ODJECTS AND CHARACTER OF THE SCHOOL.

Mount Washington College affords to its pupils, ample means and appliances, for thorough physical and intellectual training, with all the advantages and surroundings of a Christian family.

Provision is made for physical education, in the daily practices of calistenic exercise, the value of which has been seen, in the improved health and fuller musual development of the pupils of the College. The vendahs and extensive grounds taid out in beautiful walls, furnish both the invistation and opportunity for healthful recreation in the open air.

As regards intellectual culture, it is believed that the course of study and methods of instruction adopted at Mount Warhington, are, to say the least, equal to those of the best schools in the country. The studies in which its pupils are engaged, with the free oral teachings that accompany each recitation, and the frequent delivery of formal lectures on sciontific or literacy subjects, with choice readings from the Classic poets and proce writers of the English language, combine most favorably, to produce the best form of true womanly cultivation.

In this connection, it is adomed proper to mention and

manly cultivation.

In this connection, it is deemed proper to mention, as one of the great advantages of the institution, and as materially affecting its character and contributing greatly to the successful accomplishment of its objects, that it is exclusively a Boarding School, and that no pupils are admitted, but such as are, in full, members of the College Family. pupils are admitted, but such as are, in full, members of the College Family.
