HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBIATED STOMACH BITTERS can appeal with perfect confidence to physicians an distinct as generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak fore powerfully than volumes of bure assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount near one million bottles. This immense an mear one minion bottles. This immense amount could never have been sold but for the rare medicinal properties contained in the preparation, and the sauction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic decomposities. efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is estimation of an invaluable medicine, which js...
destined to be as enduring as time itself.
Hostetter's Stomach Bitters have proved
a Godsend to regions where fever and ague
and various other bilious complaints have
counted their victims by hundreds. To be
able to state confidently that the "Bitters"
are a certain cure for the Dyspepsia and like
discusses it to the recognitions. lisenses, is to the proprietors a source of unalloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stoanach, liver, and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature.

to a condition essential to the healthy discharge of the functions of nature. Elderly persons may use the Bitters daily-as' per directions on the bottle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the howels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned rangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity sarrive during the summer season, the wear of hody and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperrate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of bodily strength.

All those persons, to whom we have particularly referred above to with a wind with and carry control of the strength and they referred above to with any tentre for the carry of the strength and those persons, to whom we have particularly referred above to with a strength and the second carry to the carry of the carry of the strength and there are the carry of the strength and the strength and the second carry of the strength and the second carry of the strength and the strength and the second carry of the strength and the strength and the second carry of the

All those persons, to whom we have particularly referred above, to wit; sufferers from fever and ague, caused by malaria, diarrhoea, dysentery; indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.
