STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERIER'S CELEBRATED STOMACH BITTERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore unknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest steady increase in times past, it is evident that during increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could\_never have-been-sold\_but-for-the-rare medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in these sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficiety in all cases of stomachic derangements and the diseases resulting therefrom.

and the discusser resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum peting the qualities of the Bitters, but a solid estimation of an invaluable medicine, which is estimation of an invaluation medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of undiseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildty but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of the functions of the functions of the functions of of the functions of nature. Elderly persons may use the Bitters daily as per directions on the bottle, and they will find

per directions on the bottle, and they wan ma-in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palato, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evi-dence of thousands of aged men and women who have experienced the benefit of using this propagation while suffering from stomach dewho have experienced the benefit of using this preparation while suffering from stomach derangements and general debility is acting under the advice of physicians, they have abandoned all deletorious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their carves are so harassing that many of them their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to-forget her own health in her extreme anxiety for her infant: Should the period of maternity arrive during the summer season, the wear of shady and mind is generally aggravated. Here, then, is a necessity for a stimulant to recupe then, is a necessity for a stimulant to recuporate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase of beddily strength.
