An aperient and Stomach preparation of IRON puritied of Oxygen and Carbon by combustion in Hydrogen Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of theusands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost over conceivable case.

Innoxious in all maladies in which it has been tried, thas proved absolutely curative in each of the follow.

Pimples on the Face, &c. In cases of General Debility, whether the result of acute disease, or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would ronder credible. Invalids so long hegi-diden as to have become forgotten in their own neighborhoods, have suddonly reappeared in the busy world as if just returned from protracted travel in a distant laind, some very signal instaleces of this kindare attested of femalo Sufferors, emaclated victims of apparent-marastmus, sanguineous exhaustion, critical changes, and that complication of nervous and dysperite aversion to alread exercise for which the physician has no pame. In Nervoux Affections o'rall kinds, and for reagons familiar with medical men, the operation of this preparation of from must necessarily be satisfary. For unlike thould exides, it is vigorously tonic, regularly aperient, even in the most obstinate cases of continuess swithout ever being a gastric purgative, or inflicting, a disagreeable sensation.

It is this latter property among others, which hankes Pimples on the Face, &c.

ishing.

In the local pains, loss of firsh and strength, debiliting cough, and remittent heetle, which generally indicate helpient Consumption, this remedy has allayed the slarm of themds and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated from has had far more than the good effect of the most cautious by balanced preparations of lodine, without any of their well known liabilities.

The attention of fewales cannot be too confidently invited to this romedy and restorative, in the cases peculiarly affecting them.

In Rheumanism, both chronic and inflammatory—in the latter however, more decidedly—it has been invariably well reported, both as alievating pain and reducing the swellings and stiffness of the joints and muscles. Inflintentiates fewers it must necessarily be a great remedy and onergetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy-has ever been discovered in the whole history of medicines, which exerts such prompt, happy and tuly restorative effects. Good appette, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, inmediately follow its use.

Put up in next flat metal boxes containing 50 pills.

1st. A saving of from 30 to 60 per cent. in fuel.
2nd. A hotter and quilker Oven from the same fire,
3d. A larger Oven than any other stove of the same size,
4th. The preservation of the centre plece from shaking
saving repairs,
6th. As uperior arrangement for cleaning the flues,
7th. A perfect fas Consumer for either was der ceal.
