the Alleghany region, remains to be seen. Every effort was made to conciliate the rival factions, and a good deal of feeling manifested on both sides. The following resolution was

finally adopted and the committee adjourned:

"Resolved, That the democratic electoral ticket be headed with the name of Douglas or Breckinridge, as an elector at large, and in the event of the success of said ticket, if a greater number shall have been cast for Doug-ins, then the vote of the electoral college of the State shall be cast for Douglas and Johnson; but if for Breckinridge, then for Breck-inridge and Lane; if the vote of Pennsylva-nia canno: elect the candidates for whom the majority of votes are east, and can elect any man running for President claiming to be a democrat, then the vote of the electoral col-lege shall be east for that candidate; if it will not elect either of the democrats for whom it votes of the State, and the chairman of this committee be requested to obtain from the electors their several and distinct pledges of acquiescence in the foregoing resolution, and report the result of his action at a future meeting of the committee."

"Now, God save us from such a muss as one. We hold that no man has a claim on the party for services rendered, and in three cases out of four, where a nomination is given in acknowledgment of such claims, the party is defeated. The inquiry should be to the fitness and availability of the candidate; and the and availability of the candidate; and the capture of the party of the party of the candidate; and the capture of the party of the candidate; and the capture of the party of the our feet as comething too vile for any honorable Democrat to touch We venture to say that it will not receive the approval of any honest Douglas man in the State who has in-

ALL HAIL ST. LOUIST Late news from St. Louis show that Frank Blair, notwithstanding the first report to the contrary, is really elected to congress over Barret, for the short, as well as the long term. The votes stand as follows: LONG TERM.

-But in this account, there are two hun dred votes for Blair which were intended for both terms, butwere counted for the long term only. The St Louis Democrat says: ELECTION OF BLAIR FOR THE SHORT TERM

It will, therefore, we submit, be the duty of the proper authorities to give Mr. Blair what he is so obviously entitled to.— Indeed, we cannot imagine that Mr. Barret who so affects to hold the verdict of the ballot box sacred, however informally the voting may have been accomplished, would have the hardihood to claim the seat for the short

term, under the circumstances. It was the most severely contested election ever fought in St. Louis; but the Republicans have won the victory without trade or

coalition of any kind. The Democrat says: Our victory is a straight-out Republican triumph. True, we gave our votes as a general thing to the Union State ticket, but this we did from high motives of public duty, and without asking or receiving number out, and without asking or receiving any return. St. Louis at, therefore, a Republican city. We had to withstand the unpleasant sentiment occasioned by the "Impending crisis," a work which, now that election is over, we will say that we do not indorse. The contest has been fought by indorse. THE RECENT RAIN .- After a long spell of dry weather, which threatened destruction to all vegetation, our county was visited on Sunday night and Tuesday with copious rains, which have gladdened the hearts of the farmers, and relieved us from the sweltering heat. Under the influence of the rain, a tolerable crop will vet be realized from the corn and potatoes, and the ground be put in excellent order for seeding.

The rain we find by the North American, reached Philadelphia, where it commenced falling on Monday morning about 11 o'clock, and continued until Tuesday, doing considerable damage. Over six inches of rain fell

north. It might be supposed by many who have not witnessed this beautiful pauorama, that there is too much sameness in the views to keep up the interest; in this, however, they will be agreeably mistaken. There is an ever-changing variety in the scenery sketched by the artist, that never tires, and so much perfection in detail, that the imagiso much perfection in detail, that the imagination is sometimes lost in the vivid reality. We have never seen a panorama which displayed so much artistic excellence: from the shipping in the harbor of New York, to the gorgeous hues of the ice caverns, there is a truthfulness and vigor of pencil which stamps Mr. Heilge as one of the first scenic artists of the day. To those who have read "Kane's Arctic Explorations," as published by Childs & Peterson, of Philadelphia, it recalls in the most impressive manner the fortitude under intense suffering, of these courageous men who, animated by the hoblest philanthropy, braved the perlis and privations of arctic life. Mr. Thomas Hickey, one of Dr. Kane's faithful companions, appears at each exhibition,

in Esquimaux costume..... We learn that Mr. McCauly, after closing here, will open at Chambersburg on Saturday evening, and we take pleasure in commending the panorama to the patronage of the arty. loving citizens of that borough.

SUNDAY SCHOOL CELEBRATION .-- Acording to previous arrangements a Sunday school Celebration was held in a grove near Centreville, on the 4th of August. The following schools were represented, viz:

about 50 scholars.
6. Mt Rock—Anthony Shambaugh, Sup't., with about 60 scholars.
7. Mt. Hope—Geo. Dellinger, Sup't., with about 45 scholars.

The children of each school met at the Lutheran church in Centreville. at 10 o'clock, A. M., and marched to the grove, headed by their Superintendents, and accompanied by their teachers, parents, and others. After they had been comfortably seated on the enches which had been provided for the occasion, the exercises were commenced with singing by the choir, and prayer. Addresses were then made by Rev. A. Tripner, of the United Brethren Church, and Rev. A. L. Guss, pastor of the Lutheran church, in Centreville and vicinity. The immense assemblage then adjourned to partake of the abundance of the 'good things" provided for that purpose .-After the dinner had been disposed of accordto the tastes of all concerned, a great concourse of men, women, and children was again assembled around the speaker's stand where they were entertained by addresses at the hands of G. How much pleasure the testator might have secured to himself, and how much benefit to the recipients of these legacies, if he had made these donations years before his death, so that he could have seen the practical workings of his benevolence. But the love of wealth is so strong in the human heart, that men only yield it up with life: and then make virtue of necessity, by giving away what is about to slip from their grasp forever. The man who "rises early, sits up late, and eats the bread of carefulness," to amass money, and at the close of life, uses it to purchase a post mortem reputation for charity, will find, too late, that the widow's mite when placed in the opposite scale, will make his thousands kick the beam.

Mr. Editor.—In a late number of the Her ald we noticed an account of the recent Sun day School celebration at this place, and thought perhaps it would not be out of order to give you some account of the general im-provements and business prospects of New Cumberland. Many have been impressed with the idea that this is rather a "slow" town, and some

that this is rather a "slow" town, and some have even gone so far as to designate it the "jumping off place." To such we would say, "come and see," and we feet assured you will soon be inclined to reverse the picture. For intelligence, courtesy, and Christian deportment, the citizens will compare favorably with any community in the State; while in the extent of her lumber warker machinery and tent of her lumber market, machinery, and business enterprize, New Cumberland stands unrivalled. In the way of improvement during the last year, much is due to Messrs: James & Mosser, in the enlargement of their extensive planing mill and sash factory, and the introduction of new machinery, enabling them now to compete with any similar establishment in the State or elsewhere. EVEN THOSE who are in the enjoyment of perfect health frequently have need to have recurse to tonics as preventives of disease. We are never too well armored egainst the assaults of "the lils that firsh is helf to." Such an invigorator they may find in HOSTETTERS—in medicine that cannot be taken regularly without giving vitality and elacticity to the system. At this assawn particularly, the strongest man is not proof against the malaria, in certain sections of the country. In all cases of fever and ague, the Bilters is more potent than any amount of quinine, while the most dangerous cases of billious fever yield to its wonderful properties. These who have tried the medicine will never use another, for any of the allments which the Hostetter Bilters profess to subdue To those who have first yarded the experiment, we cordially recommend an early application to the Bilters, whenever they are stricken by disease of the digestive organs.

Sold by druggists and dealers generally everywhere.
