EDW. CHAMBERLAIN & CO. Proprietor of Shawmut Chemical Works, No. 33 INDIA Street, Boston. CONCENTRATED LEAVEN is the result of careful chemical research. All its ingredients are prepared in the highest state of purity, and compounded with a view to produce bread of a far better quality, and in much less time, than by any other process; and the manufacturers submit it, with entire confidence, to the judgment of discriminating housekeepers, bakers, &c.

Bread of all kinds made by using Concentrate Leaven, is lighter, more digestible and nutritions; has an agreeable natural taste; is less liable to sour; will rectain its moisture longer than by any other process, and the whole preparation for the oven need not exceed ten minutes.

tain its moisture longer than by any other process, and the while preparation for the oven need not exceed ten minutes.

It is valuable because it is not perishable, and may be rendered available in places and at times when yeast is not within reach, as at sea. In all climates and under all circumstances, it may be alonged, thus obvirting all difficulty of procuring yeast or any other forment, which is trequently of an interior quality, rendering the bread more or less nuwholecome.

It leaks valuable as regards conomy, as it has been ascertained, that a savint is effected in the flour of not less than 10 per cent. In the common process much of the xecknizine of the flour is lest by being converted into carbonic acid gas, or spirit, and the waste in heart of the flour is lest by being converted into carbonic acid gas, or spirit, and the waste in heart of the flour is less than 15 years (Concentrated Leave, this waste is avoided, and the group obtained in simanure equally effections. Fermentation, as has been stated, destroys a part of the flour or meal, and, in obsequences, a barrel of hour weighting 100 lies, which, by the common method, ordinarly makes about 250 lies of bread, giving by this process 200 lies, thus effecting the very important saving of 10 per cent in the quantity of flour. By confirming to the directions on each package, any pieson capable of ordinary attention may conduct the process, and the result will invariably be highly satisfactory.

CERTIFICATE FROM DR. HAYES, Assayer to the State of Marsachusetts.

Assayer to the State of Marsachusetts.

"I have analyzed the Concentrated Leaven, manufactured by Messra, Edw. Chamberlain & Co., with reference to its purify and efficiency of action in producing the effect of yeast in distending dough, and thereby rendering it fit for making bread. This article is skillingly compounded, from perfectly pure material. It raises the dough without consuming the stear or any other principle in the float, perfectly; and the same weight of flour will preduce more sweet, pulatable bread than can be obtained through the aid of yeast; while for cakes and pastry it is invaluable, as it haves all risk and much time of the pastry cook.

"The experiment is made by me comfirm the statements made by the manufacturers, and prove this compound worthy of public approval and extended use.

"Respectfully."

Read the following from the New York Merchant—We are happy to Inform our fellow citizens that there is one place; in our city where the physician, applicacy, and country merchaitle, can go and purchase pure Wines and figures, as pure as imported, and of the best quality we do not intend to give an elaborate description of this merchant's extensive burdness, although it will well repay any stranger or citizen to sist Udolpha Wolle's actualism waterfolds street. Heralso has three large cellars filled with Brandy, Wine, &c., in casks, under Custom House key, ready for bottling. Mr. Wolfe's steps of Schmapps last year amounted to one hundred and cichity thousand dozen, and we hope in less than two, jears he may be equally successful with his Brandles and Wines.

His business merits the patronage of every lover of his species. Private families who wish pure Wines and Liquors for medical use should send their orders direct to Mr. Wolfe, until every Apothecary in the land make up their midds to discard the poisonous stuff from their shelys, and replace it with Wolfe's pure Wines and Idquors for medical use should send their orders direct to Mr. Wolfe, and the accounts and found their scheders in the avoid of the service of the standard of the poisonous
